**THREE DECADES OF LEGACY**
**BUILT ON CREDIBILITY SINCE 1986**

One vision, one goal, and one decision can transform the world for the better.

Renu Corp, formerly known as Renuka Sales, was founded by Mr. Dilip Wankhade after he identified a gap in the market for businesses that can help banks protect their valuable customers' belongings. With five subsidiaries, Renu Corp. currently has a solid presence across India.

We aspire to be a global conglomerate that consistently advances, adds significant value, and generously helps communities.

As a result, in addition to our large array of innovative products and exceptional solutions, we have our own foundations that constantly strive to make people's lives better and protect our ecosystem.

Our competence is providing unrivalled value to any project (big or small) and completing each task within the time frame set without sacrificing quality. With over 30 years of ethical business practices, Renu Corp has evolved into a national juggernaut in a variety of industries; including bank security equipment, interior design, modular furniture manufacturing, and civil construction. For us, progress is being aware of what we stand for. Renu Corp is motivated by the desire to launch successful projects and develop innovative solutions across the country. Our talented employees and partners are constantly reimagining our companies with ground-breaking concepts that have the potential to create change.
A team of over 5000 people working in five different sectors is the foundation of the group's core purpose, and we keep our valued clients and customers at the core of it all.

—----------

Through structured strategies, capable leaders, and teamwork, we constantly work to improve things for our clients, distributors, partners, employees, shareholders, and the environment.
Our collaborative efforts over the three decades to create and spark possibilities, has expanded into the Renu Corp group.

Our "Design and Build" methodology has become our identity as a result of our extensive experience and years of successfully completing projects across India.

Together, we work to shape the future with forward-thinking leaders and when we collaborate, we produce amazing results.
With highly qualified, enthusiastic, and motivated staff from various industries, Renu Corp strives to become the largest conglomerate in the country.

## THE MEANING BEHIND OUR LOGO

Our newly redesigned logo was recently unveiled. We gave careful consideration to developing a logo that captures what we do and could represent our business goals.

The idea behind Renu Corp's logo is to symbolize people, the world, and infinity – the never-ending efforts to bring the best initiatives and solutions for people and the planet.

- The blue ribbon-shaped graphic represents the unceasing pace of the company's development while also expressing our long-term goal of enhancing our presence throughout the world.
- Our planet and its inhabitants are represented by the blue dot. The entire sign resembles the structure of a human body when viewed from a wider angle.
- The blue color of the logo, which stands for tranquility, security, and our coordinated business processes, represents Renu Corp's national operations.

—----------

## RENUKA SALES

A robust security system is crucial when it comes to protecting tangible assets like cash, gold, important documents, and so forth. Renuka Sales has partnered with Guardwel, one of India's top security companies known for creating high-quality security solutions using cutting-edge technology.

**Our bank security product line includes:**

- Doors to secure safe rooms and vaults
- Lockers for safe deposit
- Fire-resistant metal containers
- Cabinets
- Security safe

Renuka Sales has been synonymous with avant-garde and comprehensive security solutions for private, public, and nationalized banks over the years.

## INTE-RISM PVT.LTD.

## DESIGNING SPACES AND STRATEGIES THAT IMPROVE PEOPLE'S LIVES.

Inte-rism is a comprehensive interior design firm that embraces thoughtfulness, creativity, enthusiasm, and excellence. The name itself denotes interirorism (interior + -ism) – a theory that truth is discovered by introspection rather than by examination of the outside world. Inte-rism is involved in the art and science of enriching the internal atmosphere of commercial building structures such as banks, hotels, shops, hospitals and corporate offices while paying close attention to our own ideas, thoughts and feelings about the projects.

We connect design and functionality with our customers' expectations and personal interests by employing modern, ecological, and flexible solutions, carving out a name for ourselves not just through our unique designs, but also through our efficient working style. Our team is composed of industry experts who undertake any interior designing project right from surveying the site, planning and working on 3D modelling, undertaking the construction with top-tier materials whilst exceeding the expectations of the clients.

**As part of our coordinated partnership, we:**

Determine your lifestyle requirements | Recognize your taste | Examine the potential of your available space.

**Our steel structure and PEB Work encompass:**

- Industrial sheds
- Design, manufacturing, and installation of Hot Rolled sections and PEB structures following the specifications
- Vehicle parking and façade design
- External wall cladding (ACP)

We specialize in transforming ordinary commercial properties into elegant and practical workplaces. Following avant-garde design trends is where our brilliance begins. We work with our clients to make their working environment pleasant and productive, beginning with identifying the essence of the location and space analysis, then moving on to space planning and design. The last-mile advice we offer to the project staff contributes to the successful completion of our undertakings.

