V2 Information

As of 6/3/23, the official base for eggits will be the V2 base. This section is some FAQ we were expecting so we decided to compile a section to hopefully answer those

1. V2 will be the official base that all new eggits are created on
2. V1 will, as of 6/3/23, not be transferred over to the new base.
 - a. This is something we plan to do in the future, but an announcement will be made whenever that is decided
 - b. Once opened, the V1 will keep their same ID as they had previously
3. V1 and V2 can breed together, but all offspring will be on a V2 base
4. All V1 clothing items can be used on both a V1 or a V2 eggit - if on V2 it will be new lines to fit the newer version
5. Birthday eggits is currently closed to get everything transferred to the new base. Once they open up, we will offer to create birthday eggits from April 23 to the end of the month that we open this section back up
 - a. Those that were created on a V1 base will be transferred over to the V2 without having to submit a forum - the artist who picks these up will message the user who owns them and send the new image link of the V2
6. Any other questions, please don't hesitate to reach out~

Litter & Raffle Rules/ FAQ

1. Litters will be First Come First Serve (FCFS) and will have at least a 2-hour notice before the litter is dropped

2. Raffles will not be FCFS and will run as long as the creator determines, and all the winners will be randomized.
3. You are able to enter for all of the eggits in the raffle, but you can only win one
4. Please do not edit your forum for a litter if an eggit is taken, just quote it - anything edited will be ignored
5. Please do not complain if you are unable to get a eggit in the litter, remember there will always be more~
6. Recolors will not be available unless stated otherwise, and this will normally be done through Discord
 - a. Please do not guilt our artist <3
7. Do not claim an eggit you do not own
8. Please do not use multiple accounts to enter - you will be banned from eggits if this is discovered to be happening and you will be stripped of all your eggits.
9. As of 2.26.23, any accounts that are under 2 months old or very little activity will not be able to participate in Eggits

Rescue Rules

1. Any eggits a user doesn't want can be surrendered to the Rescue by simply DMing myself on CS or discord (SoggyPeach)
2. A post will be made about the surrender of the eggit(s) and it will be FCFS unless stated otherwise
3. Eggits can be involuntarily surrendered to the rescue if a member is banned - all eggits that are not OC characters the member owns will be taken and put into the rescue
4. OC customs that remain will be deleted from the archive and their ID number will be nulled
5. You are not allowed to giveaway or trade Eggits that have been taken from you

Trading Rules

1. Please post trading forum and have the other member confirm it before moving over any Eggits or Accessories to your archive/co-op archive
2. Note that trading is at your own risk, but myself and mods will do our best if something does some up
3. No Real World Currency can be used for trading unless the eggit was purchased with IRL currency - these will have a \$ logo
 - a. Any eggits purchased with USD can be traded with a similar CS value or USD
4. Any eggits with a "star" logo are unable to be traded and are tied to the account they were given to - these are special eggits
5. Please make sure that the UMA you might be trading allows other UMA trading
6. Eggits can be traded for other eggits or accessories, C\$, CS pets or items, or other UMAs
7. C\$ Limit will be 200C\$, 3000c, or the equivalent in other umas
8. Pet value are of the equivalent values above (within reason since pricing does change depending who you are talking to)

9. Customs will have a 2 week cool down before they are able to be traded away unless explicitly stated otherwise with proof

