- 9/27/2017 - Create custom headers and footers in Google Sheets - [Resource Link](#)
- Securly Web Filtering for Chromebooks now free - [Resource Link](#)

Questions and Answers

Do you have any questions for the group? Something you would like to get help with, hear how other schools are handling, or such? Add your questions (and answers) below for the meeting:

- I'm looking at creating Curriculum Maps in Google by grade level. Anyone have examples or ideas for the process? ~Melissa Dills
 - <http://bit.ly/perrytlc>
 - [Template](#)
- Anyone know if it's possible to merge results from two identical Google Forms into the Forms Summary screen (not on the spreadsheet)? ~Alex Oris - <http://www.controlaltachieve.com/2016/03/google-forms-addons.html> Advanced Summary is a helpful add-on
- Do we have to get rid of Google Drive for Mac and replace it with backup & sync? Or will it change automatically? (From Scott Sommer in youtube chat)
- Hi, can you please share how you host these meetings? Meaning, what software you use to share your screen, how you stream live to Youtube, etc. Thanks, Daniel Ajon (does it allow for two-way audio chat?) No need for two-way audio for my case. Thanks!; Here is some info: <http://www.controlaltachieve.com/2016/02/creating-video-pd-google-tools.html>
- Is parental permission required for Google Earth student use in schools?

OLD VERSION

Turn on Google Earth for everyone

⚠ Google Earth is an [Additional Service](#) not covered by your organization's G Suite for Education agreement. Most Additional Services are governed by the [Google Terms of Service](#) and [Privacy Policy](#), and some have [service-specific terms](#). Our [G Suite for Education Privacy Notice](#) describes how Google collects and uses information for Apps for Education accounts. You can [learn more](#) about the differences between Core and Additional Services in our Help Center.

- Users must be 13 or older to use Google Earth. Do not turn on Google Earth for organizational units that include any user under the age of 13.
- If you have end users who are between 13 and 18 years old, your institution is required under its G Suite agreement to get parental consent before allowing these users to use Google Earth. More information your institution can share with students and parents about Google's services and privacy practices is available in our [Help Center](#).
- You acknowledge and agree that you will comply with all laws and regulations that apply to your provision of Google Earth to your end users, including, as applicable, the Family Educational Rights and Privacy Act (FERPA) and the Children's Online Privacy Protection Act (COPPA).

💡 Once enabled, Google Earth will be turned on for (a) users in this organizational unit and (b) users in any organizational units below this one, unless you override that setting for organizational units lower in the hierarchy. Our [Help Center](#) explains how to turn on a service for only some users.

☐ I have read and acknowledged the above.

☐ I affirm that: (a) I am enabling Google Earth for educational purposes, (b) I am not enabling Google Earth for any user under the age of 13, and (c) for any users who are between 13 and 18 years old for whom I am enabling Google Earth, my organization has obtained parental consent for these users to use Google Earth.

ⓘ These changes may take up to 24 hours to propagate to all users.

CANCEL TURN ON FOR EVERYONE

Turn on Google Earth for some organizations

⚠ Google Earth is an [Additional Service](#) not covered by your organization's G Suite for Education agreement. Most Additional Services are governed by the [Google Terms of Service](#) and [Privacy Policy](#), and some have [service-specific terms](#). Our [G Suite for Education Privacy Notice](#) describes how Google collects and uses information for Apps for Education accounts. You can [learn more](#) about the differences between Core and Additional Services in our Help Center.

- If you have end users under the age of 18, your institution is required under its G Suite agreement to get parental consent before allowing these users to use Google Earth. More information your institution can share with students and parents about Google's services and privacy practices is available in our [Help Center](#).

- GSFE Admins Podcast: Episode 16 - [Resource Link](#)
- Use Shift+Z in Drive to "add" a document to another folder. This does not move it, or make a copy, but acts as a shortcut to have the same file in multiple folders. It's great for students to use to add things to their eportfolio folder. One drawback, deleting the

file deletes it from all folders. But you can remove it from a folder by [clicking into the file's details](#). ~Alex Oris, CTIS, Cuyahoga Falls
