

osu!Noobs Season 2 Information

Welcome! Be sure to read all of the information, especially if it's your first tournament!

The Osu!Noobs Tournament is a 1 day 1v1 elimination tournament that lasts for about 3-5 hours open for players between the ranks of #175,000 - #100,000 with a 5k buffer. If you were within the 175k-100k range when you signed up, but no longer find yourself within those ranks when the tournament starts, you are fine as long as you are within a 5k range (i.e. 180k - 95k). If you fall outside of that, you can't participate.

NOTE: In terms of private server, this roughly corresponds to 0-3000pp, which means if you have more than 3000pp on any private server which is not Relax, then you cannot enter. If you're still unsure of your eligibility, here's a quick [cheat sheet](#):

The tournament is biweekly, and on the "off-week," there will be a stream discussing the mappool before it is released. Signups will open right AFTER the mappool showcase.

As is said in the forum post, you need to sign up on challonge and register for the tournament through the link provided. After that type your challonge name and osu! name in the #register channel to make finding your accounts easier, also report your rank on any unofficial servers there. Don't hide this information, as it **is bannable**. There may be a player limit at staff discretion, and it is first come first serve. Remember, the tournament is Double Elimination, meaning you need to lose twice to be out, so don't quit after your first loss!
