

FIlm-Projekt!
beim Einkaufen
Kapitel 6

- In pairs or small groups of 3-5 people you create a short 3-5 minute long movie depicting a shopping excursion to a grocery store and a department store. Include all elements from Chapter 6 in your epic movie. Begin planning today, and this weekend you really should begin filming your scenes. I would start with a scene whereby you decide what needs to be purchased, making a shopping list, then head out on location to a local grocery store, department store, strip mall, or any of the shops we discussed in Chapter 6.

I need a full script of your dialogue also, shared with both nkandah@wcpss.net AND kandahman@gmail.com .

You can take your videos and also do voice overdubs, but I expect some live action scenes too. You can also incorporate original pictures you take of shopping scenes with overlayed text and voice overdubs.

Someone in your group is going to be the technical wizard, but this wizard still has to appear in the movie.

Now, when filming on location, be discrete. Do not make a scene and get tossed off the premises or banned from ever shopping there again! If approached by security, tell them you are doing a project for German class at Enloe!

On Tuesday, March 12th, we will have our film festival and enjoy our work in class.