Breeding & Customs FAQ/Rules

1. Coupon Customs and Breedings have a 1 month cooldown
 - a. This does not apply to customs/breedings that are created from a USD/C\$ payment
 - b. You may only get one custom per month from an artist, but you are able to get multiple customs from multiple artist if you are selected when customs open up
 - c. All Eggits that are bred have a 1 month breeding cooldown where you are unable to breed that eggit again until a month is up
 - d. Custom rule is bypassed only by a scouting coupon from an event and an announcement will be made
2. Breeding will be posted whenever they are open and will be linked on the top post on the main thread and custom/breeding thread when open
3. All children produced will get a 2nd generation watermark and will continue to get a new watermark for each new generation - there is a 4th generation limit. After a Eggit is a 4th gen, they will no longer be able to bred
4. Sometimes when breeding, you can get an extra eggit (outside of the normal 1-2 or 3-4) that will look like neither of the parents... there is no way to get this it is all luck based
5. Only one breeding item is needed, both between two member's eggits or personal eggits
6. If the eggit breeding is between two members, it will always result in an even number
7. Once the litter is produced between two members, it will be up to them to decide who will get what eggit offspring, if needed staff can assist
8. You can not breed from the same litter/line, but if they are a recolor they are considered fair game
9. You may only have one litter at a time - both if if you own the parents or if you only own one of the parents
10. There is a month cool down between an eggit being able to breed again
11. Not all Breedings and Customs will be FCFS, if they are it will be stated in the announcement that is made to alert members there are open slots
12. Customs will be posted whenever they are open and will be linked on the main post when open
13. You may only order 1 coupon custom at a time - unless another deal is worked out or there is an event going on
14. Custom/Breeding turnaround time is up to the artist
15. Customs can be purchased with the Fish 'n' Chips Coupon (for normal lines), Gourmet Meal Coupon (for minimal line edits) or the All you can Eat Coupon (for the hearts craziest desires), C\$, or USD - it is up to the artist for what they are accepting
16. Examples of artist work will be listed [here](#) for reference
17. Please understand that artists reserve a right to when their customs/breedings are open and how they take said customs and breedings

18. Animation is something that can only be added to Gourmet or AYCE with an additional price of C\$ or USD that is listed on the thread **EVEN IF YOU ARE USING A CUSTOM COUPON**
 - a. A Dancing Coupon, only obtainable in scouting certain areas, can bypass this rule
 - b. The animation itself normally involves a lot more time and even line changes, so it will be a few extra dollars or C\$ depending on how you wish to pay
 - c. Once an application for a custom has been submitted with an animation inquiry, myself or the other artist who is being commissioned for the custom will reach out to discuss pricing - All USD discussions will happen offsite on Discord
 - d. Breedings will not have the ability to request for animation, but if one of the parents has animation there is a chance for it to be passed down to the offspring
19. Customs will have a 1 month cool down before they are able to be traded away unless explicitly stated otherwise with proof

Guest and Fulltime Artist FAQ/Obligations

1. Applications will only be accepted whenever the Artist app is open - please do not ask myself or staff when these will open up
2. When applying, its best to create three different line edits of the three types of customs - This is mostly to see where your strong suits are when creating litters or customs if eventually added to the team
3. You are allowed to keep one of the edits you created if you are accepted as a guest artist/full time artist or create a litter and select one from there
4. If you need to go on a hiatus, please inform me about this matter - your spot will be held as an artist but depending on the length of time we might need to open up applications to fill the void.
 - a. Your mental and physical health will always be held to the utmost importance. So please don't hesitate to reach out!!
5. **Create one litter a month** - even if there isn't a litter drop every week this is so we have a stockpile, and this can be subjected to change
 - a. If you do not create a litter, you will be unable to open up your customs/breeding, create giveaways, or auctions for the month
6. These litter must be at least 8 Eggits total, and ones that are added as a raffle do NOT count towards this (ie. if you create 8 total, all 8 have to be in a FCFS litter, they can't be split into 5 FCFS and 3 in a raffle)
 - a. NOTE: You are welcome to make raffle litters that are at least 8 with the 1-2 no-Eggit owners and these WILL count towards the monthly litter. It just can't be split up like the example above
 - b. NOTE: If you keep an eggit from the litter, it will NOT count towards the total. IE if you make 8, but keep 1 you will need to make another so the posted litter for other users will be 8 total
7. As of 2.16.23, 1 - 2 eggits in these litters are allowed to be for non-eggit owners, but it's up to the artist which ones are
8. Post any ideas you are having for litters in the artist discord chat so that we know what to expect and make sure there are not like ideas happening.

10. Every Eggit must be named with their ID number
