

# Kirby IDW comic series

a portal appeared to get Kirby and his friends back to their home, but instead of staying in my home world, I decided to go with them. When I first entered, the place was lush and filled with life! I think this will be a good fresh start.

Kirby walks down the path, with elfilin (who has some cotton candy)

Elfilin: woooooaaaah! This stuff tastes so good! I wish I had these in the forgotten land!

Kirby gives a smile to elfilin. he gives a smile back. The two see a scarf stuck in a tree so Kirby jumps up to get it out, then it rbs against kirby's face, and leaves

Elfilin: You really do help anyone you can!

Meanwhile castle dedede roof

Meta knight stares into the distance, while dedede is napping on a hammock near him. That's when bandanna dee shows up

Bandanna dee: you know you don't always have to be serious!

Meta knight: you never know what might happen, it's good to stay vigilant.

Bandana dee: you know what else is good? Having fun!

Meta knight just looks farther into the distance

Bandanna dee: you just aren't much of that kind of person, i wonder what kirby is doing right now.

Meanwhile

Kirby and elfilin are in line for a smoothie

Elfilin: For a hero of dreamland, you really dont take advantage of that, do you?

Kirby shakes his head with a smile. Just then, an out of nowhere attack from dark matter swarms in

Elfilin: Those guys don't look nice kirby...

Kirby jumps into action, dark matter isn't much of the threat it used to be, so Kirby takes care of them easily.

Elfilin: good save, but that was... very sudden. Maybe we ask someone about this?

Kirby nods, and the two head off

Meanwhile, the lor starcutter

Magolor is adjusting some historical books on his shelf to look neat, then the door to the lor slams open, knocking over all the books.

Dedede, for some reason in his pajamas and swimsuit: magolor! Did you mistakenly create a dark matter attractor, because there's one in my pool!

Magolor, poking his head out from the other room: sorry your highness, i haven't been using my relic crafting skills in months! And even then, you would need DNA of dark matter to make such a thing.

Dedede squints, and leaves with a giant fish on his back

Magolor: I can't tell if Marx put a fish in his pool, or if he swims in a lake.

Meanwhile

Kirby and elfilin knock on a door, and daroach walks out

Daroach: Let me guess, you want my squad to figure out the whereabouts of the dark matter infestation?

Elfilin: How did you know!?

Daroach: I'm quite the smart one if i say so myself, but we would be glad to accept, no pay needed.

Daroach leaves in a smoke bomb

Elfilin: Is he always like this?

Kirby nods,

Elfilin: I guess we should go back to the smoothie shop?

kirby nods in agreement, and the two go back

Meanwhile, meteor madland

Marx is doing stupidly dangerous stuff, and gooey is just licking the rocks

Marx: wooooooooo! This place is awesome!

Gooey: yeah, these rocks taste better.

Suddenly, gooey accidentally pulls out a rock with his tongue, and a compartment is held inside

Marx: oooh, let's get into some trouble!

Gooey: yay! Trout bubbles!

## Issue 2

Dear diary, ever since that strange attack of those weird creatures, Kirby has paid no attention to it. Sometimes, I wish I had the same carefree nature of kirby. not even a single terror scares him. I see him as the best person to know, with his heart of pure gold

Kirby and elfilin wake up, and get out of bed

Elfilin: (yawns cutely), what a nice morning

Kirby takes off his nightcap, and nods

Elfilin: so, what are we doing today?

Kirby walks up to his calendar, and looks in surprise.

Elfilin: What is it?

Kirby points to the day, and elfilin looks at it

Elfilin: Dedede's party? Is it some special day for him?

Kirby nods, then points to a picture of him and dedede's first gourmet race

Elfilin: oh! It's your and dedede's anniversary on your rivalry!

Kirby nods in excitement

Elfilin: Then what are we waiting for? Let's go!

Later, dedede's castle

Marx: Are you sure Kirby will come?

Dedede: of course he will! It's mine and his 5th anniversary since our first gourmet race!

Meta knight: its one of the few parties he consistently comes to, the other ones being my birthday party that he sets up, and christman

Dedede gives out a laugh

Dedede: And half the time, you ain't even there! But kirby still goes to you to give you presents  
Just then, kirby and elfilin walk in, and kirby jumps to give dedede a hug

Dedede: Good to see you too kirby!

Meta knight: your seat is over there

Meta knight points to one of the two big seats, but Kirby jumps onto one of the stools instead.

Dedede: classic Kirby, always takes the stool!

Dedede sits on the chair with the name "king dedede" embedded on the back.

Marx: looks like I got a cooler seat!

Marx tries to go onto the big seat, but gooey somehow is already there

Marx: aw, mannnnn. Gooey got the seat!

Gooey licks the gold armrests

Gooey: these taste funny.

once everyone takes a seat, meta knight hits a glass cup with a spoon

Meta knight: we are gathered here today to celebrate the 5th anniversary of dedede and kirby's first gourmet race.

Everyone claps, then elfilin raises her hand

Elfilin: Can you fill me in on it? I wasn't here for that

Dedede: Well you're in luck, I was just about to tell the story!

Bandanna dee: and I'm gonna make sure he doesn't go off track!

Dedede: Okay, so, 5 years ago, I had been walking around boasting about how I could eat so much. That's when i saw a pink puff eating a whole pile of apples, that reminded me of the time i-

Bandanna waddle dee: you're going off track.

Dedede: Right, so, I was so surprised that someone could eat as much as I did. So, I got mad and challenged him to a gourmet race, something where I always won. We had started at the starting line, and as soon as the flag went down, we were off. We both won one of the two rounds, but our food amount was the same, so it all came down to the last course. We had gotten halfway through, that's when the puff decided to eat a feather. I thought I had it in the bag, but he flies past me now wearing some funky hat with wings. He beat me, and I got so mad that he won. But now, it's our 5 year anniversary since our rivalry, and that fateful day. Everyone took a clap

Elfilin: That sounds so cool!

Meta knight: dedede threw such a temper tantrum, that he proclaimed himself king, then stole all the food in dreamland

Dedede: Now I wouldn't trade Kirby for the world!

Addeline, slightly grinning: Let me guess, you guys are gonna do another gourmet race for this one?

Kirby nods

Dedede: you bet we are!

Later, outside

Taranza: welcome to gourmet race! And today, we have a special one, it's the 5th anniversary of rivals kirby and dedede, and they are doing their special race to see whos the best

Magolor: taranza? I didn't know you work here!

Taranza: eh, i gotta make some money somehow.  
Meanwhile, susie sits in a chair, sipping on some tropical punch

Susie: ahhh, nothing better to rest the mind then a race in person.  
On the track, dedede and kirby line up at the start

Dedede: prepare to eat my dust kirby!  
Kirby gives a determined smile

Taranza: on your marks, get set, go!  
Kirby and dedede are off. They jump over obstacles, and eat food.

Elfilin: What's the victory count between the two?

Meta knight: Kirby, 63. Dedede, 0. Neither care though. Dedede used to hate Kirby more than anything. But as the years went on, Kirby stuck to him, and what made them better friends was when Kirby gave back the chest the squeak squad stole, and he even made Kirby a big cake after.

Elfilin: wow! That's so cool! If only fecto forgo was like that

Meta knight: don't worry, even if you don't have your other half, you still have a best friend  
Elfilin looks to kirby, who is easily winning

Elfilin: Yeah, you're right! Thanks meta knight!

Meta knight: don't sweat it, i like to teach people things that they need to learn.

Taranza: And the winner is, kirby!  
Everyone cheers, and dedede pats him on the back

Dedede: good job kirby! That was so fun!  
Kirby jumps for joy a this

Elfilin: How cool was that meta knight? Meta knight?  
Elfilin looks over to see meta knight has left

Dedede: don't worry, he does that every time!

Elfilin: oh, okay!  
Kirby and elfilin go to kirby's house, and with new knowledge, elfilin puts a smile on is face

### Issue 3

Dear diary, it's been one full month since I've lived with kirby. He's not a bad roommate, he doesn't mind the space in his small house. When we're out of food, he just gets some apples from wispy woods (which is like tropic woods in the forgotten land, but skinnier and not a palm tree). I wonder what we are gonna do today!

Kirby and elfilin walk around looking for something to do.

Elfilin: what are we gonna do today

Kirby looks around, then points to a field of flowers

Elfilin: you wanna make something with flowers?

Kirby nods, and the two go into the flower filled field. They start to make flower crowns for each other. Suddenly, a familiar orange butterfly flies down

Elfilin: eek! I-i-is that the butterfly that absorbed forgo!?

Kirby tilts his head in curiosity, not remembering the last time. the butterfly flies off, and both give chase (elfilin to make sure it doesn't absorb his friends, and kirby because it looks cool)

Meanwhile, great cave offensive mines

A set of dark matter are blowing holes in the mines, while dark matter blade watches.

Dark matter blade: we need that relic, it's the one thing Kirby didn't find.

Some dark matter starts attacking the inhabitants of the cave. That's when an orange butterfly flies across the area, and Kirby and elfilin come up to the dark matter swarm.

Elfilin: Who are they!?

Kirby gets in a battle stance

Dark matter blade: so, the warrior of the stars finally is rematching me, you may have won last time, but you won't beat me now. Take care of this, dark matter drill

Suddenly, a dark, mechanical drill monstrosity comes through the wall, and dark matter blade flies off

Dark matter drill: you will die kirby!

A bunch of dark matter surrounds the dark matter drill, and fuse into him to make a giant drill monstrosity. This is so shocking, even kirby looks surprised

Waddle dee: when could they do that!?

Elfilin: they couldn't do that before!?

Kirby just shakes his head.

Dark matter drill: you're at the top of the wanted list Kirby, and I'm gonna get that bounty!

Kirby gets back into his battle stance as dark matter drill opens its drill to reveal a mouth, and roars.

Elfilin: You've got this kirby!

Dark matter drill shoots out drills at Kirby, but he dodges. Elfilin looks for something that could help, but finds nothing.

Dark matter drill: you can't hide forever kirby!

Kirby gets an idea, once dark matter drill shoots another drill, he inhales it, and gains the drill ability

Elfilin: great idea kirby!

Dark matter drill: you think that will help—hey! Where'd he go!?

Suddenly, a drill hits from the bottom of dark matter drill, which sends it into a wall. It turns tail to go deeper into the mines

Elfilin: We need to get after him!

Kirby nods, and drills into the ground to give chase.

Later

The two dig out, and find themselves in a cave system filled with glowing gems and molten lava

Elfilin: where could he have gone?

They look over to see dark matter drill holding some of the crystals in its gigantic mechanical hands, while it drills into the wall.

Elfilin: there he is!

Dark matter drill turns to them

Dark matter drill: you again!? That's it, you're going down!

Dark matter drill slams the ground, and a bunch of smaller dark matters come down. Kirby gets ready to fight, but is stopped by a streak of thunder, fire, and ice.

Elfilin: What was that!?

Kirby looks in happiness. its hyness's three daughters, fransisca, flamberge, and zan partizan

Dark matter drill: goodbye, i'm not dealing with this

Dark matter drill leaves through a hole.

Fransica: looks like their boss is scared of us...

Flamberge: That's what I like to hear!

Zan partizan: Well then, we still have his minions to take care of, don't we?

The three take down the army with one coordinated attack

Elfilin: woah! Who are they

The trio floats their way down

Flamberge: Hey kirby! How's your day been?  
Kirby gives a happy smile

Fransisca: good to know

Elfilin, looking in awe: who are you three!?

Zan partizan: we are the three mage sisters, friends of kirby. I'm the leader of the group

Flamberge: and unlike most trios like this, we agree with her to be the leader!  
Elfilin starts flying around, looking at every detail

Elfilin: I didn't know Kirby knew such crazy strong people!

Zan partizan: eh, we aren't the same power as kirby himself, meta knight, or gooey

Elfilin: gooey and meta knight? But i've never seen them fight

Fransisca: don't be deceived by gooey's blob like shape, he's very strong

Flamberge: one time, me and meta knight dueled, and I only got two hits on him before I lost!

Zan partizan: And I assume you've seen marx and magolors power?

Elfilin: i know marx is strong, but when was magolor

Fransisca: we don't know why he's so strong, ask magolor himself instead

Later

Elfilin: you did what!?

Magolor: yeah, i went from power hungry to only wanting to be the best friend i can for kirby.  
Pretty neat, huh?

Elfilin: I didn't know how many people have these cool powers!

Meanwhile, meteor madland  
Dark matter beam: sir.

Dark matter blade: yes?

Dark matter beam: it seems the relic was found by someone else before we arrived.  
Dark matter blade looks for a bit, then flies off, with some dark intent

#### Issue 4

Dear diary, after seeing how powerful some of Kirby's other friends are, it makes me want to know how they handle all that power without going power hungry (unlike a certain other half of me). But it does make me wonder, what will I become when I grow up? Will I look like Fecto Elfilis, or will I keep my cuteness?

Elfilin sits at a table, reading a book, while Kirby talks to some people in town.

Elfilin: Who could have known relics were so interesting? Like this, the energem, it can charge you beyond comprehension! It's said to be hidden somewhere above a cave in Meteor Madland. Little did he know, Marx was watching from a rooftop. He pulls out the relic he found in Meteor Madlands, then looks back and forth between the picture and the gem. It's no denial, the same gem

Marx: the energem eh? Either, I can be responsible and give this to Meta Knight or Magolor. OR, I can use it to energize myself beyond comprehension! It's not hard to choose when you're the most chaotic jester in all of Planet Popstar!

Kirby just finished talking to a Waddle Dee, when suddenly, a blast of energy shoots right in front of him. And down comes a cloaked, one-eyed figure similar to Dark Matter Blade, but the cloak is the same colors, different design, and he has a different hairstyle with a beam wand

Dark Matter Beam: I am Dark Matter Beam, the second highest ranking member of the ability matter. You, Kirby, have been the number one enemy to Dark Matter for too long. And you will be beaten

Kirby gets ready to fight, and Marx puts the energem before he can use it

Marx: dang, time to fight.

Marx lands beside Kirby, and Kirby nods at him.

Dark Matter Beam: luckily, I'm not alone in this

Dark Matter Beam swings his beam wand, and a bunch of dark matter comes from the ground

Elfilin: Oh no, Kirby's in trouble! What should I do?

Elfilin searches, but finds nothing.

Elfilin: where is anything

Meanwhile, Kirby fights the dark matter, and Marx fights Dark Matter Beam

Marx: how ya gonna beat a god!?

Dark Matter Beam: through my superior intellect

Dark Matter Beam makes lasers to corner Marx. But he responds by hiding in the ground, and jumping from behind him.

Marx: boo!

Marx fires a laser straight at Dark Matter Beam's back. And Dark Matter Beam is gone

Marx: easier said than done!

Dark matter beam: rule number one, never give your spot away  
Dark matter beam fires a laser straight in marx's back, and he is sent to a wall

Marx: ow...

Dark matter beam: now, you will be destroyed.  
Suddenly, a fiery bomb hits dark matter beam from above. And daroach lands on the ground

Daroach: hello, i'm your worst nightmare beam boy

Dark matter beam: you think you can beat me? Try as you will  
As dark matter beam and daroach get into a fight, marx gets up. He sees that some weaker dark matter are running from their fight with Kirby, and attacking innocent civilians.

Marx: eh, meta knight can handle that—  
Suddenly, he sees they're about to go for some noddys  
Marx: oh, now that crosses the line!  
Marx rushes up to the dark matters, and goes full rage mode on them.  
Marx: YOU ARE NOT ALLOWED TO HURT THEM!  
Literally everyone who isn't fighting looks in surprise as marx goes all out because some dark matter was going to attack a few noddys, who lounge on their butts all day.

Meanwhile  
Elfilin: what to use!?  
Suddenly, elfilin sees a bowl, a butter knife, and a plate  
Elfilin: (sighs), gotta use what you have  
He puts the bowl on his head, and uses the butter knife and plate as a sword and shield.  
Elfilin: time to save my friends!  
Elfinin rushes to aid Kirby, and only distracts the dark matter, but Kirby takes the time to take them out.  
Elfilin: thanks kirby! If it weren't for you, I'd be dead meat.  
kirby gives a nod

Meanwhile  
Dark matter beam attacks, but every move, daroach has a counter to

Dark matter beam: why wont you just die insolent pest!?

Daroach: I prefer the term, "insolent rodent".  
Dark matter beam decides to retreat

Dark matter beam: all forces, retreat immediately

All of them fly off, and marx is too focused on turning the two who were trying to attack noddys into paste

Daroach: marx, you can stop now

Marx looks up

Marx: oh, right...gotta go!

Marx rushes off faster than usual, but Kirby walks over to the food stand, and forgets that it ever happened.

Daroach: Kirby, elfilin.

Elfilin: yes?

Daroach: I have found some intel, the dark matter army are on a search for the energem.

Meanwhile, the lor starcutter

Magolor: marx, it isn't like you to bring the strong relics you find to me...what's the matter?

Marx: Just, you know, reasons.

Magolor gives marx a "i know your hiding something" look

Marx: Okay, fine, I'm a noddy.

Magolor: Wait, but noddy's are sleepy at all times because their energy is stored and never used! The only way for you to be a noddy is—(gasps)

Marx: to inherit all of that stored energy, all of it. From the first to my parents.

Magolor: That's so strange! I never knew

Marx: you can bet your butt meta knight did.

Marx gives a light chuckle

Magolor: how about this, i've known you since you told me about kirby and planet popstar, how about we have a little adventure? To lighten your mood

Marx looks up in surprise

Marx: you'd do that for me?

Magolor: a friend in need is a friend indeed!

Marx: You learned that from Kirby, didnt you?

Magolor: nope, bandanna dee

## Issue 5

Dear diary, ever since the dark beam guy, i have felt something, wrong. But I can't put my paw on it. And I've been having nightmares and thoughts that don't feel like mine. If this keeps happening, i'll tell meta knight and kirby, but until then, we are going to somewhere we need kirby's warpstar for

Deep in space

Kirby, elfilin, and meta knight are flying through space

Elfilin: are you sure we need to go here to ask about these monster

Meta knight: yes, if there is one person who knows about dark matter, it's him.

Kirby points out to a giant ancient looking station bigger than half of the planets

Elfilin: WHAT IS THAT!?

Meta knight: fort jambastion, the person we need lives there

Elfilin shivers

Elfilin: they live in that thing!?

The three land on the dock, and meta knight walks up to one of the keypads

Meta knight: lets see, 29386

A beep is heard, and the door opens

Elfilin: How did you know that!?

Meta knight: I go here to train my sword galaxia. He is one of the creators of it, so he knows all about its abilities

Elfilin looks in, and sees strange symbols marked across the walls. It gives him shivers on another level

Elfilin: Maybe we can try someone else?

Kirby puts his nub on elfilin's small shoulder

Meta knight: don't worry, nearly everyone was terrified of this place when they first came here. It's okay to be scared.

Elfilin: o-okay... if you say—

Hyness: good morning meta knight!

Elfilin starts flying in circles in terror

Hyness: Wait, is it morning? It's hard to tell when you live on something that never revolves around our star.

Meta knight: it's the afternoon.  
Kirby gives an enthusiastic wave

Hyness: oh, kirby! What brings you here?

Elfilin: w-we're h-here to...uhhhhh...

Meta knight: there have been some dark matter infestations, including two ones seemingly related to dark matter blade.

Hyness: hmm, that would mean the ability matters.

Kirby tilts his head

Hyness: the ability matters are dark matter pieces in the shape of certain weapons, there is blade, drill, beam, hammer, and spear. Blade is their leader.

Elfilin: g-good to know

???: hyness, i've always hated him  
Elfilin jumps

Elfilin: Who said that!?  
All three turn to elfilin

Meta knight: who said what?

Hyness: anyways, you should try and find their hidden base  
Kirby nods, and meta knight looks between elfilin and hyness, then whispers something in hyness's ear.

Elfilin: What are you guys talking about?

Meta knight: nothing, but we need to do something here right now.

Hyness: yes, follow me!

Meanwhile, planet popstar  
Ribbon flies up to addeline

Ribbon: hey, what are you drawing

Addeline: it's my home, earth

Ribbon: oh! Your old planet! How did you get here from there though? I've never seen anything like it.

Addeline: my great grandpa was a top notch scientist, he had built a rocket a while before some incident my parents never told me about. I saw it, and my dad said that i could use it once i could prove my art skills

Ribbon: Let me guess, your pictures came to life when he saw them?

Addeline: exactly! He was so impressed that he let me use the ship! I don't know what he's doing now...

Ribbon: what do you remember then?

Addeline: speedy people, crazy islands that i never saw, powerful relics  
As the two kids keep talking, they are interrupted by an explosion. They run over tho the impact point, and see a very scratched out logo on it

Addeline: Is this, a missile?

Ribbon: i guess, should we tell meta knight?

Addeline: he's off doing something, and so is a lot of people, so our best hope is taranza or susie

Ribbon: its mechanical, so i guess susie  
The two run off to find susie

Meanwhile

Hyness: here it is!

Hyness pulls out a gem in the shape of a four pointed star

Hyness: the mind crystal! Kirby and elfilin can take it for now.

Meta knight: agreed

???: ah, THAT crystal

Elfilin: ah! Who said that!?

Kirby tilts his head in confusion

Elfilin: umm, nevermind, lets just go home

## Issue 6

Dear diary, ever since hyness put me and kirby in charge of the gem, the voice kept talking to me, saying things that i don't understand. But today, it's been awfully silent, only saying "when you're alone in the house, close your eyes and calm your mind". I guess i can try that when i can

Kirby's house

Elfilin is looking around, making sure no one is there.

Elfilin: okay, here goes nothing

Elfilin takes a deep breath, and closes his eyes. It feels like nothing is around him, until he hears the voice

???: you can open your eyes now.

Elfilin opens his eyes, and sees none other than fecto elfilis, standing right in front of him

Elfilin: elfilis!? How are you alive!?

Elfilis: when you absorbed part of my power, my soul was absorbed into your mind

Elfilin: how can you even fit in here?

Elfilis: this is in your mind, it's the hyness was trying to figure out what was infesting your mind, and here i am, only existing in your mind now

Elfilin: oh, sorry if this is torture

Elfilis: I don't mind, as long as I live, I am fine. Not to mention i still have my markings all over you

Elfilin: what?

Elfilis: you see, if you concentrate, which you aren't good at in a new world, you can channel my energy to power yourself.

Elfilin: what? Why are you telling me this? Aren't you evil?

Elfilis: i was controlled by rage more to say

Suddenly, kirby comes in, and elfilin snaps out of her concentration

Elfilin: Hey kirby! What are you doing?

Kirby gives a smile

Elfilin: That's nice!

Elfilis: how do you understand that?

Elfilin, in his mind: don't question it.

Meanwhile

Susie: a missile?

Addeline: yeah, it was large, and had some red, scratched out logo on it

Susie: i'll go check it out, follow me to it

Susie jumps in her mech, and goes off. Addeline and ribbon follow her

Meanwhile

Kirby and elfilin walk up to a crater with a missile in it.

Elfilin: What is that?

Kirby walks up to the missile, which starts rumbling a tiny bit. This peaks Kirby's interest, he starts looking at every angle. Just then, susie, addeline, and ribbon come over

Susie: oh, hey guys. I'm here to examine the bomb.

A bit later

elfilin and ribbon play go fish

Ribbon: have any fours?

Elfilin: go fish

Susie is looking at data from her mech, and kirby is still looking at the missile

Susie: okay, now time for the logo scan

Susie pulls out a scanner, and scans the logo

Susie: Let's see, so it's red, round, and has some resemblance to a mustache. What companies have logos like that?

Susie instantly scrolls past the old haltman works co logo (because she owns haltman works co, not her dead dad), she scrolls until she sees one that matches.

Addeline: what is it?

Susie: this one!

Susie pulls out a picture of a round logo with a mustache in red. Addeline squints at it

Addeline: i feel like i've seen that somewhere, but i can't put my finger on it

Susie: looking at it, this guy is pretty evil  
Suddenly, a massive drilling noise is heard

Elfilin: oh, its this guy again

Meanwhile

Dark matter drill: yes! Cower in fear before my power! Cower in fear!  
Under him, taranza is bored of this, ties all of the surrounding dark matter into a web

Taranza: Can you speed up this slow process? It's getting boring.  
Dark matter drill turns to taranza

Dark matter drill: WHY AREN'T YOU COWERING?!  
Dark matter drill opens his mouth to eat taranza, but he misses, and taranza uses a web to shut his mouth

Taranza: Can you not? Its so annoying to hear you speak  
Dark matter drill turns around, and digs a large hole in the ground. Just then, kirby and co arrive

Ribbon: what happened!?

Taranza: i don't know, some drill thingy came in, and i beat it, and it's probably going to its lair or something

Elfilin: That's what we need! If we follow him down, we can find the ability matters!

Susie: If we're gonna go down there, you're gonna need an army to take care of the weaker dark matters, let me handle that.

Ribbon: and the rest of us can find the others!

Elfilin: meet back here in an hour?

Addeline: yes, we'll meet back in an hour  
little do they know, someone is watching, dark meta knight

Dark meta knight: dark matter? Perfect, I needed one of those for my next project. Kirby, next time we meet, i will kill you and your friends, and become the ultimate ruler

Issue 7

Kirby and co meet up at the hole, and susie has a large vehicle

Meta knight: so, looks like this is where his trail is

Daroach: not the master touch for hidden...

Gooley, eating dirt: dirt tastes funny.

Elfilin: Everyone ready?

Dedede: i would be if we knew where kirby was

Bandanna dee: yeah, where is he?

Suddenly, kirby comes running up with a paintbrush girl bandanna dee instantly recognizes

Bandanna dee: what the—! Elise!?

Elise: That's me, Kirby said he needed some help, and I was glad to!

Meta knight: So you're the paintbrush girl Kirby told me about when the world lost color?

Elise: yep!

Elfilin looks at elise with interest

Elfilis: ask what she does, i want to know that.

Elfilin: what do you do?

Elise: glad you asked! Kirby?

Kirby partially curls up into a ball, and Elise paints a line for Kirby to roll on. Everyone is super impressed (other than bandanna dee, who has seen this)

Elfilin: Now is everyone ready?

Addeline: umm, I need to do something, go on without me.

Addeline runs off, and susie just looks at everyone

Susie: okayyyy...lets just go now

Everyone gets in the vehicle, and the go into the hole

Meanwhile

Addeline walks up to the missile with an angry expression. She pulls out her brush, then makes a big X on the logo

Addeline: take that!

Suddenly, the missile rumbles again, and a compartment opens. A screen flies out of the hatch, and a mustachioed face appears on it.

???: finally! The hatch opened. That means my drone can scan the area for my new base on this planet!

Addeline: ahem.

???: what the—, is that my niece!?

Addeline: uncle ivo, what are you doing on popstar?

Eggman: You know well that I go by eggman!

Addeline: yeah, and you shouldnt be on one of the most peaceful planets around.

Eggman: the more peaceful the planet, the easier it is to conquer!

Addeline gives a mad expression

Addeline: i am not going to tell you again, get off popstar

Eggman: I wouldn't be here if you hadn't stolen my mechanical paintbrush to get here!

Addeline: fine, you can stay. But if you even try to conquer, you are messing with the ultimate being

Eggman: I don't think you're telling the truth! I'll be taking my leave now!

Eggman's drone flies off, and addeline gives an angry look to her uncle

Meanwhile

Susie's vehicle drives through the hole

Taranza: Where's Marx and magolor? I haven't seen them in a while

Susie: from what i've heard, they are going on an off planet adventure.

Daroach: sounds like something marx would like. Thats why hes there

Suddenly, a spear is shot into the front of the vehicle, and it breaks down. Everyone gets out, and sees a area filled with tech

Susie: ohmygod, this place is so high tech! How did they do this!?

Meta knight: dark magic, not technology

Susie: oh, that makes more sense.

Suddenly, another spear is shot at them, and two new dark matters (one with a spear, and one with a hammer) stand by dark matter beam

Dark matter beam: you still challenge us? Dark matters hammer and spear, attack

The two dark matters go to attack, but dedede and bandanna dee stop them from attacking

Dedede: you guys go on ahead, we have our hands full

Daroach: i'll be staying here too, but for beam boy, he left our match undecided

Daroach jumps at dark matter beam. And everyone else runs to find dark matter blade

Susie: We need a plan. Kirby, you and then small ones go high. Meta knight, you and taranza take the front. And me and goeey will go another way

The three teams split up to find dark matter blade

With kirby

Elfilis: I can sense him...elfilin, tell them to climb up

Elfilin: climb up guys!

Elise makes a line up, and Kirby climbs up it. They see a strange door with a picture of an all too familiar crown above a halo, a chest, and a large image of two blades

Ribbon: halo, that means 02...and that chest, wouldn't that be the monster dedede had in a chest?

Kirby nods

Elfilin: I have a feeling that the swords mean dark matter blade.

Elise: what are we supposed to do now? This door is locked shut

Just then, a rock falls

Ribbon and elfilin: that!

Elise, confused: a rock is strong, but how is it supposed to help us?

Elfilin: you'll see...kirby, inhale it!

Kirby inhales the rock, and he gains the rock ability. Elise looks in surprise

Elise: when could he do that?

Ribbon: his entire life

Kirby breaks down the door, and the four walk in

Dark matter blade: so, you've made it...

Issue 8

Dear diary, we-

Elise: not the time for writing in a diary!

Elfilin: oh, sorry.

Dark matter blade: how long has it been since our last encounter? A little more than four years, is it?

Kirby nods, still having the rock ability

Dark matter blade: no matter, this time, you don't have that weapon you had last time. And this time, I'm stronger.

Dark matter blade jumps into the air, then hits kirby, making him lose the rock ability

Ribbon: you've got this kirby!

Kirby nods

Dark matter blade: en guard kirby

Meanwhile

Dedede and bandanna dee fight dark matters spear and hammer

Dedede: ready for the dedede deluxe special?

Bandanna dee: you bet it!

Bandanna dee throws a spear into the ceiling, and dedede pulls on it to make the ceiling start to cave in above the two. Then both lunge at the dark matters, and throw them into the caving in area

Dedede: That is what I call the best attack!

Meanwhile

Meta knight and taranza find themselves in front of a strange mural

Taranza: Hey, by any chance, do you know how to read scribbles?

Meta knight: it's called hieroglyphs, and I've figured out it says "beyond the darkness and through the light, comes an eternal night. If the world goes into darkness, only one person will show their mightiest."

Taranza: woowow, i don't understand

Meta knight: an apocalypse with an endless night, and one person can stop it. And for once, i dont think it's kirby...

Meanwhile

Susie and gooey follow dark matter drill as he makes a hole up

Dark matter drill: fight kirby, he says. It won't be hard, he says. Well MAYBE we have different views on the word hard!

Dark matter drill starts yelling more about seemingly dark matter blade, as susie and gooey follow. Suddenly, he reaches the surface, and walks over to some cells with some strange people who seem like anthropomorphic animals

Person: Are you gonna ask if we know anything about the energem again? Because we didn't, and we still don't.

Dark matter drill: well i know you're hiding something from me, and i'm gonna keep coming every day!

Dark matter drill walks out (and makes a hole in the wall), then susie and gooey come out of the hole to see a room filled with holes

Susie: yeesh, that guy is careless

Person: you there, can you get me out of here?

Susie: sure.

Susie unlocks the door, and the person walks out casually

Person: I am happy to see other people, but that drill monster is a pushover in threatening. He thinks coming back every day will scare me, which it doesn't

Susie: What an idiot! What do you have to say about that gooey?

Susie turns over to see gooey eating a wall part

Gooey: tasty!

Person: Anyways, I need to find a way back to my planet, so do you know a way?

Susie: don't worry, I have a ship myself! I can fly you!

Person: thank goodness

Meanwhile

Daroach and dark matter beam are in a fight, and they're tearing down the area

Daroach: lets see if you can hit me one more time

Daroach throws a smoke bomb

Dark matter beam: all i have to do is find you shadow

Daroach: thats funny, it's almost like i dont have one

As he said, there is no shadow to track, and daroach attacks dark matter beam as the room starts to crumble

Dark matter beam: i will not lose! You are a rat!

Daroach: correction, i'm a mouse

Daroach kicks dark matter beam into one of the remaining pillars, then dashes out

Dark matter beam: no!

The entire room falls onto the wielder of the wand

Daroach: now, time to find everyone else

Meanwhile

Dark matter blade forces Kirby to dodge his every attack, while elfilin, elise, and ribbon try to keep up.

Dark matter blade: you won't win, i've planned out your every move

Kirby gets in some hits, but since dark matter blade is only affected by magic attacks, they do nothing.

Elfilin: I have to find something!

Elfilin looks around, and sees a sword, glowing with energy.

Elfilin: Kirby might be able to use that! But how do I pick it up?

Elfilis: remember, focus to gain you true power

Elfilin breaths in, then energy surrounds him. Suddenly, he feels much stronger. He grabs the sword

Elfilin: Kirby, catch!

Elfilin chucks the sword to Kirby, which he inhales. And suddenly, Kirby gains a large but majestic hat, and a sword larger than a truck. Kirby has gained the super sword ability

Ribbon: jokes on you dark boy, the battle has only begun

Dark matter blade: I will not be deterred by that, I am the true greatest warrior in the galaxy!

Elfilin: sorry, but thats kirby and meta knights

Elise: lets see him ready to get pounded!

Issue 9

Kirby and dark matter blade stand in front of each other

Dark matter blade: I am not losing again! Attack my armies!

A huge swarm of dark matter breaks through the walls, and fuses with dark matter blade. The entire cave breaks, and Kirby jumps out to fight dark matter blade.

Dark matter blade: GAZE UPON YOUR DARK LORD!

Kirby gets his sword ready, as dark matter blade is now gigantic and vengeful. Meanwhile, taranza and meta knight watch

Taranza: hes gigantic now!

Meta knight: he has been corrupted with fulfilling what he's wanted to do, and changed into the worst version of himself

Taranza: kind of like...sectionia

Taranza sheds a tear

Meta knight: I shouldn't have said that.

Daroach jumps in

Daroach: Are you guys watching the battle?

Meta knight: I suppose you could say that, i know kirby is strong enough to deal with this himself.

In the battle

kirby runs up the side of dark matter blades hundreds of arms protruding out of him

Dark matter blade: DIE PATHETIC LESSER CREATURE!

Dark matter blade swings his giant sword at Kirby, but Kirby counters with his own sword, and slices the other blade in half.

At the bottom on dark matter blade, elfilin sits, waiting

Elfilin: You can do it kirby!

Suddenly, addeline runs over

Addeline: what happened!?

Ribbon: dark matter blade went mad, and now Kirby is fighting him. What about you?

Addeline: oh... nothing much, just needed to grab something

Elfilis: right now, i think it is best to wait

Elfilin, in her mind: that sounds like a good idea.

Meanwhile

Kirby runs up dark matter blade, slicing through all weaker dark matters along the way

Dark matter blade: I AM STRONGER, BETTER, AND SUPERIOR TO YOU!

Dark matter blade swings his other sword at Kirby, but it is also sliced in half. Kirby starts jumping up the the final stretch

Meanwhile

Dark meta knight is walking off, with a live dark matter in his hand

Dark meta knight: pathetic, they're all just delaying the inevitable  
He flies off

Back with kirby

Kirby finds a spring, and bounces high into the sky, perfect point to slash.

Dark matter blade: NO! I AM UNDEFEATABLE, I WILL WIN!

Dark matter blade makes two more swords to swing at kirby. Kirby pulls out his own sword, and clashes blades with the dark swordsman. Both push with all their strength, but in the end, kirby breaks through both swords, and slices straight through dark matter blade

Dark matter blade: AAAAAAAAAAAAAAAAAHHHHHHHHHHHHHHHHGGGGGGGGGGGGGGGGG!!!!

Kirby jumps down, now without the super sword, and spins around with a smile. Elfilin dashes in for a hug

Elfilin: thank goodness you're okay!

Kirby's other 2 small companions fly up too

Ribbon: you did great!

Elise: That was impressive!

Meanwhile

Meta knight: he's done it again

Taranza: he never fails to surprise me

Daroach: i'm not surprised that he won, hes went through worse

Meanwhile

Susie and gooey land back on popstar

Susie: we're back! What did we miss?

They see everyone celebrating

Susie: oh, everything

Meanwhile

Dark matter drill mumbles to himself as he goes to dark matter blades room

Dark matter drill: what does he want this time?

He looks in the room to see a giant hole in the ceiling

Dark matter drill: looks like all my allies are dead...welp, that means i don't need to take orders anymore!

He drills into a wall, and leaves

Later, castle dedede

Dedede: why is everyone sleeping at my castle?

Susie: we just wanna, i just had a tiring day on my break after all

Taranza: same here

Daroach: i'm here to sleep in a bed, i don't actually have one

Dedede: fine, but no one eat my—

Gooey walks in, in the shape of burrito

Dedede: dang it

Dear diary, one thing I have learned is that being friends with Kirby means a lot of adventures, but that makes me excited, it makes me wonder, what will happen next? You never know what is next when you're with kirby.

Meanwhile

Dark meta knight throws the dark matter across a room

Dark meta knight: there's your delivery

???: excellent...

Issue 10

Meta knight quietly looks off into the distance.

Meta knight: what is the meaning of addelines strange behavior? She's been acting quite much not as cheerful as usual

Meanwhile

Eggman's drone is scanning the area

Eggman: I don't know what my niece was talking about, this place has more peaceful creatures than planet wisp! Just look at that one!

Eggman looks over to kirby, who is sleeping

Eggman: You know what? Time for this drone to go into battle mode!

The drone suddenly transforms into a robot, and everyone runs away (except Kirby, who's still sleeping). A waddle dee runs up to the pink puff

Waddle dee: kirby! You gotta help!

Kirby wakes up, and sees a robot destroying stuff. He gets up, and runs over. Eggman looks in surprise

Eggman: Someone standing up to me? Oh, that's rich!

The robot fires missiles. Kirby dodges some, then inhales one, and gains the bomb ability.

Eggman: What the...

Kirby throws a bomb at the robot, and blows it up.

Eggman: so, she WAS saying an actual warning...

The drone pops out, and flies off. Addeline watches

Addeline: that serves you right

Meanwhile

Meta knight is back to looking off into the distance

Bandanna dee: we just finished a crazy adventure! It's not like another one is gonna happen right after!

Dedede: let him do his thing. I feel like that's more than just protectiveness, maybe his way of having fun!

Bandanna dee: if you say so...

The two leave, and meta knight pulls out a picture of what seems to be a younger him, with an older of his and kirby's species, and a younger one next to him

Meta knight: I will find a way for you to come back, I will.

Meanwhile, space

Marx and magolor are flying around in the lor starcutter, looking for a place to adventure

Magolor: how about that one?

Marx: Nah, Kirby has already been through that one.

Just then, they see a drone fly by, mumbling something while going to a less desolate planet

Magolor: how about that one?

Marx: Yeah, let's do it!

Meanwhile, launch ground

Susie is preparing to leave

Susie: Okay guys, I'll be seeing you partially soon!

In front of her are gooey, ribbon, and elfilin, who is clapping just to be nice.

Gooey: this rock tastes funny.

Ribbon: what am i doing here...

Elfilin: safe travels!

Susie, sarcastically: wow, what a thunder of applause...anyways! I gotta go!

Susie gets on her ship, and blasts off

Meanwhile

Kirby is walking back home, and sees a glowing light. He runs over to it, and it seems like there's nothing. But then, there's movement

???: system reloading...

Kirby removes the rubble. And a strange robot climbs out.

???: location, unknown.

The robot looks rusty with something faded on the side. Just then, elfilin flies over

Elfilin: hey kirby, i heard something going on here and—o m goodness what is that?

The robot looks at elfilin

X-17: codename, X-17. unknown bio name

Elfilin: is bio name like, the name that doesn't sound like a building sector?

X-17: affirmative. Now, please enter owner names

Elfilin: Why do you want our names?

X-17: protocols ensure i must have a owner, and when my original owner dies, the strongest person i see is my new leader

Elfilin: Well, I'm Elfilin, and this is Kirby, who happens to be one of the if not the strongest beings.

X-17: affirmative, you are now my owners.

Elfilis: sheesh, this thing has less free will than a dark matter piece!

Elfilin, in his mind: you're lucky I'm the only one who can hear you.  
Just then, kirby smiles, and brings X-17 back to his house

Elfilin: it's gonna be one of THOSE things, isn't it?

Marx and magolor 1 (mini series that is in middle of the next arc)

The scene starts with the lor starcutter spinning around, then cuts to marx on the controller, and magolor being flung around

Magolor: stop messing with the lor-AAHHHHHGGG!

Marx: oh, sorry mags!

He lets go, and magolor falls to the ground

Magolor: You're lucky you're my best bud, or I would lock you in a seatbelt.

Marx: and I would still be able to cause chaos!

Magolor: now, lets land

Magolor grabs the controller, and gently lands in a field. They open the door, and walk out into the field.

Marx: wow, this grass is a lot less grassy.

Magolor just slaps his face

Magolor: this is actually a lot more common of a grass type through other planets

Just then, some robots come through, and start destroying the wildlife

Marx: oooh, evil robots! I want to blow it up!

He summons his wings, rushes over to them.

Marx: hey! Im marx! You're the bad guys I think?

The robots nod, then marx smiles

Marx: good! Take this!

He throws up a iron ball, and it blows up to freeze the robots

Magolor: leave it to marx to make the enemy look like an idiot. Now, what do you want to do?

We could go raid some ruins, take on a giant evil base, or find a thing called a chaos emerald

Marx: That emerald one sounds cool! Let's do it!

Magolor pulls out an energy radar, and it points left

Magolor: then looks like we're going south!

They turn around, and dash off. But not even two minutes in, someone crashes into marx

Magolor: marx! Are you okay?

Marx instantly gets back up

Marx: yup! But who's that?

Both look over to the lemur, rubbing her head, and a bit dizzy, so she can't see them well

???: oh, that one hurt. Also, who are you guys? It's hard to see you dizzy and upside down.  
Marx goes upside down

Marx: Is this better?

???: Yeah, I think. Wanna shake?

Marx: boy, do i!?  
Both shake hands, and the lemur instantly feels strange

???: Wow, your hands feel sharp!

Marx: silly, I don't have hands, I have claws at the end of my wings!  
Just then, her dizziness goes away, and she sees marx clearly now

???: you didn't say you were a ball with legs!

Marx: oh, right. I am.  
The lemur flips onto her feet, and marx turns rightside up

Tangle: anyways, im tangle, tangle the lemur!

Marx: Well, I'm Marx, Marx the jester! And that's my best buddy magolor, mags for short.  
Magolor waves

Magolor: Hello, nice to meet you. I'm giving marx an adventure, since he really likes the,

Marx: yeah! We're looking for something called a chaos emerald

Tangle: ooh, can i come?

Magolor: wait, wha-

Marx: sure!  
Just then, a wolf wearing a mask comes through the bushes

Tangle: oh, that's my best friend whisper! Sorry for going ahead by the way  
Whisper sighs

Whisper, quietly: dont go ahead

Tangle: hehe, yeah.

Marx: Well, what are we waiting for? Let's get that emerald!

Issue 11

Meta knight is training on a test dummy, while sailor dee checks his stats

Sailor dee: you went up by 6 slashes per second! Congrats sir meta knight!

Meta knight: right, I need to do something.  
He instantly teleports out.

Sailor waddle dee: classic sir meta knight, always has something to do...you know i can hear you bandana dee  
Bandana dee jumps, amd starts jittering

Bandana dee, blushing: u-um, l-l-letter!  
He tosses a letter to the ground, and runs off sailor waddle dee picks it up

Sailor dee: to meta knight, from DMK?  
She lays it on the counter, and leaves

Meanwhile  
Taranza is sleeping, until he hears a mechanical groan

Taranza: huh?  
Just then, dark matter drill comes out of the ground

Dark matter drill: guess who's back!  
Taranza just sighs

Taranza: welp, here we go again...  
Dark matter drill shoots at taranza, who just dodges  
Taranza: Can you do this to anyone else? I'm on my break

Dark matter drill: well duh! That makes you an easy target!

Taranza: it would work better if i was tired and off my break

Dark matter drill: no it wouldn't! My plan is-  
Suddenly, a giant mechanical wispy woods lands in front of dark matter drill, and smacks him away  
Dark matter drill: whyyyyyyyyyyyyyyyyyy!?  
The robot wispy woods roars, and susie comes down in her mech

Susie: taranza! No time to explain! Get Kirby and co!

Taranza: ummm, okay...

Later

Susie: This is all you could find?

The camera turns over to show taranza, kirby, X-17, gooey, dedede, addeline, and fransisca

Fransisca: Well, flamberge, zan, and father are currently doing something.

Dedede: meta knight brought bandanna to a training session to toughen him up

X-17: [<everyone else was busy>] is what they were informing you about

Susie: Okay, anyways, do you guys remember when I said Haltmann works company doesn't mechanize planets any more?

Dedede, kirby, and taranza nod

Susie: well...I kind of half lied about that...

Dedede and taranza: WHAT!?

Susie: don't panic! It's only dying planets, and i do it to help them

Taranza: oh, that makes more sense

Susie: There was this planet that I made the main utopia planet that I named topia, but it's been attacked by a monster!

Kirby looks in curiosity

X-17: answer what the creature looked like|

Susie: huh? What are you?

X-17: codename. {X-17}. Bio name. Unknown

Susie: okayyyy...anyways, i'm gonna have to get you guys to topia to help

Kirby just gives a happy nod

Addeline: i guess i could see another planet, it not like i have anything planned

Fransisca: sounds fun enough.

Susie: great! Come on.

She whistles, and her ship lands

Susie: hop on, we're going to topia!

Gooley: have you guys tasted the rocks here? They taste good

Meanwhile

Meta knight and bandana dee are fighting off some reflected, mirrored versions of popstar inhibitors, made by dark meta knight (A.K.A. dark mind in his weaker form).

Bandana dee: there's so many!

Meta knight: it seems dark mind wants us away from his plans  
As he says that, he slices through a bunch of reflect waddle dees, shattering them

Bandana dee: there's too many! We need to-

Meta knight: if you want to toughen yourself up and help dreamland the best you can, let go of your fear, and just focus on the heat of battle  
Bandana dee pauses, shakes himself around (since his nubs don't let him hit his face), and puts on a serious face

Bandana dee: r-right!

Meanwhile

Elfilin and ribbon are drinking some tea (they only need half a cup because of their body sizes)

elfilin: you've kissed kirby!?

Ribbon: yep! Right on the cheek! He even blushed!

Elfilin: You know, it's nice to finally have some relaxation. No important dates to worry about, no crazy world ending event, no enemies attacking, it feels like nothing bad could happen right- Suddenly, the wall is torn down, as two glowing red eyes appear in the smoke

Ribbon: should we run?

Elfilin: Yeah, I think so.

Meanwhile

Dark meta knight watches the events unfold from a dimly lit room on a monitor

???: how much longer till my ultimate return

Dark meta knight: all in due time, glorious being of dark dreams

???: perfect...

Dark meta knight: it's all going according to plan  
The final scene depicts dark meta knight's pale yellow eye

Marx and magolor 2

Marx, magolor, tangle, and whisper go through the forest, looking for the chaos emerald

Marx: bored bored bored bored bored! When are we gonna find it?

Magolor: finding ancient relics take a lot of time

Tangle: oh! What if we sing?

Whisper, quietly: tangle, n-

Marx: yeah!

Magolor: marx, wai-

Both in the most ear breaking voices: 1000000 bottles of coke on the wall, 1000000 bottles of coke! Take one down, pass it around, 999999 bottles of coke on the wall! 9999-

A LONG while later

Both: take one down, pass it around, 0 bottles of coke on the wall!

Magolor: remind me to bring headphones next time...

tangle: well, where's the emerald? We've had to have gotten to it!

Magolor: lets see (pulls out his compass), wait, its moving, somebody must have it!  
They all turn in the direction of the compass, and see a large fat egg like man

Tangle: eggman!

Whisper pulls out her wispon, magolor just goes with it, and summons magic spheres

Marx: Do my eyes deceive me? Or is there actually gonna be some fun?

Eggman: Who the heck are you two!? And why are you with the lemur and the wolf?

Magolor: well, im-

Marx: im marx! Top chaotic jester with god powers when I wished on a giant wish granting thing with a cat face! And that's magolor, but I call him mags! He is a magic user who loves ancient tech and stuff!

Tangle: I did not understand half of that, but it sounds cool!

Eggman: grrr, you aren't getting the chaos emerald! Badniks, take care of these pests!  
The badniks rush in, only to get shot with energy arrows by marx

Marx: at least make this interesting!

Tangle: yeah! How about you send metal sonic?

Eggman: he's off on a off planet expedition

Whisper, quietly: that's new...

Eggman: Nevermind that! I'm leaving with the chaos emerald!  
He flies off, and marx summons his wings

Marx: You wanna play the chasing game, huh? Well I'm a pro at catching up and blowing up!

Tangle: I'm also gonna do that, but on the ground!

Both rush off in pursuit of the doctor, and both magolor and whisper just sigh

Magolor: He's always a hassle, but he's the one person I can relate to.

Whisper looks at him, wondering what's going in his mind

Magolor: anyways, we need to get them before they get into any trouble

Both go off to help their buddies out

## Meanwhile

Marx is in front of eggman's eggmobile

Marx:-and how old are you? And why are you so fat? And why-

Eggman: Will you just shut up!?

[illegible]

Eggman: You pest!

Just then, tangle's tail wraps around the eggmobile, and starts pulling down

Marx: looks like you're gonna lasso to your next loss!

Eggman: shut up!

Marx: As I said, nope!

Eggman: I don't have time for this!

He presses a button on his eggmobile, sending a sleeping gas towards tangle. Marx frantically rushes in front, and absorbs the gas. He lands on the ground as if the gas had paralyzed him. Just then, magolor and whisper rush in

Magolor: marx! Did you absorb sleeping gas again!?

Marx: yeah, and it never gets easier...

Tangle: uh, you don't sound as enthusiastic.

Magolor: unlike most life, marx can absorb any form of sleeping formula, paralyzing him, i don't understand why he does that though.

Whisper, quietly: we need to get you to a doc-

Marx: I'm a god! I don't need a stupid doctor!

The other three look in concern

Marx: It's just, (sighs), let's just say I don't have the best experience with doctors.

Magolor: you guys go on ahead, i need to have a talk with my friend

Both nod, and walk off, and magolor sits closer to marx

Magolor: you know, my story didn't start so well either.

Marx: what?

Magolor: yeah, crazy. I never knew my parents, and yet, I feel like they cheer me on every step of the way. It was just me stuck in halacandra's mechanical wasteland and occasionally going into the lava lands

Marx: you weren't born as a freakshow because of a personality trait.

Magolor: sure, but you didn't have to endure the pain of hiding from robots and other monstrous entities

Marx: I guess you're right...but you never were sent into a giant clockwork looking machine

Magolor: marx, do i have to remind you of the story i went through after i lost, and having to go through the darkness of my past?

Marx:...i guess not

Magolor: You know what, I've told you my story, so you should tell me yours!

Marx: (sighs), fine, i will

## Issue 12

Kirby and co land on topia, and they are constantly amazed at the kind of place you'd only see in the movies that the beast pack had found.

Susie: Welcome my friends, to topia!

Taranza: Wow, this is crazy!

Kirby's eyes twinkle in excitement

Fransisca: I suppose we could tour for a while?

Susie: Of course! Until the thing comes again, feel free to look around!

Meanwhile

Ribbon and elfilin are hiding under a hollow rock

Ribbon: what was that!?

Elfilin: I don't know, all I could see of it were those pure red eyes!

Suddenly, the rock is lifted up, but to their surprise, its daroach

Daroach: Now, what are you two doing under here?

Both start spouting on about the red eyed menace

Daroach: Strangely enough, I did see a red eyed robot on the way here, he was not as much of a pushover as the beam guy, he fought with precision and power.

Elfilin: Well, is he gone?

Daroach: Actually, I was chasing him, but he was too fast for even me, so I decided to recollect what happened here.

Suddenly, a mechanical figure lands behind daroach, and everyone looks at it to see a metallic blue hedgehog

Daroach: so, you want a round two robo?

The robot pushes past him, and tries to grab elfilin, but she flies out of the way just in time

Elfilin: ah! Don't touch me!

The robot flies up, but daroach hits him down in time

Daroach: looks like you want to play dirty, But i'm not weak to prevent it. You two, run

Both flea as fast as they can, and daroach gets his wand out

Daroach: get ready for some magic!

The robot tenses up, and gets ready to attack

Meanwhile

Addeline, kirby, and X-17 are looking around a paint convention

Addeline: these are so amazing! So much art, so many art styles, so many-

Kirby tugs on his skirt, and points to a cloaked figure, trying to hide from anybody around him

X-17: height, similar to kirby, 98.383% less cheerful posture

Kirby walks up to the cloaked figure, and tugs on the cloak, and the figure shoos him off, but that makes Kirby curious. He floats to the other side of him to see his face, but all he can see is a pair of half covered green eyes

Addeline: Kirby, what are you doing?

Kirby gives another look around the figure but is pushed out of the way

X-17: hostility rate, 2.462%, conclusion, not dark matter, just cloaked

Kirby gives a confused look

Addeline: kirby didn't think he was dark matter, he just likes to see actual faces

X-17: [memory updated]

Meanwhile

Taranza, francisca, and gooey are in the mall, of course, neither of the two average brained ones know how to spark casual conversation

Gooey: ooh, food

They look over at the food court, and gooey is already rolling over

Taranza, trying to act natural: boy, I sure am thirsty!

Francisca: what? Don't you mean-

Taranza: hungry! I meant hungry!

Francisca: okay.

While the two try to actually have a normal conversation, gooey is on one of the counters, eating the rice

Worker: hey! You gonna pay for that?

Gooey: What's paying?

Before things can escalate, susie rushes in, and picks gooey up

Susie: Sorry about that! Gooey isn't from here.

Worker: (sighs), whatever, can't argue with the person who saved us all  
Susie turns around, and sits with taranza and fransisca, who still were as silent as a rock

Susie: You guys don't understand how to start up a nice chit chat, do you?

Both taranza and fransisca: what!? Nonono! Okay, maybe...  
Susie gives them both a "you just said the same thing" face, and both blush

Susie: Okay, so you guys definitely need some social time. I understand you taranza, experiencing your loved sectionia's death, but what about you fransisca?

Fransisca: i...don't really go out much...that's berge and zan's thing

Susie: So flamberge and zan partizan normally socialize, and you keep a comfort zone?

Fransisca: yeah...  
Susie claps her hands together

Susie: Well then, let's get some social exercises!

Both: wait, wha-  
Susie grabs fransisca, taranza, and gooey (so he doesn't eat everything in the food court), and rushes off

Meanwhile  
Dedede is watching one of the fighting matches

Dedede: go people i don't even know!  
Suddenly, a giant crack opens in the arena, and a bunch of fiery root like tentacles sprout from it  
Dedede: welp, i think i found the problem  
Everyone fleas, as the creature reveals itself as a giant fire creature  
Dedede: yep, this is one hundo percent the problem

Creature: foolish being... i am the destroyer of planetary life force

Dedede: yah, i don't care as long as i aint possessed by dark matter for the millionth time  
He pulls out his hammer, and the creature screeches with its blazing mouth opening

Meanwhile  
Kirby is still looking at the cloaked figure, until he hears a screech, but when kirby turns back, the figure is gone

Addeline: huh?  
Kirby tilts his head in total curiosity

Marx and magolor 3

Marx: It all started when I was born

Magolor: Yeah, I know.

Marx: let me finish

Magolor: oh, right

Marx: Anyways, when I was born, I wasn't like my brethren, I was a lot more energetic. But my species were built to be the simpletons, the low lives, the...you get the point.

Years ago

Marx, flashback: come on guys, let's play!

Noddy: too tired...

Marx: fine! I'll make other friends! And they will actually play!

Marx, narration: as you can tell, i didn't get along with my family

Flashback marx rushes across the field, looking for friends, but is way too slow, and his feet hurt

Marx: ow, my feet, i need a faster and comfier way

Suddenly, a waddle dee with a jester hat, boots, and a bouncy ball is shot out dedede window

Dedede: You call yourself a jester!? Get out!

Magolor, talking to modern day marx: right, this was before dedede was a chill dude

Marx: yup, anyways...

Flashback marx looks at the dee run away, then looks over at the jester outfit

Marx: Hmm, maybe if I look cool, and remove this stupid hat, I can make friends!

Marx, narration: it did not go so well...i was mistreated

Flashback marx is being harassed by a bunch of waddle dees by the fountain of dreams

Marx: Get off me!

Waddle dee: no way jester boy!

The group starts taunting him, which gets him mad

Marx: shut up...

Waddle dee: what? Sorry, can't hear you over your lame face!  
All of the waddle dees start laughing

Marx: I said SHUT UP!  
Suddenly, a shadowy being comes out of the dream rod

Waddle dee: n-n-nightmare! Run!  
All of the waddle dees run away, leaving marx confused

Marx: huh?

Nightmare: your negative thoughts are delicious...  
Marx turns around, and is completely unfazed

Marx: uhhh, hey?

Nightmare: you aren't scared of me? That's new everyone calls me a monster, hence the name, nightmare

Marx: Hey, I'm also being mistreated!

Nightmare: yes, how about this? You help set me free, and I help you get a way back at them?  
Marx doesn't even think about it, and extends his foot

Marx: you have yourself a deal

Marx, narration: so, I helped nightmare, then dedede showed up, destroyed the dream rod, and Kirby stopped nightmare. But instead of dying, he had other plans  
Flashback marx sadly sits down

Nightmare, in marx's mind: don't look so sad, i know the perfect way to world domination

Marx: world domination, yeah, i like that!

Nightmare: all you have to do is get Kirby to summon nova, and steal the wish!

Marx: That's a DEVIOUS idea nightmare!

Later

Marx rushes up to kirby, who is looking at the sun and moon fight (which marx had tricked them into)

Marx: Kirby, you better do something! popstar need your help!  
Kirby nods, and runs off, and marx just grins

Marx: he sucker fell for it, how idiotic! Hahaha!

Marx, narration: I followed behind Kirby every step of the way, making sure he doesn't see me. Once at nova, i pushed Kirby over, and wished to become a god. Of course, I got chunked into nova, blew it up, absorbed its power, became stronger, only to be beaten again. Of course, that's when my life took its first turn

Flashback marx lands on the ground by kirby, and kirby helps him up

Marx: what the? Why are you helping me!?

Kirby just gives a warm smile

Marx: I just tried to kill you! I tried to take over popstar! And yet you forgive me!? Where's the logic in that!?

Kirby gives marx a hug (or at least something that resembles one, because kirby has nubs), which makes marx put his guard down for a second, but he pushes back

Marx: i...i need to go

He flies back to the fountain of dreams

Nightmare: that pathetic pink pest! Always saving the day!

For once, marx doesn't like what's coming out of nightmares mouth, so he just looks off into the sunset, when suddenly, a giant ship lands

End of flashback

Marx: then, i met you, i told you about how I tricked kirby, and we've been best buds since.

He looks at magolor, who is tearing up

Marx: mags, pease, wai-

Magolor gives marx a big hug, which makes marx feel warm inside

Marx: you know what? I can't let some stupid sleeping gas take me down! Lets punch that baldy in the face!

Magolor: good to see you as your normal self again marx!

Marx: thanks mags!

Just then, both hear a sneeze, and turn to see tangle and whisper (the earlier one doing the same sob as magolor) watching from behind a tree

Magolor: really?

Whisper, quietly: tangles idea

Tangle, sobbing: so beautiful

Marx: nevermind that, let's take that bald sucka, and make him wish he never messed with the best jester of all time!

He flies off, and everyone follows (on ground)

Issue 13

Dedede is dodging the fiery monsters attacks

Dedede: woah! What are you trying to do, clobber kirby?

Creature: your petty insults will not scare me

Just then, one if its fiery tentacles sprout from the ground, and grabs dedede

Dedede: it's getting a little hot

Just as things seem to be taking a bad turn, a blur of red hits into the fiery creature

Creature: you may have stopped me this time, but you can't hold me forever

Dedede is freed, and lands face first onto the ground

Dedede: Wait, is that...

It point over to the blur landing, showing a striking resemblance to meta knight, but red and different mask, weapon, armor, and color

Dedede: another coincidental meta knight look alike!? How many of you are there that just happen to look like him!?

The meta knight look alike opens his wings (which were seemingly mechanical wings that replaced his normal ones), and flies off

Dedede: can someone explain!?

Meanwhile

Daroach and the robot hedgehog are fighting, daroach throwing magic, and the robot retaliating with energy and quick attacks

Daroach: I do have to admit, you're quite fast, but let's see how you handle this!

He throws a smoke bomb, and hides in the fog, but to his surprise, the robot instantly finds him, and pins him on the nearest wall

Daroach: clever one indeed!

The robot opens his claw, readying his next attack, when elfilin suddenly headbutts the robot away at full force, sending it flying

Elfilin: ow, that hurt

Daroach: that's quite impressive

Ribbon: what was that!? It was so awesome!

Elfilin: I'll explain later, let's just run!

Ribbon: oh, right!

Daroach picks up the two, and rushes off

Meanwhile

Kirby, addeline, and X-17 run to the place of the screams, just to see dedede coming out of an artificial coliseum, cape burnt

Addeline: what happened in there!?

Dedede: well, some fiery octopus looking thing came out of the ground, i fought it, but then the 3rd coincidental meta knight look alike came in, and stopped him

Addeline: wait, wasn't the morpho knight one the third on?

Dedede: no, dark meta knight is dark mind mirroring himself as meta knight, but this one was red, had white mask and armor like that aeon hero dude, or as meta knight calls him, galacta knight, but different patterns, and had a mace. I didn't see the front of him

X-17: fiery octopus creature, /searching for results\

Meanwhile

Susie sits fransisca and taranza down at the park

Susie: socialization practice, start! Try and have a casual conversation

Taranza: uhhhhhhhhhhhhhhh...

Fransisca: I don't know, this is stressful...

Susie: Okay, so I need to take a different approach at this, try and look for something out here to talk about, like the trees or fountain!

Both look around, but are both doing the thing when they nearly pick something, but don't

Susie: Is it that hard to do this? Gosh, they're both basically the same person! Wait, that's it!

Both fransisca and taranza: what's it?

Susie: I'm gonna have you two date each other!

Both of their pupils shrink

Fransisca: But I'm not ready to date!

Taranza: And I don't want to hurt sectionia's feelings!

Susie: You two are in dire need of social time, so this is the best bet!

Fransisca: but what if we don't-

Susie grabs their hands again, and runs off (with gooey being held by a tight leash)

Meanwhile

Bandanna dee and meta knight stand back to back, out of breath, and there are no more reflects left

Bandana dee: that was terrifying!

Meta knight: and good unexpected training

Dandana dee: huh?

Meta knight: you held your ground, and focused on the battle. Not to mention you were not running in circles half the battle

Bandanna dee: yeah, unlike another battle

It shows a background of bandana dee running in circles while dedede, meta knight, and kirby fight fatty puffer

Meta knight: come back tomorrow, and we shall continue training

Bandana dee: okay sir meta knight!

Meta knight: please, call me mentor, i am training you after all

Bandana dee: sure thing mentor!

Meta knight: and one more thing, remember to keep focus on the battle, no matter what

Bandana dee: you got it!

And like that, both part ways

Meanwhile

Kirby and crew are eating lunch

Dedede: man, this food tastes great! I need susie to give me the recipe for this stuff!

Addeline: good luck with that, she isn't really the type to give things away for free

X-17: i can scan the food, and make the exact recipe

Dedede: heck yeah! Can you give him permission kirby? We can both have more of this amazing food!

Kirby nods, and lets out a poyo

X-17: affirmative, scanning food

Marx and magolor 4 (finale)

The quartet or marx, magolor, whisper, and tangle look at a giant eggman base

Marx: dude, if i knew he loved his face this much, i would have come here first!

Tangle: trust me, this is only the surface of his self centeredness

Magolor: Now then, me and marx will find the scientist, and you guys find the emerald!

Whisper, quietly: right

Whisper and tangle enter through the vents, while marx and magolor loudly bust open the door

Marx: Let's get chaotic!

Magolor: should have seen that one coming

the two rush through the base, destroying a lot of badniks, one tries to sneak up on marx, but magolor impales it with a spike

Marx: couldn't have a better mags!

Just then, eggman appears on the screen

Eggman, on speaker: why are you here again!?

Marx: Well, I'm just a circular little jester who loves fun and chaos!

Eggman: Well don't mess with me you rodent!

Magolor: He isn't an animal, neither am i, you think a half god jester and a guy who is quarter related to the last living ancient are animals?

Marx: your quarter related to hyness?

Magolor: yeah, he just told me when we were visiting that one time

Marx: neat! Anyways!

Magolor steps back, and marx turns to the screen

Eggman: What do you think you're doing?

Marx fires a laser, melting through the screen

Marx: that! Now all we have to do is find the control room!

Magolor: let's split up to find it, we can cover more ground

And like that, both take off in different directions to find the control room

Marx: where could this control thingy be?

He quickly flies through every corridor on his side, but finds nothing

Marx: maybe i should check over on mags' side

He flies over to the side magolor was on, but does not see him anywhere

Marx: dang, he would have found it if it was on hi side by now

Just then, another screen comes on, and eggman's face appears

Eggman, on speaker: I see you're looking for your little friend!

Marx: yeah, you know where he is?

Eggman: Oh yes, he's right here!

He moves over to show magolor, tangle, and whisper all tied up

Eggman: if you want your little friends back, come and get it!

The screen turns off, and marx instantly dashes off, thinking it's gonna be easy.

Marx: What's he gonna do, make me choose between mags and a piece of cake? Make me beat something in a time limit? I could do both at the same time blindfolded!

Marx finds the control room, and opens the door to see the doctor standing atop a platform with mags and the others tied up beside him

Eggman: ohohoho! You have surprised me, jester! But from my notices and observations, you like power, am I correct?

Marx: Yeah, so?

Eggman: Well, I have two options, which will go into my possession, this chaos emerald (spins the chaos emerald around), or your friends?

Marx looks in stress, for the first time, he doesn't have a straight answer, and that's when his voice comes back

Nightmare, in marx's headL come on, you know the right answer, get the emerald, and leave those puny beings to their demise. Think about it, all the power, all the fame, all the-

Marx: You know what nightmare? No. I'm done listening to your talk, I'm the one who makes my own choices!

Nightmare: wait, but if it weren't for me, you would-

Marx: be a dweeb? I don't care if your the reason i have friends, you did it for your own selfish purposes, so i'm cutting you off, once and for all

With incredible speeds, marx dashes to grab his friends and untie them. Once untied, magolor goes in for a huge hug

Magolor: I knew you'd make the right choice!

Marx: yeah, anyways! Where's the highest up point in this base egg?

Eggman: Are you stupid!? The signal transmitter!

Magolor: are you thinking what I'm thinking?

Marx: yep! You three might want to leave for this while me and mags have some fun

Eggman: No way! I'll destroy you before you can make it up there!

Eggman hops into a seat, and a pech forms around him

Marx: ready set go!

The duo rush off, whisper and tangle get out as they were told, and eggman gives chase

Eggman: Get over here!

Marx: how about no

Magolor throws some gem apples, blocking eggman's path. Just then, they reach the top

Marx: okay use some of that magic mags!

Magolor puts his hands in the air, and something starts materializing. Suddenly, eggman jumps out

Eggman: you will not go any farther!

Magolor: done!

Just then, nova materializes, and marx flies up

Marx: hey nova! I have a wish for ya to grant! Send a precision airstrike at this eggheads base!

Nova: okay. 3. 2. 1. Blastoff.

Eggman looks in terror at the giant beam of light coming down, so he flies off. Marx and magolor just move slightly over, and the precision airstrike destroys the entire thing

Later

Tangle: see you soon!

Marx and magolor hop on the lor starcutter

Magolor: don't worry, we'll come back one day!

Whisper, quietly: be careful

Marx: don't worry! I'm anything BUT careful!

Issue 14

Susie puts taranza and fransisca in a well decorated room, and seats them at the single real table

Susie: Okay, dating start!

Taranza: Wait, what are we supposed to do?

Susie: Oops, silly me! I need to give you some help! The best thing to begin with is a how was your day question, then slowly pace to other topics!

Fransisca: oh, uh,h-how w-was y-your day?

Taranza: um, it was...um...good?

Susie: This might take a while...

As susie leaves to grab popcorn, the situation gets more awkward

Fransisca: umm...

Taranza: uhhhhhhhhhhh...you like magic?

Fransisca: oh, uh, yeah...why?

Taranza starts to feel like his hand is getting wet, so he looks down and sees gooey licking him

Taranza: AH!

He jumps, and falls onto the table, breaking it

Fransisca: oh gosh, are you okay!?

Taranza: I'm fine...okay, maybe not

Just then, susie comes back with popcorn

Susie: Did gooey mess something up?

Taranza: yeah...

Just then, fransisca stands up

Fransisca: i...i need to go

And like that, she flies off

Taranza: I also need to go, see ya.

Meanwhile

Elfilin, ribbon, and daroach hide in kirby's house

Ribbon: care to explain what you did back there?

Elfilin: let's just say fecto elfilis is alive inside of my mind, and is helping me be stronger to help you guys

ribbon: like, the giant god fecto elfilis? The one Kirby battled?

Elfilin: yes! That one!

Ribbon: can you speak with him?

Elfilis, from elfilin's mind: indeed he can

Ribbon: ah!

Elfilin: Wait, when could you do that!? In the talking to others from my mind way

Elfilis: i always could, i just didn't

Daroach: strange indeed

Meanwhile

Kirby and co walk through the town, looking for susie, when they suddenly see fransisca

Dedede: Hey ice girl! Why are you so nervous?

Fransisca: Can I speak with Addeline in private please?

Addeline: ummmm, sure!

The two walk into an alleyway

Addeline: whats up?

Fransisca: long story, me and taranza couldn't interact without being awkward, then susie showed up, and tried to have us get a little more sociable, then we still couldn't, and she just had me and taranza date, and i don't know why, but it seems he isnt letting himself be sociable, but he's nice and caring all the time!

She stops, and catches her breath

Addeline: something tells me its to do with sectonia

Fransisca: I've heard that name a few times before, who is she?

Addeline: from those snippets from taranza and dark meta knight's monologuing during the jamba heart stuff, she was taranza's love, then he got sectionia a mirror that was called the dimension mirror, she was so obsessed looking into it, she changed entirely

Fransisca: That sounds terrible!

Addeline: yeah, i guess he's afraid of it happening again, so i'd say if you want to try socializing, try it on your own time!

Fransisca: I guess that works...

Meanwhile

The lor starcutter lands, and marx and magolor step out

Marx: ah, fresh popstar air! Good to be home, right mags?

Magolor: couldn't have said it better myself! But, is that addeline's canvas?  
The two look at an empty canvas with paint brushes, on top of a stump

Marx: oooh! I want to paint!

Magolor: marx, wait! It's not okay to-

Marx: done! Let's go!

The two go off (magolor being a little mad at marx touching other people's property), and the camera pans over to the canvas to show a bad picture of nova shooting a laser at a base, while him, magolor, a lemur, and a wolf stand to the side, but a fat bald dude runs away in it

Meanwhile

Bandana dee sits down by a tree, and lets out an exasperated sigh

Bandana dee: that training took the wind out of me!

Just as he gets ready to rest, a metallic blue hedgehog robot rushes by, then moves back to scan the waddle dee. Bandana dee gets startled, and gets up. This makes the robot think he wants to fight, so he rushes up, grabs him, and throws him to the ground

Bandana dee: ow! I have to run!

He rushes away at max speed, but the robot gets in front of him with ease

Bandana dee: uh oh...

The robot grabs him, takes a look at his helpless face, then bursts off with him

Bandana dee:HEEEEELLLLLLLLP MEEEEEEEEEE!

Just then, marx and magolor come by

Magolor: weird, i thought i heard a scream

Issue 15

Bandana dee wakes up, tied up on a chair

Bandana dee: AH! What the!?

Suddenly, the robot walks out from the shadows, and a screen turns on, showing a mustachioed man

Eggman: ohohoho! I am the glorious doctor eggman! And I suppose you've already met my greatest creation, metal sonic?

Bandana dee looks over at the robot, which he now knows is metal sonic

Bandana dee: y-y-yes?

Eggman: good! But I have a question about that cap you are wearing, where might you have gotten it?

Bandana dee: oh, my friend named addeline, we first joined Kirby on the same adventure, so she gave me her special bandana to me so i stand out.

Eggman: that's all i needed, metal sonic, throw him out

Metal sonic grabs bandana dee, and speeds him far away from the secret base, then speeds back away

Meanwhile

Team kirby are walking around the park, when X-17 suddenly beeps

X-17: data successfully matched

Dedede: Wait, you got the food recipe?

X-17: incorrect. I have found what the enemy is, phage

Kirby tilts his head in curiosity

Fransisca: I think I've heard about that...isnt it an adapting creature?

X-17: yes, it adapts to anything, and it seems it's now able to use elements

Addeline: that sounds scary!

Dedede: whatever this fire octopus is, we can beat him!

???: i wouldn't be so sure about that

The team look over to see the green eyed cloaked individual, slightly uncovered

???: don't ask any questions, i'll tell you everything

Meanwhile

Taranza sits down, and looks up at the sun

Taranza: I don't need to get close to fransisca, I'm fine with my life now.

He looks at a tree, and pulls it down with his webs in rage

Taranza: IT'S ALL MY FAULT! IT'S ALL MY FAULT FOR SECTONIA'S DEATH!

Just then, susie comes in with a cup of coffee

Susie: Why are you in my stargazing room?

Taranza pauses, and takes a look around to see a telescope, and that the tree was plastic

Taranza: oh, i thought i was outside

Susie: (Sighs), since you're here, wanna check out another planet?

Taranza: yeah, i need to calm myself down

He moves over to the telescope, and looks in. once he can see through, there is a yellow fox with two tails building a rocket

Taranza: what the-

Susie quickly moves the telescope

Susie, nervously: ha ha, don't pay attention to that!

Taranza: okayyyyyyy...

He keeps looking, and sees a young bee with a helmet and a vest plays around with some other kids

Taranza: That kid looks happy.

Susie: I've used this to see other planets, but this one intrigued me. There's a speedy blue hedgehog named sonic, he protects this place, but isn't god-like in the slightest! In fact, he just is quite speedy!

Taranza looks over to see a blue hedgehog eating what seems to be a hot dog covered in chili sauce

Taranza: That guy?

Susie: yep!

Taranza looked for only a bit, but already wished he was carefree. After all, under his calm attitude, he is always concerned.

Susie: anyways, i'll let you be

She leaves the room, but taranza keeps looking, until he sees a black hedgehog with red accents in the shadows

Taranza: he looks like he's doing what I do, hiding...i need to fix myself, i can't blame myself

Meanwhile

Meta knight watches bandana dee walk in concerned.

Meta knight: i'm guessing you know your early

Bandana dee: yeah, i kidnapped by this robot named metal sonic, but the person on a screen that called himself eggman let me go after asking about my bandana

Meta knight: anything else?

Bandana dee: yes, metal sonic was way too strong and fast for me, even when i got a head start, he got in front of me and grabbed like it was nothing!

Meta knight: hm, than tomorrow, i we will find the place, and both take down this kidnapper and his master

Bandana dee: wait, am i-!?

Meta knight: no, i'm not having you fight metal sonic as his name is, only his master

Bandana dee sighs in relief

Meanwhile

Daroach, ribbon, and elfilin sneakily make their way to kirby's house

Daroach: Here it is, the final stretch, Kirby's house is up ahead, but there is no place to hide.

Ribbon: right! 3...2...1...go!

Daroach runs with both little ones in his cloak, and enters kirby's house

Elfilin: Okay, what do we do next elfilis?

Elfilis, from elfilin's mind: focus on a part of the forgotten land, and you can make a portal there  
Elfilin focuses, and a portal opens to waddle dee town

Daroach: impressive, maybe i can learn a thing or two about magic from you elfilis!

Elfilis, in elfilin's mind: not the time, lets go

Ribbon: right!

The trio enter the portal, and step onto not so new lands

Elfilin: Okay, what next?

Elfilis: if we want to stop him, you need to tap into my power, so we need to go to lab discovera

Issue 16

Daroach, elfilin, and ribbon enter the top floor of lab discovera

Elfilin: this place still gives me the creeps, it also makes me feel weird now

Daroach: well, if you wanna stop the robot that's trying to get you, we should probably listen to elfilis here

Elfilis, from elfilins mind: if you want to save your friends, stop chit chatting, and get in front of the tube i was in

Ribbon: you've got it fecto elfilis!

Elfilis: i don't go by my full name

The trio get in front of the giant shattered test tube

Elfilis: good, now elfilin, calm your mind, and close your eyes

Elfilin: okay

He breathes in, then closes his eyes. When they open, he sees a glowing light, and it descends towards him. He opens his eyes back up, and feels stronger

Elfilin: Wow, I do feel stronger!

Elfilis: glad i could help

Daroach: you guys go on ahead, i need to look for old treasures around here

Ribbon: ummmm, okayyyy...

Elfilin and ribbon leave the room

Elfilis: i guess you guys should wait until he comes out

Meanwhile

Susie is celebrating around her stargazing room

Susie: sonic just perfectly guessed me, and as a joke! My secret on love watching tails lives on!

Gooley: what's that?

Susie: AH! When did you get in here!?

Gooley: don't know, just found this

Susie: (sighs), well, i need time to myself, so stay out of this room will you?

Gooley: okay, but i just wanted to give you this thingy  
He pulls out a picture from his mouth with his tongue

Susie: Wait, is that?

She looks at it, and it's a family photo of her, Max profit haltmann (better known as president haltmann) before she was sent to another dimension. This makes susie cry, and hug the picture

Gooley: Okay, I need to go now, bye bye!

Gooley leaves, and susie suddenly notices there's something on the back of the picture. She looks at it, and it's a note from before susie had returned and max descended into madness, it read

"Dear Susanna, I hope I can find you soon. I don't know how much longer I can go without my sweet daughter. From max profit haltmann"

Susie, crying: Dad, I'm sorry I came back too late. Not only did it bring you to forget who I even am, but I wish things would have gone differently.

Meanwhile

Fransisca sits down, eating ice cream alone, when taranza shows up

Taranza: Hey, uh, you like magic?

Fransisca: yeah, i already answered that

Taranza: Well watch this!

He makes a web made of energy, then slowly wraps it into the shapes of random things

Fransisca: oh, that's cool, I think...

Taranza: Sorry for...leaving the room earlier, just having some problems, but did I tell you that I'm actually a prince?

Fransisca: Wait, you are?

Taranza: Yeah, it's a long story. You see, i-

Suddenly, a giant stone anchor comes out of the ground, and phage (now a giant pirate ship with legs) climbs out with dark matter drill on top of him

Dark matter drill: aw yeah, EVIL DUO BABY!

Taranza: this idiot AGAIN?

Phage: you small parasites will be crushed!

Fransisca: We need to stop them!

Taranza: You mean we need to stop the giant pirate ship? The drill guy isn't much of a problem, in fact, hes trash

Dark matter drill: HEY!

Meanwhile

Kirby, dedede, and X-17 follow the cloaked figure into an alley

Dedede: Okay, spill the beans, who the heck are you!?

???: if you insist

The figure throws off the cloak, and reveal the red person with white armor, a mace, and mechanical wings

Hetra knight: i am hetra knight, one of the four legendary heroes

Dedede: Wait, isn't that the thing meta knight told us the aeon hero dude is? And on the same note, why do you look like meta knight?

Hetra knight: first of all, the aeon hero is what the ancients called galacta knight, and second, where do you think he got that armor?

Dedede: hmmmmmmmmmm, wait, did he find it?

Hetra knight: most likely, but back to the problem at hand, i know how to beat phage, you need someone who can infinitely adapt, and i think i know one of you who can

All of them look at kirby, and he gives a nod

Hetra knight: kirby needs to inhale at least 10 things with abilities at once to use hypernova

Dedede: hey, there's a fruit that can do that, and we have a friend here who has them

Suddenly, they hear a roar

Dedede: oh, looks like we need to go!

Hetra knight: agreed.

Meanwhile

Meta knight: are you ready for this?

Bandana dee: yeah, i've got to show that i'm not just a fancy dee, and this is the way!

Suddenly, they both hear a scream from sailor waddle dee meta knight pulls out his sword

Bandana dee: sailor!

Issue 17

Addeline is looking at a picture of her and eggman (with eggman crossed out) when she was younger.

Addeline: stupid eggman, i don't care if he's family, he's only a butt whos obsessed with himself  
She turns on a music player she stole from eggman before she left, and rests. Suddenly, a strange looking holograph girl comes out of the music player without addeline noticing, and looks down at her

???: hello, are you addeline?

Addeline opens her eyes to see the holograph girl looking at her. She jumps up

Addeline: uh, y-yeah...

Sage: i am sage, your cousin

Addeline: cousin? But I'm human...

Sage: You see, I am made with cyber energy, and eggman tech. What I mean is I am Eggman's daughter.

Addeline: what? That guy only cares for himself!

Sage: That's what he thought until I was created. But I am here to meet my cousin.

Addeline: Well I'm not gonna talk, I bet you're just a robot that is acting like this to get info!

Sage: understood, if you ever change your mind, just ask through the music player  
And like that, sage undigitizes leaving addeline alone

Meanwhile

Elfilin and ribbon wait, until daroach opens a door with a black hedgehog right beside him

Elfilin: Who is that!?

Daroach: elfilin, ribbon, elfilis, meet the other ultimate life form, shadow that hedgehog

Shadow: hmph.

Elfilin: wow! You look so cool!

Elfilis, from elfilin's mind: another ultimate life form? If i ever regain physical form, i would like to challenge you for the true title

Elfilin: oh, thats elfilis, he says the scientists called the ultimate life form, or species born of chaos

Daroach: you see, elfilin is half of elfilis, they killed elfilis, he came back via another dimension, was absorbed by the judgement being, altered the arena to return and beat kirby, but is beaten again, and elfilin absorbed some of him so he doesn't return

Ribbon: Wait, are you gonna help us beat the robot? He's blue, looks like a hedgehog, and has glowing eyes

Shadow: that's metal sonic, he is a metallic copy of another hedgehog that gets on my nerves.

Daroach: anyways, lets go

Elfilis: right, think of what this metal sonic person looks like, and a portal will appear

Meanwhile

Bandana dee and meta knight get on top of the halberd to see metal sonic holding sailor waddle dee

Sailor waddle dee: bandana! Sir meta knight! Help me!

Bandana dee: h-hey! L-let her go!

Metal sonic turns over, and death glares the poor speared waddle dee

Bandana: AH!

Meta knight: we will not ask again, put sailor dee down

Metal sonic throws sailor dee to the ground, and charges at meta knight. He blocks it, and readies up

Bandana dee: sailor!

Meta knight: you go on ahead, i'll take care of this menace. Bring sailor with you, i don't want her getting hurt

Bandana dee picks sailor dee up, and runs off. Metal sonic tries to go for them, but meta knight blocks him

Meta knight: no, i'm your fight, and i will make sure you don't get anyone other than me into it  
Bandana dee runs off, searching for the base

Bandana dee: wait, stary!

Suddenly, the warp star quickly picks him and sailor dee up, and flies them off

Bandana dee: we need to find the base of this eggman guy stary! So let's go!

Meanwhile

Kirby, dedede, X-17 run up to the fight between taranza and fransisca vs phage and dark matter drill from one way, and susie and addeline come from another

Dark matter drill: oh look! More idiots! Get 'em dark matters!

Suddenly, a bunch of dark matters appear to hold back everyone, but hetra knight smashes straight through them

Hetra knight: phage! Prepare to die!

Phage: one of four legendary heroes, a perfect actual test of my power

Suddenly, phage makes a screeching noise, and the fire octopus, an electric spidery monster, a watery scorpion-ish monster, and a icy twisted up tank creature all burst out of the ground

Earth phage: you see, i am earth phage, true phage is the original. When susie had stopped our time of sucking life out of this planet, true phage had already made us through division, we are earth phage, flare phage, frost phage, sea phage, and shock phage

Flare phage: dedede, you are my target, our battle was interrupted

Hetra knight: kirby, we need to get to the center of the planet to fight the true phage

Taranza: fransisca, we should take dark matter drill and frost phage

Fransisca: oh, r-right!

Susie: that means me and addeline have the earth one, while the sea and shock ones will be taken care by my robots!

Suddenly, a thunder pillar and fire pillar come down, and flamberge and zan partizane appear

Flamberge: Hey sis! Don't think we aren't ready for a little battle when we need to be!

Fransisca: good to see you guys came

Zan partizane: we're sisters, of course we would come to be with you after our talk with hyness, he just was asking who accidentally blew up his favorite vase anyways

Flamberge: I'll take zappy, you take wet willy!

Zan partizane: mage sisters, charge!

Meanwhile, kirby and hetra knight rush to the hole that they made, and jump in

Hetra knight: you truly are what they call determined, and i admire it

Kirby gives a nod, and points down his feet

Hetra knight: right, lets go

Issue 18

Stary (A.K.A. the warp star) lands bandana dee and the unconscious sailor dee straight in front of the base of the doctor

Bandana dee: Alright, here goes nothing!

Meanwhile

Dedede is in a harsh fight with flare phage

Flarre phage: you are nothing but a cinder in my path!

Dedede: yeah, yeah, you're a fiery octopussy. You think I'm scared? i would be...over four years ago

Suddenly, a fiery tentacle sprouts from the ground, but dedede hammers it away just in time

Dedede: I'm not falling for the same trick twice!

Flare phage: you may be stronger than most, but you'll be turned to ash like the rest

Dedede: how about instead of the average evil villain monologuing talk, you actually try to win?

Flare phage gets so ticked off, he uses all of his tentacles to wrap dedede up

Flare phage: SHUT! UP! AND! DIE!

He lets go, and dedede is severely burnt

Dedede: Okay, now that was actually good...

Flare phage throws his tentacles at dedede, who can now only narrowly dodge because of his burns

Dedede: ow, everything burns...

Flare phage: DIE! DIE! DIE! I'd like to see you mask this loss!

Just then, dedede remembers

Dedede: wait, mask...oh yeah! Masked time!

He pulls out a iron mask, and puts up his hammer, which transforms from a wood hammer to a mechanized hammer

Flare phage: pathetic, a new attire won't save you

Dedede: yeah, but some superweapons can!

Suddenly, rockets sprout out of the front, and hit flare phage with immense force

Flare phage: what!? No!

Dedede grabs flare phage by a tentacle, and smashes him against the ground

Dedede: eyhehehe! Wanna call me weak again?

Flare phage: i...am...stronger tha-

Dedede throws the colossal fire squid into the air, and uses his hammer to swing it into the stratosphere

Dedede: you just got DEDEDEestroyed!

Over with flamberge and shock phage, things are going a lot smoother

Flamberge: ha! Is that the best you've got? Hyness can snore better than you can attack!

Shock phage hits with its leg, but flamberge slices through it. It loses balance, so flamberge slices through it

Flamberge, and BOOM goes the blazing dynamite!

Over with zan partizne, she also isn't having much trouble, since sea phage can't touch her

Zan partizane: please, try to at least fight

This agitates sea phage, so it lets out a massive blast of water, but zan swings it back electrified with her spear, which instantly kills sea phage

Zan partizane: and here i thought you were adapters, not unadapters

Meanwhile, planet core

Hetra knight, X-17, and kirby rush through the crumbling caves and dodge debris

X-17: closest route to true phage is left

Hetra knight: let's listen to the gizoid, left!

Kirby tilts his head

X-17: giz-iod?

Meanwhile

Bandana dee rushes through the eggman base while stary holds onto sailor dee

Bandana dee: come out you coward!

Suddenly, the speakers turn on

Eggman, on speaker: coward? From the data I've collected so far, you're the biggest coward I've ever seen! So you shouldnt be speaking!

Bandana dee: well, i'm not gonna turn back now!

Eggman: Oh sure, and you're gonna run in circles when you see a screen?

Bandana dee: grrr, shut it! I'll stop you!

Suddenly, a upgraded version of the mech kirby faced before lands in front of him

Eggman: Then let's test that out!

Bandana dee is forced into dodging while eggman's attacks with missiles and fire

Eggman: As expected, you can't even fight back!

Just then, sailor dee wakes up

Sailor dee: owww...bandana?

Eggman decides to do the best idea, and grab sailor dee

Eggman: What will you do now? I have your precious friend, and I can destroy her!

The mechs arm turns into a cannon

Sailor dee: bandana, help!

Bandana dee: sailor!

And like that, a fire lights under bandana dee's soul, both look at him, while stary picks him up

Bandana: you will not hurt her!

Stary bring bandana dee closer, and he jabs his spear so many times in a second, the cannon is unrecognizable

Eggman:...oh no.

Bandana dee starts spinning his spear, and it starts charging energy

Bandana dee: how about a new attack? SUPER SPEAR RETALIATION!

He jabs at ultra high speeds, until the mech is destroyed, and eggman is yelling "NOOOO!" from earth. Sailor dee runs up to bandana dee

Sailor dee: bandana! You saved me!

Just then, bandana dee snaps back to reality

Bandana: wait, i di-

Suddenly, sailor dee gives bandana dee a kiss on the cheek (don't ask how), and he instantly freezes up and blushes

Sailor: okay than, let's get back

Bandana, still frozen up and blushing: r-right!

Stary picks both of them up, and shoots off

Meanwhile

Hetra knight, kirby, and X-17 have taken a break

X-17: hetra, what is a giz-oid?

issue 19

Addeline and susie (in her mech) are fighting earth phage

Susie: Get off my planet!

Earth phage: us phages inhabited the planet far before you were born

Addeline rushes in to attack, but her paintbrush does absolutely nothing

Addeline: oh man, what do i do? I don't have cool powers, strong weapons, and I don't have anything to paint on to make something to fight!

Suddenly, Susie and her mech are sent flying down at high speeds, crashing right beside addeline.

Addeline: susie! Are you okay!?

Susie: ow, everything hurts. you might need to battle without me. Don't worry though, i'm not dying

Addeline: Now what do I do!? I dont have anyone here i can call...except...it's worth a shot  
She pulls out the music player, and turns it on

Earth phage: pathetic, you stand no chance like that

Addeline tries to run away, but one of earth phage's crab like legs pins her shirt to the ground

Earth phage, swinging its anchor: now, prepare to die!

The massive anchor comes down, and Adeline covers her face. She opens her eyes, and she's...fine? She looks up to see sage making a giant barrier between them and the anchor

Sage: i will not allow you to hurt my cousin

Addeline: huh?

Sage uses cyber energy to send the anchor to the ground

Earth phage: what the!? Cyber energy!?

Sage: that is correct, i am sage, and i will not stand for you're attack

Earth phage swings its anchor again, but this time, sage makes it hit the front of earth phage's ship like body. And that makes earth page roar intently as it crumbles into pieces

Addeline: you...actually saved me?

Sage: Of course, you are my only distant relative I can truly meet. Even though father would not approved of me doing this, i'll try to keep this secret

Addeline: oh, uh, yeah! You might want to paint with me sometime?

Sage: it would be a pleasure cousin

Addeline: please, just call me addeline, "cousin" is a bit formal

Sage: okay addeline

Over with fransisca and taranza, dark matter drill is hardly fighting while frost phage attacks

Taranza: Let's see how this does!

He makes a huge web, but when he throws it, it just freezes and shatters on frost phage

Taranza: oh, dangit

Fransisca: Take this!

She charges up, but has to quickly dodge an icy shot from frost phage's cannon

Dark matter drill: yeah! We're crushing them!

Taranza: you're not even helping him!

Dark matter drill: or am i?

Taranza: your not

Dark matter drill: yeah you're right, but i'm still cool!

Taranza: you know what? Electric web!

He throws an electrified web, but its pierced through with a ice spike that grabs onto him, and starts crushing him

Taranza: AHHH!

Fransisca: taranza!

Taranza: it's, too late for you to help, neither of our attacks work

Fransisca: no! I can't let that happen!

She starts to pull on the ice to set him free, but it doesn't work

Taranza: what are you doing? You don't need to save me.

Fransisca: It's just that...it's just...I really like you! You're one of the nicests people I know, and I won't let you go!

Taranza goes silent, and starts shaking as the ice breaks

Taranza: then i won't let you down

Suddenly, he shatters through the ice, and dark matter drill just stares, then quickly drills away

Dark matter drill:.....nopenopenopenopenopenopenopenopenopenopenopenopenopenopenopenope  
Just then, taranza makes a giant web made of pure energy

Taranza: time for you to go into your cocoon!

He throws it, and it instantly wraps around frost phage, then fransisca, uses her ice wand to freeze it, then shatter it

Fransisca: serves you right!

Meanwhile

Meta knight and metal sonic attack and dodge each others attacks with ease

Meta knight: your speed and precision is admirable, but a heart, soul, and discipline are the things you truly lack in this fight

Suddenly, a portal opens, and elfilin, ribbon, daroach, and a black hedgehog come through. Metal's focus instantly shifts to elfilin, and he lunges at the cutest life form

Elfilin: lets see if this works

He focuses, and a blast of energy sends the robot doppelganger back. The light settles, and elfilin now looks much stronger and large

Ribbon: elfilin, you look so cool!

Elfilin: oh, thanks! Let's see what I can do though!

Metal once again lunges at elfilin, but elfilin summons the same spear elfilis used, and hits him into a wall

Meta knight: let me guess, fecto elfilis was in your mind?

Elfilis, from elfilin's mind: you'd be indeed correct sir "i have so much will, i can't be mind controlled"

Elfilin: Okay then, let's try this!

A portal opens, and elfilin smacks metal sonic through it. Suddenly, he changes back to normal  
Elfilin : and that takes care of that

Daroach: oh right, meta knight, this is shadow, shadow, this is meta knight

The two only give each other a stare, then look away. Just then, bandana dee and sailor dee come back on stary

Sailor dee: hey sir meta knight!

Now, only one more problem remains...true phage

Issue 20

Billions of years ago

Hetra knight walks over to hyness

Hetra knight: mr hyness, how are your new battle robots going?

Hyness: these gizoids are almost complete, i want to show this to your brother and sister, so can you go get them?

Hetra knight: oh, sure, brother! sister!

Just then, an orange butterfly flies overhead, and transforms into none other than morpho knight, and galacta knight dramatically lands right behind

Morpho knight: dramatic as ever, brother

Hyness: Okay, I present to you...the gizoids! It goes from X-1 to X-17!

He points at a yellow robot who is the only one without a number etched on the side and an up shaped crescent, and the one that says X-17 on the side with a side faced crescent

Hyness: In about one billion years, I will send these to space, and hope somebody finds them and learns about our civilization!

Present day

X-17: what is a giz-oid?

Hetra knight: you were one of 17 robots built for telling about the ancients, but from my knowledge, you're the only one who still is alive. X-1 is unknown. Come on, we're wasting time

Meanwhile

Taranza: so, our job is to get this hypernova berry to kirby down there

Dedede: yeah, i'd say that me, taranza, and susie should go.

Susie: yeah, can't argue with that

Meanwhile

Kirby, hetra, and the now slightly different posed X-17 are back to going through the core of the planet

Hetra knight: we're almost there

Suddenly, the ground cracks beneath them, and makes them fall. Luckily, they can all fly. They land to see a giant monstrosity of random mismatched weapons, parts, and elements

Hetra knight: there it is, phage

Phage lets out a demonic screech, and everyone gets ready to battle

Meanwhile

Taranza, susie, and dedede traverse through the caves

Dedede: man, this place is tedious!

Susie: It's the core of the earth, did you expect a bouncy house?

Dedede: no, it's just harder than i thought  
Suddenly, they hear a faint demonic screech

Taranza: this way!  
They all go left

Meanwhile

Kirby has the ice ability, and is fighting the titan's aquatic tendrils, hetra knight is destroying tendrils left and right, and X-17 (who doesn't have any experience with battle) can only dodge

X-17: i am not equipped to deal with threats

Hetra knight: how about you stop complaining and open your third eye on your head!?

X-17: eye...head?

Suddenly, a tendril swings at X-17, but kirby stops it just in time

X-17: Master, I am supposed to protect you, why are you protecting me?

Kibry just gives a determined not

X-17: affirmative, whether i can fight or not, i need to fight the contaminant

Meanwhile: dedede, susie, and taranza are making the final stretch, when they hear a mechanical groan

Taranza: again?

To the surprise of ABSOLUTELY NOBODY, dark matter drill comes through the walls

Dark matter drill: you know what!? I'm done playing the "Side villain"!

Taranza: yeah? What are you gonna do?

Dark matter drill: oh, you'll see!

Suddenly, a bunch of dark matters rise from the ground, and dark matter drill instantly rushes off laughing

Dedede: guys, run!

All four of them run at full speed, but susie trips and falls. Dedede rushes up to pick her up, and makes a familiar move

Dedede: taranza, catch!

Dedede throws susie over to taranza, and pulls out his mask and hammer

Dedede: you want to take me over? Come and fight me!

Meanwhile

Hetra knight starts to struggle against the onslaught of tendrils, while kirby and X-17 can only dodge

Hetra knight: getting a little problematic here!

Just then, an explosion happens, and taranza and susie fly down

Taranza: quick kirby!

He throws the hypernova berry, and Kirby inhales it. Kirby closes his eyes, as his body starts to glow rainbow

Random text in a cool font: HYPERNOVA!

Hetra knight: the ultimate power of adaptation, hypernova

Taranza: nope, this is not even close to kirby's best power

Phage lets out another screech, and lets out tendrils of every element, but kirby just inhales them all, and spits them back out at it, clearly knocking it back

Susie: Woah, I need to make a note on this!

Phage sends even more tendrils, but kirby inhales them, so phage retaliates with more tendrils before he spits them out, but that leads to kirby sucking up every tendril phage has.

Taranza: here it comes...

The panels shift from Kirby's filled moth, to phage, back and forth, until kirby's gives a determined look, and shoots a giant laser from all the things he's inhaled. Phage lets out one last demonic screech as the screen goes white

Later

Kirby wakes up, as an orange butterfly flies off his face. And dedede has an ice pack in on his arm

Dedede: Morning kirby! We brought you back up, and I actually didn't get possessed by dark matter this time!

Susie: also, i think it's time i bring you guys home, i need to clean this city after all

Kirby gives a nod

Susie: Now then, let's get you home you little pink puff!

Kirby walks onto the ship, the door closes behind them, and it flies off back to popstar

Issue 21

The ship lands on popstar, and kirby, dedede, taranza, X-17, gooey, addeline, and hetra knight walk out

Dedede: good thing the mage sisters can fly, i'm not sure that ship could handle any more weight mr metal for wings

Hetra knight: as it is, they're amputated wings, and you should be talking with your immense size

Dedede: i know im fat, but metal weighs more than any person

Susie: okay, i need to get back and get to clean up my planet  
She closes up the ship, and flies back off

Addeline: you guys can go, i need some time to paint  
And like that, addeline walks off

Dedede: so...dinner at my place?  
kirby's eyes sparkle, and gooey starts drooling

Hetra knight: I might as well.

Taranza: sorry, i have to go to the library to turn in a book

Meanwhile  
Meta knight is in a sparring session with shadow

Elfilin: looks like meta knight finally has a more willing sparring buddy! But he will have to go soon

Ribbon: yeah, it's a shame he has his own life to have

Daroach: Yeah, I also have to go right now. So adios, greatest warrior in the galaxy  
He throws a smoke bomb, and disappears

Elfilin: well, that was weird

Meanwhile  
Addeline walks to where she put her canvas, and sees something drawn on it

Addeline: huh? Is that a picture?  
She walks over, and sees a picture of a crappy picture of marx having a giant cat faced thing shoot at a fat dudes base, with magolor, a lemur, and a wolf nearby

Addeline: Wait, is this a picture of...marx blowing up an eggman base?  
Suddenly, marx falls from a tree

Marx: you know him? I just went to another planet with mags and decided to draw a picture of when i had nova tactical air strike the dudes base

Addeline: Yeah, I know him. He's...my uncle, regrettably

Marx: I don't see a resemblance, did he get all the bad looks and you and your dad got all the good ones?

Addeline blushes at that, even though she knows marx just likes making jokes on observations, and didn't say she's cute

Addeline: you..know what you just said, right?

Marx: nope! Have fun!  
He flies off, and Addeline looks at the picture.

Meanwhile

Taranza lays down on the chair he was on before he was interrupted by dark matter drill, when suddenly, he hears a mechanical groan, again

Taranza: you haven't been scary this entire time!  
Dark matter drill comes out the ground, but he's just disappointed

Dark matter drill: you know, i was gonna attack you, but now i just am offended...anyways!  
Before anything, taranza webs his mouth shut again

Taranza: how did you even get back anyways?  
Dark matter drill just sighs (kind of), and goes back through his hole, mumbling something with the web around his mouth  
Taranza: Yeah, get out.

Meanwhile

Magolor is inspecting the energem

Magolor: this gem has an unstable amount of energy, one thing is for sure, keep this away from everyone

He picks it up, and presses a button on the lor's controls

Magolor: landia, i have something i need you to protect

Just then, a portal opens, and one of the four heads of landia (this one, magolor named simon) comes out

Magolor: here simon, bring this to tiana, fred, and berge

Simon takes the energem, and flies back through the portal

Meanwhile

Shadow is standing in front of a portal, while elfilin, ribbon, and meta knight look at him

Elfilin: Have fun!

Ribbon: safe travels!

Meta knight and shadow only look at each other, and give a nod of approval. And like that, shadow goes through the portal, and elfilin closes it

Elfilin: Man, I miss him already, that was the most entitled meta knight in a battle that wasn't kirby!

Ribbon: yeah, what about you meta knight? Meta knight?  
They look over, and he's gone

Meanwhile

Dedede, kirby, gooey, X-17, hetra knight, and bandana dee are talking at the table

Bandana dee: and then, I used my new move I've been practicing, super spear retaliation!

Dedede: seems like you did a lot!

Bandana dee: what about you?

Dedede: eh, threw a fire octopus into space by the tentacle

Gooey: i can say i saw that  
Kirby is eating, but X-17 is looking at himself.

Hetra knight: anyways, this ancient hero has some work to do, good bye  
And like that, he leaves

Meanwhile

Dark meta knight stands atop a giant tower

Dark meta knight: people of the mirror dimension, whether slaves, drones, or other people, i have an announcement

King d-mind: lets see what it is this time, lord dark meta knight better have something good  
a ball of darkness appears beside dark meta knight, then shifts into more menacing form

Dark meta knight: meet my new partner in darkness, nightmare

Nightmare: yes, let us begin.

## Issue 22

Kirby is sleeping, when suddenly, he is struck by lightning. He is only a little stung though. Just then, a swirling dark orb with stars on it flies by. Kirby instantly recognizes it, and rushes to catch it

## Meanwhile

Magolor is sleeping, when the lor is suddenly shaken by something

Magolor: ow! What the!?

He rushes out to check, and sees what seems to be susie in emo colors using her mech to push the lor

Magolor: susie? You can just ask to move this thing

"Susie" looks in disappointment

Parallel susie: im parallel susie, the evil mirror of susie, and i'm trying to do confidential stuff. So don't try against me

Magolor: I'm just gonna call you emo susie, but i'm not letting you do anything to the lor!

Parallel susie: you really want to try me?

Just then, marx lands right beside

Marx: oh, he triple wants to try you!

## Meanwhile

Meta knight looks off into the distance

Bandana dee: oh come on! It hasn't even been a week, and you still think there's gonna be another threat?

Suddenly, meta knight's eyes open, and he swings out his cape

Meta knight: nightmare...

Bandana dee: right, he has ultra senses...

Just then, meta knight grabs bandana dee, and flies off

Bandana dee: WAAAAAAAAAAAAAAAAA-!

## Meanwhile

Dedede is in a pool, when suddenly, kirby jumps on him

Dedede: huh? Kirby? What's going on?

Kirby points over to the swirling orb

Dedede: Wait, is that nightmare!? The last time we saw him, he was slashed in half by aeon hero A.K.A. galacta knight!

Just then, they hear a noise. They look up, and see the dimension mirror in the sky, the orb flies into it

Dedede: looks like we don't have time for chit chat, let's go!

Meanwhile

Addeline is painting, and sage is watching

Sage: father said that painting was a waste of time, but it seems interesting.

Addeline: thanks! I put my heart and soul into my drawings!

Suddenly, a rift opens nearby

Addeline: huh?

Sage: hm?

The rift grows bigger, until a circular thing starts to form, once around the size of around dedede, a purple creature forms around it, and it sprouts wings and a tail

Addeline: what the heck is that!?

Sage: looking at it, it is a sphere doomer, an otherworldly species that are made of some substance, this seems to be the regular variation, depending on the basic purple

Addeline pulls out her paintbrush

Addeline: well let's take them down!

Sage: agreed, these things only use hostility

Meanwhile

Dark matter drill is slump in the prison area of the abandoned dark matter base\

Dark matter drill: I'm so bored! There's nothing to do!

Just then, a six tentacled creature comes out through a portal, and goes in front of dark matter drill

Dark matter drill: what the...are you an evil starfish?

A projection comes out of the creature's eye, and an alien like creature appears on it

Black doom: greetings, i am black doom. we see you come from a force of similar design, so i propose an alliance between your army and the black arms, accept or perish

Dark matter drill: oh, let me just get my boss real quick

He stomps the ground, and nothing other than the master crown shifts space and time to appear

Dark matter drill: speak telepathically

The master crown, echoing against the cave walls: ***I accept...***

Meanwhile

Taranza is sleeping, when he hears not a mechanical groan, but what sounds like a distorted version of stary when they move fast

Taranza: that doesn't sound good...

Suddenly, a blast of darkness shoots right beside taranza, and a star like creature with a single eye

???: daroach...kill daroch...

Taranza: yeah, no. You are clearly evil, what's your name?

Dark nebula: dark nebula...kill kirby...kill dedede...kill daroach...kill meta knight...

Taranza: what are you, a walking hitlist?

Meanwhile

The fransisca is drawing in her sketchbook, flamberge is swinging her flaming sword like a madwoman, zan partizane is reading a book, and hyness is sleeping (and has the most annoying snores)

Flamberge: take this! And that! And this! And that!

Zan partizane: flam, what did dad say about swinging your sword indoors?

Flamberge: sorry zan, but you can't stop me from-!

Suddenly, a rift opens, giant white glove comes out, and takes hyness

Zan partizane: you've gotta be kidding me. Well, lets go sisters

Fransisca: well, looks like this our first actual adventure

Flamberge: aw yeah, adventure time!

Meanwhile

Dark meta knight watches through mirror energy cameras (which are invisible) to watch everyone and their problems

Dark Meta knight: and like that, everything is now accounted for. The rivals are chasing nightmare, the knight and wimp are searching for nightmare, the insolent children are fighting a sphere doomer, the spider is fighting the nebula, the descendant and jester are fighting parallel susie, and everyone is now aligned. Let phase 1 now begin...

Daroach, squeak squad! 1

Daroach, narration: now, you know me as the master of thievery, the king of special jewels and relics

Cut to daroach in the shadows, running through a strange alley

Daroach, narration: i know what you might be thinking, but no, this is not the same planet as the dark hedgehog or susie's planet.

Cut to daroach wall jumping up the alley

Daroach, narration: no, this is my favorite place to chill from time to time

Cut to daroach getting on top of the building, then laying down to look at the frozen landscape

Daroach, narration: shiver star

Daroach, in real time: ah, nothing like an icy day on shiver star, no one to disturb my peace, and nothing to pester me. And it helps that i had given the lead of the squeak squad to doc so i can have my thrill

He gets up, and stretches

Daroach: welp, time to see what there is today.

He jumps off the building, and uses his cape to glide

Later

Daroach lands on one of the many dead trees, and looks around

Daroach: hmm, nothing much here.

Just then, Daroach notices a strange smoke.

Daroach: that doesn't look good...better check it out

Later

Daroach inspects the wreckage of where the smoke was from

Daroach: so far, i've gotten three diamonds, six chaos drives, and 9 chaos converters

He moves over a piece of metal, and finds a strange yellow robot, similar to the X-17 robot

Daroach: a...robot? It doesn't match anything here. Eh, i'll ask susie later

Suddenly, a rain of giant icicles comes out of nowhere

Daroach: last i checked, mega icicle rain is against reality. You can show yourself magic ice wizard

Instead, the ground cracks, and the entire wreckage, daroach, and the robot fall deep down

...

Daroach wakes up, and scratches his head

Daroach: yeah, that was not normal

He gets up, and sees that he fell in the wreckage, and it's seemingly only a lower half of something

Daroach: Now, where's that weird robot?

???: owww...

Daroach turns over, and sees the yellow robot standing itself up

???: my everything hurts...

Daroach: well, it's better than being stuck escaping a underground labyrinth alone

The robot turns over to daroach

???: Hey, who are you?

Daroach: im daroach, previous leader of the squeak squad, and you?

Emerl: well, my code name is X-1, but i go by emerl, it fits me more

Daroach: X-1, eh? i do know another one like you, and i think he could use some help

Emerl: First of all, where in god's name are we?

Daroach: in a deep caves of shiver star

Emerl: ummm, okay...

Daroach: now, lets go, we're burning daylight that isn't seeable beyond the foggy clouds

He jumps atop an icy platform leading to a cave, and emerl follows behind

Later

The duo search, until emerl asks a question

Emerl: so, daroach, what's your backstory?

Daroach: eh, unlike most ex-criminals and such, i just wanted to join thievery through thrill, but i'm just an adventurous mouse nowadays, nothing more, nothing less

Emerl: oh, that's weird, i've never seen a person who was evil just cause they found it thrilling

Daroach: well kid, not every backstory is an iceberg

Suddenly, the rocks behind them lose balance and fall, revealing a greyish blue colored puffy orb shaped person, seemingly part of kirby and meta knight's species in an ice cube

Emerl: is that a person?!

Daroach: it would appear so, i'd recommend standing back

Emerl steps back, and daroach pulls out his wand

Daroach: flare!

A beam of fire shoots out, and unthaws the ice, letting the puff out

???: I LIKE—, huh?

Emerl: you okay kid?

???: Oh yeah, I'm fine!

Daroach: Then might I ask what your name was? And why were you frozen in ice?

Shade: oh yeah, my name's shade! And for being frozen...I remember going about my day, until that very feared dark mind came along, and made some ice guy that froze me. P.S. what year is it?

Daroach: lets see...around 2025

Shade: dang, it's been a thick minute

Emerl: Are you sure you aren't from this time?

Shade: no, that just sounded cool

Daroach: anyways, let's get back to escaping

Emerl: right!

Shade: oohh, an escape?

Daroach: it's just escaping this underground place

Meanwhile

In the now crashed death egg that's more shaped like an egg, a light turns on

Computerized voice: death egg status. Crashed. Sending coordinates to nearest eggman base in 3, 2-

Just then, a icicle smashes it, and dark nebula (with taranza rodeoing it) recklessly flying down

Dark nebula: kill daroach...

Taranza: woah there!

Dark nebula: kill...daroach....KILL...DAROACH

It suddenly hears daroach's voice, and rushes in that direction

Issue 23

Kirby and dedede chase the orb on stary

Dedede: get back here nightmare!

The orb flies into the dimension mirror, and Kirby and dedede follow in. right after, meta knight (with bandana dee in tow, holding for dear life) flies into the dimension mirror himself

Meanwhile

Addeline and sage attempt to take down the sphere doomer, but it is resilient to sage's cyber abilities, and addeline's paintbrush just doesn't do enough damage.

Sage: stand down

Addeline: yeah! You won't beat us!

Suddenly, the sphere doomer grabs onto both of their shirts, and flies off.

Sage: I cant use any abilities, why's that?

Addeline: I don't know!

The sphere doom flies up, then goes into the dimension mirror

Meanwhile

Parallel susie retreats

Marx: That's whatcha get!

Magolor: we should probably follow her, this emo susie doesn't seem like a good thing

Marx: oh yeah, time for more adventure!

Meanwhile

The three mage sisters jump out of the portal into a volcanic area

Fransisca, sweating: flam...? Where...are we...?

Flamberge: oh no, she is way too hot here! San, get Fran somewhere else, quick!

Zan partizane: right

She picks up fransisca, and dashes to quickly find a way to help her ice elemented sister

Flamberge: welp, looks like its just me in a lava land, looking for the glove dude

Just then, the white glove with hyness flies off in a direction, and flamberge follows

Flamberge: hey! Get back here with my dad!

Meanwhile

Dedede and kirby quickly go through the mirror world, chasing the orb

Dedede: get back here!

Just then, the orb shifts into nightmare

Nightmare: Miss me penguin and puff?

Kirby and dedede stand on stary readying up. Just then, meta knight catches up, and places bandana dee on the warp star

Meta knight: nightmare, you will be taken down

Nightmare: awww, the guy wearing a mask is trying to threaten me! How old do you think I am mr "I don't have a family"?

Meta knight's posture is lost a bit, but is regained quickly

Dedede: ha! What do you think you can do? Distract us so someone can get a surprise atta- Suddenly, a rapid hit knocks stary, making kirby, bandana dee, and dedede fall down to the ground, and meta knight to the chase

Dedede: okay, i asked for that

Just then, dark meta knight appears in front of them, with king D-mind and dark taranza landing behind him

Dark meta knight: surrender, or face my wrath

Dedede: since when was there a fake me and taranza?

King D-mind: you wanna try me pengy boy?

Dedede: okay, i'll go for this fake me, bandana waddle dee will go for the fake taranza, and kirby, you can take care of edgy knight

Dark taranza: oh, now this will be delectable...

Bandana dee: come on dee, remember you had just faced worse!

He pulls out his spear, and give a determined expression

Dark meta knight: my minions, attack

Both king D-mind and dark taranza attack, and dark meta knight bursts at kirby

Dedede: come on fake king! Lets see how long you can last against this penguin!

King D-mind: with pleasure...

He swings his metalic hammer, but dedede blocks it with his wooden hammer

Dark Taranza: Come on, you can't beat me!

Bandana dee: then let's see about this!

Before dark taranza can do anything, bandana dee jumps onto his head, and pulls dark taranza's hair

Dark taranza: hey! Get off me!

Bandana dee: not a chance!

He lets go, and sends dark taranza into a wall, knocking him out

Bandana dee: woo! I did it!!

Kirby struggles to fight dark meta knight without any ability

Dark meta knight: you're still standing? I do say, i admire your persistence, but it won't be enough

Suddenly, dark meta knight shatter teleports (where he shatters into 6 pieces, and all go into different directions), and appears behind kirby. Dedede quickly takes notice, and rushes to stop the attack

Dedede: kirby!

Dark meta knight expected it, so he grabs dedede by the arm, and smashes him against the ground repeatedly, then throws him to a wall

Dark meta knight: pathetic...

He shatter teleports away, and king D-mind and dark taranza flee

Bandana dee: king dedede!

Kirby looks in shock, and runs up, with bandana dee behind. Kirby shakes dedede, and bandana dee checks for a pulse

Bandana dee: he's fine, just very hurt. I think...you need to go ahead. I'll help dedede heal  
For the first time ever, Kirby feels sad, really sad.

Bandana dee: kirby, you are the only one who can take down both nightmare and dark meta knight, you need to go

Kirby slightly nods with a frown on his face, and rushes off

Meanwhile

Meta knight is in hot pursuit of nightmare

Meta knight: you can't win, we've beaten you once, we can beat you again

Nightmare, sarcastically: oh, i'm so scared! I guess I have to use a bit of force then!

Suddenly, a strange eye appears behind nightmare, and it starts to make meta knight drowsy

Nightmare: meet my new friend...hyposor

Meta knight fully falls asleep, and plummets to the forest below

Daroach: squeak squad! 2

Daroach, emerl, and shade go through the cave, looking around

Shade: this is awesome!

Emerl: wait, how old are you?

Shade: ummmm, about 12

Daroach: That explains a bit.

Just then, they all hear a smashing noise heading their way, and Daroach grabs both of them, and hides behind a rock. Suddenly, dark nebula rushes in

Dark nebula: where...is...DAROACH?

It goes farther into the cave, smacking taranza off him with a sharp turn

Taranza: owwww...that hurt.

Just then, daroach jumps out of hiding, and helps taranza up

Taranza: Wait, daroach?

Daroach: the one and only

Shade: hello!

Taranza: ummm, who are they?

Daoach: oh, that's emerl and shade

Emerl: okay, but what was that thing that just came through!?

Daroach: the one thing that I could really call in some way a “disturbing” part of my backstory. But I heard others had it worse with other entities possessing them, dark nebula.

Taranza: wait, that is the ONE thing you have wrong with your life, literally just getting possessed!?

Daroach: yeah, pretty much. What about you?

Taranza: I'd...I'd rather not talk about it...

Emerl: uhhhh, i don't want to know, and i died after going haywire

Shade: aw man, i want a crazy backstory!

Both taranza and emerl: no you do not

Daroach: Anyways, do you know any way out?

Taranza: one, but i don't like it

Later

Taranza is struggling to hold onto emerl while shade effortlessly flies up the way they came out. They all land, and taranza lets out a sigh

Taranza: my GOD! Why did I agree to that? And why did I even bring it up?

Emerl: on the bright side, we're out

Daroach: now, if you excuse me, i have to get back to my resting place

taranza: huh? In a frozen wasteland?

Daroach: don't worry, i'll be fine

Emerl: okay, how about instead of that, you help us build a ship to escape?

Daroach: nah, see you!

And like that, he glides away with his cape

Meanwhile, not far away

Dark nebula bursts out from the snow, when suddenly, a voice from its mind tells it something

???: ***not yet...wait for perfect time to strike***

Dark nebula listens, and slows its pace

Meanwhile

Daroach lays back down on the rooftop, twirling a gem

Daroach: nothing like an icy day on shiver star, looking at my first treasure.

Suddenly, his time is interrupted by a sudden crying

Daroach: hm?

He jumps down, and finds a pile of rocks that wasn't there before. He removes them, and finds a not fully existent blonde haired girl with a blue shirt, seemingly being a ghost. Her sobbing stops when she sees daroach

???: who...are you?

Daroach: im daroach, who are you? And why do you seem like a ghost?

Maria: oh, right, I'm Maria. As for why I look like this, I died nearly 50 years ago, and I'm just a ghost. But I'm usually invisible to people, how do you see or hear me?

Daroach looks at his gem, which is vaguely similar in shape and white like a ghost

Daroach: hmm, maybe this?

Maria: Well, it's nice for someone to see me anyway!

