

Data Engineer / Data Scientist

We are looking for a data enthusiast to join our growing team. This role will be a key contributor in analyzing market trends and on-chain data to support research efforts and investment decisions.

This is an opportunity for intellectually curious individuals to join a fast-paced Web 3.0 industry and work in a dynamic team spread across Asia.

Location

Serbia (remote)

Job Description

- Querying & analyzing blockchain data (e.g. DeFi, NFTs, Gaming, etc.) to derive key insight regarding market trends
- Working closely with the investment team to improve risk management and evaluation of investment opportunities
- Presenting periodic reports to the investment committee and contributing to the other discretionary research objectives

Requirements

- Bachelor's degree or above in computer and mathematics majors
- Proficiency in Python (Pandas, Numpy, SciPy, Matplotlib, Seaborn, etc.) and SQL
- Fluency in spoken and written English
- 0-3 years of experience
- Open-minded and flexible, with the ability to interact across cultures
- Strong analytical skills and high attention to detail
- Self-learner with a proactive approach, genuine curiosity, and the ability to work under minimal supervision
- Comfortable with a startup working environment and remote work

Preferred

- Experience with an additional major programming language (e.g. Java, JavaScript, C#, C++, Rust, Go)
- Familiarity with Cloud Technologies (e.g. AWS/Azure/Google Cloud)
- Enthusiastic about Web 3.0 / crypto
- Interest in quantitative finance / financial modeling

If you think you're a good fit, please share your resume to ivy@iosg.vc or momir@iosg.vc

About IOSG Ventures

IOSG Ventures, founded in 2017, is a community-friendly and research-driven early-stage venture capital fund. We focus on open finance, Web 3.0, and infrastructure for a decentralized economy. Our portfolio covers more than 60 projects, including Layer 1 / Layer 2 (NEAR, Polkadot, Cosmos, Arbitrum, Starkware), DeFi (1inch, Synthetix, UMA), GameFi (Bigtime, Illuvium), and SocialFi (Roll, Project Galaxy, Cyberconnect). We commit ourselves to working alongside various developer & DAO communities and helping the most aspiring founding teams to achieve success.
