Subject	Student Civic Engagement Opportunity

Dear [NAME OF EDUCATOR],

My name is [Your Name], and I recently learned about a great organization that offers free, nonpartisan resources to help high school students lead voter registration drives in their schools.

[The Civics Center](#) promotes nonpartisan peer-to-peer high school voter registration drives by:

- Offering free, online [workshops](#) that show students how to organize voter registration drives in their schools.
- Providing free “[Democracy in a Box](#)” supply kits including everything a student needs to organize and promote a successful drive at school.
- Providing educators and administrators with free [resources](#) to support voter registration in their schools

TCC’s annual [Cap, Gown and Ballot](#) campaign is dedicated to making voter registration a big part of graduation season, so that high school students are ready to vote before they graduate. I would be delighted to help connect you or your students with The Civics Center to arrange an introductory call or workshop and support student-led drives next spring.

You and your students can visit thecivicscenter.org to learn more!
