- Maria Potes Barbas, PI Santarem
- Simona Stanescu, ICCV
- Katerina Maniadaki, IDEC
- Evangelos Kapros, Enduræ
- Maria Koutsombogera, Enduræ
- Erika Zulkute, Shipcon

Meeting agenda:

- **Topic 1** – Planning and preparation of new project proposals

MEETING MINUTES

- **Topic 1 – Planning and preparation of new project proposals**

The consortium discussed the options for forthcoming proposal submissions and decided the following:

- A proposal will be submitted in the framework of Erasmus+ KA2 Cooperation Partnerships in Higher Education, in March 2025. The topic will be about facilitating the apprenticeship of emerging technologies such as AI, for HEI students
- The consortium will also examine the possibility of submitting a second proposal under KA2, as a continuation of the PREDICT project, this time targeting teachers and trainers. The PREDICT consortium partners will look for additional partners, such as teachers' associations.
- The consortium considers submitting a proposal in the COST framework, in October 2025.
- The details regarding the progress of those proposals will be discussed during the project meeting to be held in Piraeus in the beginning of January 2025.
