

Parker Happ - Planning Board (5-year)

I'm running for the Planning Board in Hopkinton because I want to help our town grow in the right way. I've worked in different startups, dealing with things like cloud storage and data management. Before that, I learned a lot about politics in Illinois, working to solve local issues by listening to people, not just arguing over party labels.

I believe in Hopkinton. We've got a great history and a bright future. I want to make sure we grow without losing what makes our town special. This means keeping our schools top-notch, protecting our green spaces, and making sure growth doesn't push people out of their homes.

I've always believed in being involved in the community and what sets me apart is my ability to talk to anybody and work out solutions. I'm not scared to knock on doors or to take calls to hear what you think. That's how I plan to find out what matters most to you and make those things my priority on the Planning Board.

I'm excited about this opportunity and ready to work hard for all of us in Hopkinton. Together, we can make sure our town stays a great place to live, work, and play.
