EssayEdge.com Review

EssayEdge.com is a custom-writing service focused at providing admissions products and editing services for academic essays. Although it has hired an extensive team of writers, the list of services of this company is not in accordance with the increased students' demands. Another drawback, besides the lack of versatility in its offers, is the company's unaffordable pricing policy.

Students can order the following services at this website: admissions essays (on the following levels: MBA, Graduate, College, Medical, LAW, Academic Essays), personal statements, academic and school paper editing, letters of recommendation, and scholarship essay editing. The proofreading and academic paper editing services are offered in several categories: computer science and IT, sports, architecture, science, psychology, math, social work, journalism, humanities, finance, hospitality, education, engineering, and government & political science.
