

How to Get a Man

There are plenty of women who spend a great deal of time and energy trying to figure out how to get a man to love them, and the truth is that there are definitely ways to manipulate a situation with a man, to tease him until he just can't stop thinking about you and becomes obsessed with you. You've probably actually done this yourself in the past, though unwittingly - you've told a guy you were available for a date, then cancelled at the last minute then called and apologized profusely and scheduled another date... Keep this type of back and forth up, and as long as you do it nicely, and are sincerely sorry when you cancel and apologetic, and don't let him know that you're doing it on purpose, and you will end up with a man who just can't stop thinking about you - because everybody knows that men love the thrill of the chase.