**Project Management Consultancy**

The Inte-rism team holds robust experience in managing projects for both institutional and residential clients. Our professional team offers the best real estate project management and construction management services. We assist our clients by closely supervising, organizing, designing, liasoning, budgeting, and execution within the set budget. Inte-rism Project Management Consultancy aids real estate investors, property developers, builders, and investment banks with expert guidance and suggestions. Our people go beyond traditional PMC services by looking for ways to provide value at every phase of the project, which benefits both developers and end consumers.

- Design Review and Value Addition
- Project Planning & Pre-Construction Services
- Quantity Surveying
- Project Approvals Monitoring
- Construction Management

## ARCHITON DESIGNERS PVT. LTD.

Architecture has the potential to not only connect aesthetic and solid structure, but also to significantly enhance the situations of individuals, communities, companies, and the planet. Our clients in leading industries and well-known real estate names have acknowledged us

for our service excellence. However, our job is defined by far more than our accolades. It is characterized by our tendency to experiment with fresh thoughts and use technology and data to question established norms. It is defined by evidence that excellent design can promote better outcomes as well as assist people's health, country's infrastructural development and planet's wellbeing. And it is defined by our capacity to design architecture that not only makes our society more stunning, but also smarter, sustainable, and fascinating.

**Architon's Turn-Key Solutions**

- Gypsum
- Glass & Metal
- Painting Work
- MEP
- Civil Work
- Furniture's

## RENUKA ENGINEERING

## CONNECTING PEOPLE, PLACES, AND PIONEERING TECHNOLOGY TO TRANSFORM THE NATION'S STRUCTURES AND FACILITIES

Our engineers build solutions that help clients achieve the ambitious results they desire, whether it be safety, modernity, occupant comfort, organizational effectiveness, or future expansion. The building structures we design today are much more ecological, robust, adaptable, and efficient than ever before because at Renuka Engineering, we combine breakthrough technology and tried-and-true benchmarks.

Renuka Engineering has a reputation for delivering straightforward assistance and innovative solutions to complicated geotechnical and civil engineering challenges. We commenced engineering projects in 2010 with a commitment to excellence, technology-based solutions, and future-ready innovations.

Our construction engineers and managers collaborate to find the most effective solutions to project difficulties. We hire the brightest young brains and the most seasoned individuals to engage, learn, and create to surpass anticipated outcomes. The ground may not always provide the foundation required for strong building. Civil and geotechnical engineering

necessitates a fresh perspective, specifically when physical obstacles or geologic constraints are involved.

We are clever. We operate for you, with you and care about your necessities. To address this market, our engineers hail from all over the nation. The solutions we cater stimulates our interests. We seek the most effective solutions, not the easiest ones. Collaborate with us to obtain the greatest blend of international know-how, ground-breaking techniques, and cost-effective civil engineering solutions. Our world is rapidly changing; to meet these difficulties, we are drastically altering the way infrastructure is built, implemented, and maintained. Our goal is to contribute to the creation of a world that is varied, healthy, full of flourishing communities, and works better for everybody.

## How do we operate?

- Site identification and survey
- Understanding the client's needs
- Concept Development
- 3D Design conceptualization
- Bill of quantities (BOQ) preparation
- Estimation and price of projects
- Workflow management and project execution planning
- Collaborative efforts to ensure a smooth implementation
- Management of project task progress reports
- Project completion and report submission

---

Renu Corp has a reputation for leveraging creative ideas, executing excellent projects, and adhering to worldwide ethical standards, guided by professionals and managed by skilled staff. Our primary goal is to create efficient and cost-effective solutions in all areas of our operations - today, tomorrow, forever.

**THINKING BIG, THINKING BOLD, THINKING BROAD, THINKING FOR A BETTER WORLD.**

Passion

Passion fuels enthusiasm for what we work on and the way we do it. With enthusiasm at the core of all we do, we nurture concepts, encourage brilliance, and create innovative methods to remove barriers to progress.

Ambition

We will never stop pushing the boundaries of what is achievable. We are always contemplating the future and how we can conceive a larger picture and achieve greater.

Innovation

We collaborate to innovate. Our clients' feedback assists us in new solutions that adequately suit their business requirements. Constant technological advancements and innovative initiatives provide our clients with a competitive edge.

Inclusion

Everyone is entitled to equal opportunity. We think that every individual despite of gender, class, religion deserves equal opportunities and tools they need to succeed.

Infusion

Redefining security, interior designing, civil engineering, and furniture industries in a meaningful way through strong, purposeful collaborations.

—---

Renu Corp, a value-driven corporation acclaimed for its integrity, honesty, and sense of social responsibility, has created a humanitarian company culture to empower individuals, groups, and communities while addressing the requirements of clients and patrons.

