

No Tolerance Policy:

This is a general guideline on how I, Sunter, work. Any form of breach of policy will not be tolerated.

A "Do Not Interact" (DNI) and/or blacklist will be attached at the end of this policy. Your full cooperation is required and appreciated.

Interactions/mentions of actions are assumed one-to-one, unless stated otherwise.

If you (and affiliated party/ies), have/has breached form of respect, honesty, and/or trust, you will be noted and have record with me. I will keep track of our immediate mutually-affiliated parties.

If you has/had done something to me that you, yourself, "have never done with anyone ever" but do to me, your word will not be taken literally and it is a strike on your record. This will also be noted for any other future interactions.

If this has reached a point where I, Sunter, find it intolerable to communicate with you/noted you are a toxic person/give me anxiety*, then you are considered DNI and interactions (if unavoidable) are limited with a witness available.

Secondary relations to other friend/acquaintances (and/or mutuals) will be monitored for further action; your compliance will be noted.

You, affected party(ies), will be notified of DNI if you are noted to have hypocrisy stated in record for DNI and other markers. This extends to acquaintances who associate with you.

I - Sunter - do not and will not tolerate people who do not know their rights from wrongs and I have right to DNI/blacklist anyone I deem necessary.

*anxiety-induced interactions are only applicable if the "fight or flight" response is triggered by presence alone and will be noted in record.

DNI/Blacklist:
