### Criminal Record Screening of Volunteers

For the purpose of ensuring the safety of students and staff, the Mount Mansfield Unified Union schools will be screening all volunteers and post secondary students participating in work study programs using an online criminal record service provided by the State of Vermont. A person who has been convicted of a crime against minors, a violent crime or sexual offense shall not be eligible to be a volunteer.

Volunteers are required to provide their full legal name, date of birth, and phone number to schools prior to working with students.

This record check will be kept on file and will be updated every 5 years. Please check with your school office if you believe you have had this record check done within the past 5 years.

Thank you!
