Notes
There are questions on giving presentations.
Maybe prepare an updated slide deck - volunteers?

V1.2 (=V1.5)
Because of changes to the scoring model: update the version number of the next version to **1.5**, as transition towards v2.0.
This will need explaining (what happened to v1.3 or 1.4 ??).
Need for "support" organisations that currently work with lower versions to migrate to v1.5.
Where to add this: add a section on this in the How To Guide

Discuss the current draft (available in https://github.com/OWASP/samm/tree/master/v1.5)
QSG=no changes
HTG=scoring update
CMD=discuss how to visualize context dependant scoring of the questions on p. 20-23
Review verbiage in HTG p 9 and CDM p 9 v1.5 DRAFT
Use review spreadsheet for this
https://docs.google.com/spreadsheets/d/1TblUSU-VbTGUgcLBIYeVHkba0HZF7EEgCQaRQnhHr1I/edit#gid=0
