

Welcome to the California Surf Hockey Club — where passion meets purpose on the ice.

We are a youth hockey organization dedicated to developing players of all skill levels through competitive play and structured growth. Our mission is to create a positive and challenging environment that emphasizes respect, sportsmanship, and a deep commitment to personal and athletic development.

At California Surf Hockey Club, we believe in building more than just hockey players — we're shaping confident young athletes with a clear path to success at the Tier level, in college, and beyond. Whether you're just starting out or striving for the next level, Surf Hockey is here to guide and support every step of your journey.

The Surf Hockey Club parent company now owns and operates two Junior A hockey programs right here in California. The Ontario Jr. Reign USPHL and the San Diego Sabers USPHL teams represent the pinnacle of amateur hockey here in California and regularly churn out players advancing towards collegiate hockey year after year. We are proud to offer dedicated and ambitious young players a full pathway and intentional plan towards achieving their goals and dreams.

## **Club Programs Available**

### **AA Tier II (14U, 16U, 18U) Season Plans**

This program is for players who are building on their foundation to compete towards the high performance track. A commitment to an elite practice environment and additional individual training while traveling state wide may be required at this level. Teams may include up to two teams at each of the 14U, and 16U levels.

### **A, BB, & B Season Plans**

This program is the entry level to competitive club hockey and is the foundation for a player's growth towards their full potential. Players at this level make a commitment to practice in an elite level environment, put in extra work to grow their individual skills, and travel within the local southern california league for competitive games and tournaments. Multiple levels of location specific based teams are available at the 8U, 10U, 12U, 14U, and 16U level.

## **Additional Information and Resources:**
