

# Privacy Policy — Calorie Calculator

*Last updated: 13 August 2026*

Calorie Calculator is made by **Tech Parsec**. This policy explains how the app handles information.

## **We do not collect your data**

You can use the app without an account and without giving us your name, email, or phone number. Age, height, weight, activity, calorie targets, BMI, macros, food lookups, and water tracking stay on your device. We do not upload that information to our servers, and we do not keep a profile about you.

## **We do not share data with third parties**

We do not sell, rent, or share your information with advertisers, data brokers, or other companies. We do not use your calculator entries for marketing.

## **What the app does**

Calorie Calculator estimates daily calories, BMI, macros, food energy, and water needs on your phone. Those results are for general information only. They are not medical advice.

## **Google Play**

If you download the app from Google Play, Google may process install and device information under Google's own privacy policy. That is Google's service, not something we collect from the calculators in this app.

## **Children**

The app is not directed at children under 13, and we do not knowingly collect personal information from children.

## **Changes**

If this policy changes, we will update the date at the top. Continued use of the app after a change means you accept the updated policy.

## **Contact**
