

Art Discovery

Rodrigue - Blue Dogs

Supplies

1. Large paper
2. Precut Dog Shape
3. Oil Pastels
4. Glue Dots

Tips

- Double check that you have all the materials you need.
- Depending on the age and mood of your class, you may need to slightly modify the presentation. Ask additional questions or elaborate on topics or images they seem particularly interested in.
- Once you are finished, please return the materials to the bin in an organized fashion.

Let the AD chairs know if supplies are running low.

Instructions

1. Gather your supplies and write your name on the back of your paper.
2. Think about the types of colors and patterns that Rodrigue used in his paintings. Use the oil pastels to color shapes, patterns, or a scene on your background paper.
3. Next, color your dog with the oil pastels so that it stands out from your background. Will your dog be blue?
4. Use glue dots to attach your dog to the background.
5. When you're done, help clean up your work area.

Art Discovery

Photography & Cyanotype

Supplies

- Plastic Trays
- Small objects (buttons, letters, shapes, and/or items collected outside like leaves and flowers)
- Cyanotype paper (must be kept in envelopes without exposure to light when not being used)
- SUNLIGHT
- Water (need access to water to rinse the papers and then pour water out)

Tips

- Double check that you have all the materials you need.
- Depending on the age and mood of your class, you may need to slightly modify the presentation. Ask additional questions or elaborate on topics or images they seem particularly interested in.
- Once you are finished, please return the materials to the bin in an organized fashion.

Let the AD chairs know if supplies are running low.

Instructions

1. Gather supplies: plastic tray and shapes/objects you want to use to create your cyanotype.
2. Think about balance, pattern, and contrast. Areas that have objects blocking the light will be white and the rest will be blue.
3. An adult will give you a piece of special cyanotype paper. Put it on your tray and arrange your objects on the tray. Press leaves and flowers as flat as flat as possible.
 - ★ Make sure to keep the rest of the cyanotype paper out of the light, in the envelope.
4. An adult will help put your tray in the sun.
5. Wait for 4 minutes (in bright sun) or 5-6 minutes if it's overcast. Don't let it sit longer or it'll over expose. Remove your objects.
6. Bring your paper inside and rinse with cool water in your tray for about 1 minute. Set aside to dry. The colors will darken as they dry.

- ★ Papers can be gently layered between paper towels to dry.
7. Pour water out. Use paper towels to dry the trays.

Art Discovery

Mosaic

Supplies

- Air dry clay
- Rollers
- Cookie cutters
- Beans

Tips

- Double check that you have all the materials you need.
- Depending on the age and mood of your class, you may need to slightly modify the presentation. Ask additional questions or elaborate on topics or images they seem particularly interested in.
- With the youngest artists, they may want to doodle their own designs on the discs. Outlining them in black paint pen when they are finished will make the art pop (see example)!
- Once you are finished, please return the materials to the bin in an organized fashion.