Aside from our dedication to social issues, how we generate revenues for our firm is a vital aspect of

corporate governance. For us, corporate governance is concerned with how we regulate our three bottom lines: economic, social, and ecological. It determines our purpose and the quality of our interactions in critical domains of impact such as the workplace, the marketplace, and the community as a whole.

**VISION:**

To continually create and nurture mutually rewarding long-term partnerships with our suppliers, business associates and customers; revolutionize the Indian economy with an innovative business binding method.

**MISSION:**

To be the leading conglomerate providing world-class and competitive products, services, and CSR efforts that creates value for internal and external stakeholders as well as enhances societal value.

**CORE VALUES**

**As a conglomeration of diverse solutions, we are bound together by a set of organizational ethos that guide us forward.**

TODAY: keeping intelligence, information, inspirations, and breakthrough innovations at the core of our operations across all subsidiaries by working unitedly.

TOMORROW: Be the reason for our client's happiness and gratification, who belong to various sectors.

FOREVER: Enrich the existence of every living being of our planet perpetually by propelling our investment in products, people, and effective operational processes.

## Leading the change

Our leadership team drives our firm, directs our strategies, and inspires our people to continually achieve better.

MR. VAIBHAV WANKHADE, MANAGING DIRECTOR, RENU CORP.

---

## Seva Bahuuddeshiya Sanstha

**SMALL STEPS EVERYDAY, TO DRIVE A BIGGER CHANGE.**

**(I) Planting for our planet**

Every day, the world loses Thirty million trees while accumulating a Hundred million tonnes of carbon. It's past time to start working on making amends. It won't be tough if more people connect with us. Through our environmental initiatives, we plant thousands of trees across the Country and install tree guards to safeguard them.

(II) **Embarking on a better future by encouraging eco-friendly festivals**

Through campaigns, programs, and conferences, we encourage communities to be more environmentally conscious by making more sustainable choices during celebrations. Eco-friendly festivals are held in such a way that they cause least damage to the environment. It is through the continual efforts and better actions of every individual as a responsible citizen, that we can bring forth eco-friendly celebrations for generations to come.

(III) **Committed to children's education to drive a brighter future.**

"The children of today will make the India of tomorrow" – Pandit Jawaharlal Nehru

Education is the most effective tool for transforming the world for the better and it's the most efficient way to escape the poverty cycle. Despite this, almost Fifteen crore underprivileged children in India are out of school. It's a horrendous truth.  Some of them do so owing to a shortage of fundamental school supplies such as uniforms, textbooks, notebooks, colours, compasses, and so on. Every child, no matter his/her background should have a complete opportunity to receive basic education and create a brighter future for self and our nation. Through 'Aapli Shaala' (my school) initiative, Seva Bahuuddeshiya Sanstha sponsored 211 disadvantaged and talented students from 14 different schools and provided them with necessary classroom supplies for a year.

(IV) **Game-changing actions for aspiring athletes**

Many phenomenal Indian athletes, from MS Dhoni to PV Sindhu, and from Neeraj Chopra to Jeremy Lalrinnunga, have transformed the face of Indian sport throughout the years by excelling in multi-sport tournaments at the world level. Seva's mission is to empower India's budding athletes by

developing their skills at the grassroots level and helping them to pursue athletics as a profession with the essential tools. Sports equipment and accessories (footballs, table tennis kits, chessboards, badminton sets, and skipping ropes) are being donated by our teams to schools and sports institutions around the country.

(IV) **Helping strengthen businesses for a stronger economy**

Entrepreneurship is vital to the economy for a range of reasons, including employment creation and societal transformation. The Government of India is launching multiple initiatives to foster an environment of entrepreneurship and innovation across the country. However, many youths and citizens, particularly those who live in rural regions, are either unaware of how to profit from the government's programs for entrepreneurs belonging to various sectors or do not know how to benefit from them. We aspire to enrich the lives of young individuals with new business concepts by organizing awareness events in several states of India.

---

## EMERGING THROUGH COVID-19 CRISIS

THE **CHALLENGING TIMES**
COULDN'T STOP OUR **STRONG COMMITMENTS**

The real estate industry was negatively impacted during 2020-2021 by the sharp rise in novel coronavirus cases across the globe, including in India. Due to lockdown restrictions, laborer migrations, and potential buyers changing their minds as a result of the economic downturn, hundreds of projects were halted.

But despite the unprecedented global pandemic, Renu Corp. persevered and grew stronger like a phoenix, managing to deliver consistently high returns on our investors' capital. No matter how big or small the project, we bring the professional design expertise of talented teams to provide unmatched value.

—----------

**Collaborating with the pacemakers**
**in creating iconic yet economical residences**

RENU CORP joined forces with India’s leading real estate developers - Superb maa infra and housing llp in 2021.
