

Figurine Prompts:

Here are the prompts

1. Library Study Environment (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a polished wooden library table. The figurine stands on a round transparent acrylic base. Next to the table, the real person from the picture, in identical attire, carefully cleans the figurine with a fine brush. Tall bookshelves filled with old leather-bound books surround the scene, warm golden reading lamps cast soft light, and dust motes float gently in the sunbeams coming through large arched windows.

2. Rooftop Garden Environment (Outdoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a small glass coffee table in a rooftop garden. The figurine rests on a round transparent acrylic base. Beside it, the real person in the picture, wearing the same outfit, bends down with a fine brush to clean the figurine. Around them are lush green plants in ceramic pots, string lights overhead glowing faintly in the golden hour sunset, with a panoramic city skyline in the background.

3. Museum Exhibit Environment (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, displayed inside a well-lit glass case on a marble pedestal. The figurine is supported by a round transparent acrylic base. Standing next to the case, the real person in the same attire carefully cleans the figurine with a fine brush, wearing white museum gloves. The background shows museum walls with framed artwork, subtle spotlights, and polished marble flooring reflecting the scene.

4. Park Bench Environment (Outdoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a wooden park bench. The figurine sits firmly on a round transparent acrylic base. Next to the bench, the real person from the picture in the same clothes leans over with a fine brush, gently dusting the figurine. Autumn leaves are scattered across the bench and ground, while tall trees with golden foliage create a peaceful, cinematic backdrop in natural daylight.

5. Artist's Studio Environment (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, positioned on a cluttered wooden workbench in an artist's studio. The figurine rests on a round transparent acrylic base surrounded by brushes, paint jars, and sculpting tools. The real person from the picture, wearing the same attire, sits on a stool and delicately cleans the figurine with a fine brush under a spotlight lamp. Behind them are easels with sketches, shelves stacked with art supplies, and a rustic brick wall adding texture to the scene.

6. Coffee Shop Environment (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a cozy wooden coffee shop table with a round transparent acrylic base. The real person from the picture, in the same attire, gently cleans the figurine with a fine brush while a steaming cappuccino and open notebook sit nearby. Warm pendant lights hang overhead, with the blurred café crowd in the background.

7. Futuristic Tech Lab (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, standing on a glowing round transparent acrylic base atop a sleek metal lab table. The real-life version of the character carefully cleans the figurine with a fine brush, surrounded by glowing holographic screens, robotic arms, and neon-blue ambient lighting reflecting off glass surfaces.

8. Street Market Environment (Outdoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a vendor's stall table at a bustling night market. The figurine stands on a transparent acrylic base lit by colorful lanterns. Next to it, the real person in the same outfit delicately brushes the figurine while crowds pass by, neon shop signs flicker in the distance, and food stalls fill the air with smoke and warm light.

9. Traditional Temple Courtyard (Outdoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, on a stone pedestal with a round transparent acrylic base. The real person from the picture kneels down to clean the figurine carefully with a brush. Surrounding the scene are carved temple pillars, flickering oil lamps, and incense smoke curling in golden morning sunlight.

10. Gamer's Room Setup (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a glowing RGB-lit gaming desk with a transparent acrylic base. The real-life version of the character cleans the figurine with a fine brush while dual monitors glow with colorful game visuals, neon strip lights illuminate the walls, and collectible figures line the background shelves.

11. Beachside Sunset (Outdoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, resting on a round acrylic base atop a driftwood log by the beach. The real person in the same attire carefully brushes the figurine as gentle waves crash nearby. The warm golden sunset paints the sky in orange and pink hues, with seabirds flying across the horizon.

12. Vintage Workshop (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, standing on a wooden workbench with a transparent acrylic base. The real person in identical attire cleans the figurine with a brush, surrounded by old tools, gears, oil lamps, and scattered sketches pinned to the wall. Sunlight filters in through dusty windows, highlighting the vintage atmosphere.

13. Snowy Winter Cabin (Outdoor/Indoor Hybrid)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, on a transparent acrylic base placed on a rustic wooden cabin table. The real person carefully brushes the figurine as snow falls outside frosted windows. A crackling fireplace glows warmly behind, with cozy blankets, mugs of hot cocoa, and soft candlelight filling the scene.

14. Music Recording Studio (Indoor)

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, placed on a mixing desk with a transparent acrylic base. The real person in matching attire gently cleans the figurine with a fine brush. Surrounding them are glowing soundboards, studio monitors, guitars hanging on the wall, and neon mood lighting adding a creative atmosphere.

15. Ancient Ruins

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, standing on a round acrylic base atop a moss-covered stone within ancient ruins. The real-life version kneels beside it, brushing carefully as if handling an artifact. Vines creep along cracked stone pillars, sunlight filters through the jungle canopy. *Epic cinematic adventure tone, volumetric sunlight shafts, lush jungle HDR detail, high realism textures on moss and stone, shot on 24mm wide cinematic lens, 8K ultra detail.*

16. High-Tech Robotics Lab

Create a 1/7 scale commercialized figurine of (the character in the picture), realistic style, on a round transparent acrylic base atop a robotics workbench. The real person in the same attire, wearing safety goggles, carefully cleans the figurine with a fine brush while robotic arms and mechanical prototypes surround the desk. Futuristic LED panels cast blue and white glows across chrome surfaces. *Cinematic sci-fi realism, HDR lighting, 35mm wide-angle lens, 8K photorealism.*

17. Old Victorian Study Room

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a polished mahogany desk with a round transparent acrylic base. The real-life person, dressed in the same attire, cleans the figurine using a fine brush while surrounded by candle-lit chandeliers, stacks of leather-bound books, and an antique globe. Sunlight streams through tall stained-glass windows, casting colorful reflections on the walls. *Cinematic historical atmosphere, warm golden HDR tones, 50mm lens, 8K ultra detail.*

18. Underground Cyberpunk Bunker

Create a 1/7 scale figurine of (the character in the picture), realistic style, resting on a glowing acrylic base placed on a graffiti-covered metal desk. The real person cleans the figurine under neon purple and teal lights, surrounded by flickering holographic screens, exposed wires, and cyberpunk graffiti walls. The atmosphere is gritty, with smoke haze catching colored light beams. *Cinematic cyberpunk, HDR neon glow, 24mm wide-angle lens, 8K ultra realism.*

19. Botanical Greenhouse

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a round acrylic base placed on a rustic wooden plant stand. The real-life version brushes the figurine carefully, surrounded by lush tropical plants, hanging vines, and glass terrariums. Sunlight filters through the greenhouse glass ceiling, creating natural highlights and shadows. *Cinematic natural realism, green and golden tones, soft diffused HDR light, 50mm macro lens, 8K photorealistic detail.*

20. Futuristic Space Station

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a round transparent acrylic base floating slightly on a zero-gravity work table. The real person, in the same attire, carefully cleans the figurine with a brush, wearing light astronaut gear. Outside the large observation window, Earth and stars are visible in the distance. *Cinematic sci-fi realism, glowing space lighting, volumetric depth, HDR contrast, shot on 35mm wide lens, 8K ultra realism.*

21. Abandoned Warehouse

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a dusty wooden crate with a transparent acrylic base. The real person crouches beside it, brushing carefully as sunlight beams cut through broken windows, illuminating dust particles in the air. Rusty metal beams and scattered debris create a dramatic cinematic mood. *Cinematic dramatic realism, HDR light shafts, moody atmosphere, 35mm lens, 8K clarity.*

22. Mountain Cliffside

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a rocky cliffside ledge with a transparent acrylic base. The real person in the same attire brushes the figurine while snow-capped peaks and a vast valley stretch behind. Wind tousles clothing, while golden sunlight breaks through clouds. *Cinematic epic realism, wide natural HDR tones, volumetric atmospheric depth, 24mm wide-angle lens, 8K ultra detail.*

23. Luxury Fashion Showroom

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a glass pedestal with a transparent acrylic base in a luxury boutique showroom. The real-life version cleans the figurine while surrounded by designer dresses, glowing spotlights, and reflective marble flooring. Neon signage glows softly in the background. *Cinematic fashion editorial vibe, glossy HDR lighting, 85mm portrait lens, 8K photorealism.*

24. Rain-Soaked Alleyway

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a wet pavement surface with a transparent acrylic base reflecting neon lights. The real person brushes the figurine carefully while rain drips from fire escapes above. Puddles shimmer with colored reflections, cinematic mist drifts through the alley. *Cinematic noir atmosphere, HDR neon reflections, dramatic rain detail, 50mm lens, 8K ultra realism.*

25. Science Fiction Energy Core Chamber

Create a 1/7 scale figurine of (the character in the picture), realistic style, on a transparent acrylic base glowing under the pulsing light of a massive futuristic energy core. The real-life version cleans the figurine with a brush while blue plasma arcs flicker across metallic walls. The chamber glows with intense sci-fi lighting, giving dramatic volumetric rays. *Cinematic futuristic style, glowing HDR plasma effects, 35mm lens, 8K photorealistic clarity.*

Photo Prompt:

Using the nano-banana model, create a 1/7 scale commercialized figurine of the characters in the picture, in a realistic style, in a real environment.

