We have questions

The <u>videos that the Hate Slate of BOE candidates</u> posted online don't accurately portray the people who have repeatedly attacked the North Hunterdon-Voorhees board and district staff over the last year. Anyone who hasn't paid attention to BOE meetings would think, "These people deserve my vote." But these candidates' words and actions, along with those of their allies, show that they are not fit to sit on the board. Here are just a few examples.

Nicole Gallo

High Bridge Boro & Lebanon Township
Gallo appeared in a Moms for Liberty T-shirt at
the August 2021 BOE meeting while attacking the
board for its compliance with the state mask
mandate. How will her affiliation with that
extremist group influence her actions on the
board?

Cynthia Reyes-Stadulis

Clinton Township & Lebanon Boro
Her husband/campaign manager claims that the district's compliance with state sex education standards discriminates against whites. How will these beliefs influence her board decisions affecting truly marginalized students?

Eric Licwinko

Clinton Town, Franklin, Glen Gardner
The current board is referred to in his household as spineless groomers, a dangerous dog-whistle based in far-right conspiracy theories and anti-LGBTQ+ rhetoric. How will such intolerant attitudes affect board operations, decisions, and civil discourse?

Caroline Licwinko

I urge everyone to watch the January 2022 North Hunterdon High School Voorhees High School BOE meeting when the Board members voted to KEEP this filth in school and accessible to children with ZERO parental consent. Skip to 2:45:00 to hear what the school librarian, in her official capacity, had to say in SUPPORT of the filth.

An "independent" Book Review Committee recommended keeping 4 books in question available in the library, including "Gender Queer" that this dad is speaking about. The committee recommended the removal of "This Book is Gay".

The spineless and grooming-promoting BOE voted to KEEP all 5 books in question.

This is a perfect example of how NJ schools have become toxic dangers to our kids that provide ZERO protection from sexual danger.

Research your local candidates!

Who are they? Who supports them?

- Words like "groomer" can be signals to extremist groups and can endanger educators.
- Anti-LGBTQ rhetoric is designed to make staff and students feel unsafe in schools.
- Candidates who believe they can force schools to disobey DOE mandates are not educated about the ethics rules members must abide by.

Vote!