The figurine is placed on a computer desk. The figurine has a round transparent acrylic base, with no text on the base. The content on the computer screen is the brush modeling process of this figurine.

Next to the computer screen is a BANDAI-style toy packaging box printed with the original artwork., The packaging features two-dimensional flat illustrations.

Please turn this photo into a figure. Behind it, there should be a Model packaging box with the character from this photo printed on it. In front of the box, on a round plastic base, place the figure version of the photo I gave you. I'd like the PVC material to be clearly represented.

It would be even better if the background is indoors.

Figurine Video Prompt Variations

General Figurine Animations (Any Figurine)

Create a video in which the 3D figurine model takes a step forward, bows slightly, then looks up at the camera with a smile.

Create a video in which the 3D figurine model slowly raises one arm, as if presenting something, then lowers it gracefully.

Create a video in which the 3D figurine model looks left, then right, then locks eyes with the camera and walks a few steps forward.

Create a video in which the 3D figurine model raises both hands slightly, as if stretching, then relaxes back into a neutral pose.

Create a video in which the 3D figurine model crosses its arms, nods once firmly, then stands confidently facing the camera.

Couple Figurines (Two Characters Together)

Create a video in which the 3D figurine couple steps toward each other, exchanges a gentle hug, then turns together towards the camera.

Create a video in which the 3D figurine couple has one character point toward something off-screen, the other reacts with surprise, then both look back at the camera.

Create a video in which the 3D figurine couple clasps hands and slowly spins in a half-circle, ending side by side facing the camera.

Create a video in which the 3D figurine couple has one character adjust the other's hair or clothing gently, then they both smile at the camera.

Create a video in which the 3D figurine couple takes two steps forward in sync, pauses, and waves together.

Single Figurine (Dynamic Solo Poses)

Create a video in which the 3D figurine model slowly spins 360°, pausing briefly with one hand raised as if waving.

Create a video in which the 3D figurine model lifts one leg slightly, as if mid-step, then lowers it and bows.

Create a video in which the 3D figurine model tilts its head curiously, then raises one hand in a playful salute.

Create a video in which the 3D figurine model waves warmly at the camera, then puts both hands on its hips and stands confidently.

Create a video in which the 3D figurine model kneels down slightly, then rises back up with a graceful pose.

Special Scenario: Saree Outfit

Create a video in which the 3D figurine model wearing a saree rotates slowly 360° on the stand, with the saree's drape swaying gently as if caught by a breeze.

Create a video in which the 3D figurine model wearing a saree adjusts the pallu delicately, then poses with one hand resting on the hip.

Create a video in which the 3D figurine model wearing a saree walks a few steps forward, the saree folds moving softly, then stops and performs a traditional greeting pose.

Special Scenario: Bike Figurine

Create a video in which the 3D figurine model sits on the bike, revs the handle slightly, then looks at the camera with a confident smile.

Create a video in which the 3D figurine model rides the bike forward slowly a short distance, then stops, rests one leg on the ground, and waves.

Create a video in which the 3D figurine model gets off the bike, leans casually against it, and folds arms across the chest, holding a confident pose while looking at the camera.

Create a video in which the 3D figurine model pushes the bike onto its stand, dusts off its hands, then rests one hand on the seat while waving slightly with the other hand.

Create a video in which the 3D figurine model sits on the bike, pretends to adjust an invisible helmet strap, then revs the handle once before looking proudly at the camera.

Create a video in which the 3D figurine model gets off the bike, takes a few slow steps forward, then turns its head back towards the bike and gives a subtle nod.

Create a video in which the 3D figurine model stands next to the bike, raises one hand in a peace gesture while the other hand rests on the handlebar, then smiles confidently.