Daroach: Wait, maria...aren't you that girl that died in an incident, and had extremely bad sickness?

Maria: yeah, it wasn't the best life, but i lived it to my fullest!

Daroach: i do know where your hedgehog friend is, so if i can get you and this gem to him, you can see your friend again

Maria: really? How?

Later

Emerl: so, you actually want to help?

Daroach: yep, and i'll make sure i can help to my fullest

Taranza: Well, we already have jobs for this, so can you cout the area?

Daroach: Sure, why not?

He walks off, with maria behind him

Maria: so, what are we looking for?

Daroach: just somethings that would work for a rocket, it would be helpful if you are a ghost that doesn't phase through everything

Maria: don't worry, I can interact with things just fine!

Daroach: well then, let's go find these parts

The two head off in different directions to find parts

Meanwhile

Dark nebula watches daroach from above

Dark nebula: vengeance...mine...if daroach...destroyed...triple rod...destroyed  
It keeps on track to follow

## Issue 24

Meta knight wakes up, and finds himself by what seems to be...a purple marx with a longer hat and a chill face, a grey magolor that seems to have a single eye in the center of his face with his buckle as a mouth?

???: come on mago, i've helped a lot today, a BALL-lot.

???: shatter marx, i swear to D-mind, if you don't shut your mouth, I WILL SCREAM!

Shatter marx: come on dark mago, don't be so, one s-EYE-ded.

Dark magolor: AHHHHH! SHUT IT!

Meta knight walks up to them with caution

Meta knight: excuse me, who are you two?

Both turn around

Dark magolor: (dramatic gasp), shatter marx, is that, is that a dreamlander!?

Shatter marx: yup, sure is, seems to be the guy dark mind copies or something. Anyways, wanna drink sir?

Meta knight: no thank you, im fine

Dark magolor: what are you doing!? We need to set traps up for the dreamlander!

He rushes off, leaving shatter marx and meta knight

Shatter marx: yeah, just so you know, make sure to not fall into any of his "traps"

After that, shatter marx goes off to join his friend (brother?)

Meta knight: I know I'll run into them again...

Meanwhile

Shadow kirby is flying around the outer world on his warp star, when he suddenly sees the dimension mirror

Shadow kirby: huh? I thought that thing shattered!

Just then, a waddle dee wearing a bandana and a penguin dude who is out cold ride on the warp star out of the portal

Shadow kirby: ummm, are you guys friends of kirby? Because your on his warp star

Bandana dee: yeah, im bandana dee, and this is dedede. Dark meta knight really hurt dedede, and i'm trying to bring him back to his castle to get him healed, stary is bringing us there  
The two leave, and shadow kirby is angry

Shadow kirby: dark meta knight thinks he can do that!? Oh, he's so getting it! Me and Kirby are gonna beat him up!

He quickly dashes into the dimension mirror to find kirby

Meanwhile

The sphere doomer lands with addeline and sage still in tow, and plops them in a...nest?

Addeline: is he trying to feed us to its kids or something!?

Sage: no, doomers cannot reproduce, there must be some other reason...

Just then, the doomer picks something up from a nearby ruined tower, flies back over, and places down a few...chili dogs?

Addeline: ummm, sage? I think it thinks WE are its young...

Sage: hm, that would explain its less hostile behavior from the ancients notes

Addeline tries one of the chili dogs, and she likes them

Addeline: mmmm! I haven't had any normal food in a while!

The doomer flies around happily, showing a noticeable hole in his back

Sage: hmmm, that isn't a natural thing on any doomer i've seen

Addeline: Well, he doesn't seem bad, so let's let him care for us so it can feel happy. It's nice to put a smile on somebody's face!

Meanwhile

Zan partizane reaches a colder area of the mirror world, and places fransisca on her theoretical feet

Fransisca: thanks zan...

Zan partizane: no problem fran, but i think it would be better for us to stick together, while flam takes care of the lava land

Fransisca: Okay, I guess that works...

Meanwhile

Flamberge rushes after the white glove

Flamberge: get back here with my dad!

Just then, hyness wakes up

Hyness: eh? What the heck?

Flamberge: dad! Can you get out of his-!?

Before she can finish, hyness hits the glove with a fire pillar, and jumps on the ground

Hyness: and that's how an ancient takes down a master hand!

Flamberge: a master...what?

Hyness: Okay now, where are we? And where are your sisters?

Flamberge: we're in the mirror world, and zan hand to bring fran somewhere colder

Hyness: Well, let's go find them!

Meanwhile

Kirby quietly runs through the mirror world, when he suddenly i grabbed by something, and thrown to the ground

???: Wait, puffball?

Kirby looks up to see hetra knight, now very confused

Hetra knight: sorry, mistook you for an enemy. Wait, why do you look sad?

Kirby doesn't even make a poyo, when suddenly, he sees shadow kirby on his version of stary

Shadow kirby: Hey kirby-!

Just then, hetra knight slashes at him, then realizes that it isn't the right person

Hetra knight: Wait, you're the other shadow kirby...

Shadow kirby: OTHER shadow kirby? You mean the fake one made of darkness?

Hetra knight: exactly

Shadow kirby: Okay then, lead the way kirby!

Kirby picks himself up, but he still is uneasy

Shadow kirby: ummm, kirby?

Hetra knight: screw this, follow me.

Shadow kirby picks up kirby, and places him on is warp star

Shadow kirby: don't worry Kirby, we'll take down dark meta knight!

Kirby tries to force a smile, but can't

Hetra knight: come on you two we're burning daylight, or moonlight i guess

Shadow kirby: oh, right!

Daroach: squeak squad! 3

Daroach jumps down with a bunch of parts, and maria places down a bunch of parts beside them

Daroach: okay, since everyone is off collecting parts of their own, this is the best time for you to place down your parts, don't want to make taranza think your his own dead friend

Maria: yeah, that makes sense

The two place down their parts, when they suddenly see a portal open. Just then, a sphere doomer flies out, looks around, and sees daroach

Daroach: oh, a sphere doomer, i've heard these guys are really hostile  
Instead of attacking, the sphere doomer flies up to maria, and makes some noises

Maria: food? I don't have any food on me, i'm a ghost

Daroach: giant energy monster can see ghosts, makes sense

Maria: Maybe Daroach has some?

Daroach's eyes open in surprise from that

Daroach: uhhhhhh, me?

Maria: Yeah, you have any food for him?

While daroach does have a sandwich, but he doesn't want to give it to anyone

Daroach: ummm, no?

Maria isn't convinced

Maria: Then why do you sound less confident about it?

Daroach: (sighs), fine, (pulls out a sandwich, and tips his hat down), here  
The sphere doomer bounces with joy, and flies back through the portal

Maria: what a nice guy

Just then, taranza comes back with a lot in each of his six hands

Taranza: dang, 6 hands just means the average muscle is split equally

Daroach, regaining posture: well, looks like you got your parts

Taranza: yeah, i just need to put them down

He drops them all on the ground, then falls onto the ground from exhaustion

Taranza: I'm okay...

Daroach: Anyways, where are the others?

Taranza: i'm pretty sure they went left, so they probably went back to the giant hole for parts  
Just then, what seems to be emerl holding shae by the arm and a lot of parts tied to his back  
rushing forwards, and a bunch of strange robots behind him

Emerl: SO. MANY. BANDIKS!

Daroach jumps over, and pulls out his wand

Daroach: shock!

A blast of electricity shoots out, and causes a chain reaction with the weaker badniks, leaving  
the stronger few standing.

Emerl: Wait a minute, my copying! Hey daroach, can you use one of your moves again?

Daroach points his wand at one of the bigger badniks

Daroach: freeze!

He turns the badnik into a frozen ice cube, and emerl downloads the data of the move. Just  
then, his hand glows with an icy spirit

Emerl: ice attack!

He shoots an exact replica of the beam, and freezes another big badnik

Daroach: i will admit, i'm impressed

Emerl: yeah, i can copy attacks after seeing it, pretty neat huh?

Shade: That's so cool! Also, can you put me down now?

Emerl: oh, right

He flies down, and places shade on the ground, and he runs over to taranza, who also rushes  
into battle

Taranza: if you can copy attacks, then i'd say it's time for a big web

He makes a web out of energy, and emerl downloads the attack

Emerl: if you say so

He also makes a giant energy web, and fuses it with taranza's.

Taranza: ready? 3...2...1...throw!

The web is chucked into the badniks, and crushes them all

Emerl: Now that's a team attack!

Daroach adjusts his hat, then puts his wand away

Daroach: well then, let's get building this ship, i've got enough chaos drives to last a year

Later

The ship is finished, and the team is admiring their work

Taranza: Okay, so who's going where?

Shade: i can see my planet from here so just bring me there

Emerl: I'm probably gonna go to earth, I need to show Sonic I'm alive!

Daroach: Okay, but what about meeting the other gizoid?

Emerl: oh yeah! Then its first, your planet, next, earth

Taranza: then it's settled! We first go to Shades planet, daroach will drop me off at popstar with Emerl for a bit, then you and Emerl go to earth!

Daroach: sounds good to me

They all enter the rocket, and blast off. Once in space, Daroach pulls out a popsicle stick, and sharpens his claws with them. Taranza drives the ship, and shade and emerl are playing rock paper scissors to pass time

Taranza: so, what are you guys planning

Emerl: well, meet this other gizoid, reunite with sonic, and then go from there!

Shade: HHHHHHHHMMMMMMMMMMMMMMMM, ooh, see my big bro!

Daroach: eh, nothing much

Taranza: I don't know why, but I feel like you're hiding something...

Daroach: even if i was, i wouldn't tell

Just then, they hear a screech

Taranza: What was that?

Daroach: ohhhhhh, nooooooooo...

Suddenly, the ship door bursts open, and daroach, emerl, and taranza fly out onto a nearby meteor. Once they get up, they see none other than dark nebula

Daroach: oh, if it ain't mr impolite star

Dark nebula: DAROACH...WILL...DIE...ALL...WILL...DIE!

Issue 25

X-17 stares down into the grass of green greens

X-17: What am I made for?

Next to him, gooey is licking wispy woods (who is clearly not liking it)

Gooey: yum, tastes yummy

Suddenly, they hear a strange crashing noise. They both go over (not very much in a rush), and see a meteor with tech upgrades

X-17: identification[unknown]

Gooey: oooooohhhh, shiny

Suddenly, the meteor cracks open, and a small, reddish hand pops out

???: owchie...

X-17 knows Kirby would try and help the mystery person, so he grabs their hand, and pulls them out. The person lands face first on the ground, and picks themselves up. They are wearing clothes with a golden yellow tint. One of their eyes was the same golden yellow, but the other was covered by their night sky black hair with small white specs all over them (except the area covering the eye). It seems like they were a girl no older than 12. The girl looks at X-17, and looks confused and concerned

???: where am i!? Who are you!? Who am i!?

X-17: madam, i am as in an equal surprise as you are. Do you have a name?

???: no! The last thingy i remember was something with an explosion!

X-17: hm, shall we give a name?

Gooey: I like eclisa.

Eclisa: yeah! That! We'll go with that! But now we need to find out who I am!

X-17: okay, let us go then

Meanwhile

Magolor and marx (on the lor starcutter) chase down parallel susie

Parallel susie: get away from me you annoying brats!

Magolor: not a chance emo susie! I've got friends to save, and evil to stop! And that evil is you!

Marx: yeah emusie! Beat yourself up!

Parallel susie: what!? No! Why would i-  
Suddenly, the left wing piece smacks the altered girl out of the sky

Marx: direct hit!

Magolor: Yeah, let's go take them down on the ground!  
The lor starcutter lands, and marx and magolor get out to see parallel susie

Parallel susie: you guys aren't winning just because of that!  
She hops back in her mech (which its propulsion booster isn't working now), and goes into battle mode

Magolor: team attack?

Marx: oh, you BET!

Meanwhile

Addeline and sage are still in the nest, which now has quite a bit of food. The sphere doomer flies over with a sandwich in its mouth, but once it drops the sandwich in the nest, a sudden sharp pain makes it fall to the ground

Addeline: oh no! Doomy!

Sage: doomy?

Addeline: we have to call him something  
She gets out of the nest, and runs over to help it. The sphere doomer gets up, and gives addeline a curious look

Addeline: hey, i can't let you stay like that, i like helping others out!  
The doomer looks in happiness, and spins around. Suddenly, a roar is heard, and the doomer quickly picks addeline up, and puts her and it in the nest. Just then, what seems to be a much larger doomer with a crystal apple in it and gears protruding out its head flies by, so the doomer brings both of the kids back out

Addeline: who was that!?

Sage: from my data, that was the crowned doomer, it is the strongest of the doomers by a longshot, and it is unusually aggressive to all doomers except the four rampaging doomers  
Addeline thinks for a second, then comes up with an idea

Addeline: then let's take it down!  
The doomer looks afraid

Sage: what? We can't. It is statistically impossible

Addeline: not if we find a certain magical egg shaped guy who's familiar with them

Meanwhile

Kirby, shadow kirby, and hetra knight slowly fly across the sky of the mirror world

Shadow kirby: so, whatcha doing?

Kirby doesn't respond, or even turn around to look for that matter

Shadow kirby: oh, right

Hetra knight: enough chit chat, we're nearly there

What seems to be a mirrored version of dedede's castle is seeable from under the clouds, but that just makes kirby sadder

Hetra knight: there it is, castle D-mind

Shadow kirby: oh, he's gonna get it for messing with kirby!

The group land, and stand in front of castle D-mind. Just then, a mirror dee spots them, and presses an alarm

Hetra knight: good thing they set an alarm, i wanted a challenge, not a joke, and they might deliver

Shadow kirby: Okay, let's ride!

The trio run in (with kirby in the back), and start the attack

Meanwhile

Bandana dee is sitting by dedede (who has a cast on the arm dark meta knight grabbed, and bandages all over)

Dedede: come on! I can still fight!

Bandana dee: as much as i want to agree with you sir, your too hurt right now

Dedede lets out a loud sigh, and slumps in his throne

Dedede: im gonna end that edge knight

Suddenly, a portal opens, and a silhouette appears.

Bandana dee: huh?

Dedede: what in the...

The figure walks out, and out comes...mechanic dee?

Mechanic dee: hey guys! There's a problem in the ol forgotten land.

Daroach: squeak squad! 4

Daroach, taranza, and emerl stand on the meteor, staring down dark nebula

Dark nebula: KILL...KILL...KILL!

Daroach: yeah, yeah, get on with your attack

Emerl: wow, you do not have any care in the world do you?

Daroach: as i said, not everything is an iceberg

Dark nebula shoots at the meteor, blowing it up, and forcing everyone to split onto different meteors. Dark nebula stays focused on daroach

Daroach: so, you're gonna keep following me? Want an autograph or something?

Dark nebula: SHUT...SHUT...SHUT!

Suddenly, daroach kicks dark nebula into a meteor

Daroach: how about that you sucker!

Suddenly, dark nebula shakes violently

Dark nebula: DARKNESS...FUSE!

A bunch of dark matter appear, and fuse into the star like monster. Dark nebula's eye becomes more demonic, its points become larger and abstract

Dark nebula: YOU...WILL...DIE!

The newly enhanced monstrosity blasts at daroach, but he dodges

Daroach: sorry, but i'm not for the killing

Dark nebula sends a barrage of dark attacks, but daroach effortlessly dodges

Meanwhile

Emerl is dodging the offshoots from dark nebula's attacks, and taranza is holding back the armies of dark matter

Taranza: He's so reckless! It's like he doesn't care to help us, and more just cares he can beat the enemy!

Emerl: he's like a more selfish version of some people i know...

Just then, shade waves over to them

Shade: guys! Over here!

Daroach: well, looks like we have to go

Emerl and taranza jump to the ship, and daroach lands one last hit before going in

Daroach: sorry, but i win the one neb

Taranza: Okay, first stop, that planet!

The ship blasts at full speed, while dark nebula follows quickly behind. Once there. Shade quickly jumps out, and the ship blasts off again

Shade: see you! Wait, (looks around) WHERE IS EVERYONE!?

Meanwhile, on the ship

Daroach: that's one planet down, two to go

Emerl: daroach.

Daroach: yes?

Emerl: you need to stop putting yourself in front of others

Daroach: hm?

Taranza: if it wasn't obvious, you decided to forget about us, and fought dark nebula yourself without helping us out

Daroach: And you're implying?

Emerl: we're implying you need to work on your personality

Taranza: yeah, just because you were a wanted thief that changed their path doesn't give you the right to only care for yourself

This slightly annoyed daroach

Daroach: oh really? Aren't you the one who ended his own love life?

Taranza: you better not bring sectionia into this you little-!

Suddenly, dark nebula slams into the ship, and sends it crashing to popstar, and knocking everyone out

Later

Daroach wakes up, and sees maria's ghost in front of him

Daroach: huhhhhhhh?

Maria: daroach, your friends and the gem!

Daroach picks himself up, and pulls out his wand

Daroach: yeah yeah, i'll take care of this weak star weirdo

Dark nebula stares at daroach, not as angry, but with some indescribable expression

Dark nebula: everyone...has weakness...daroach weakness...selfishness  
Hearing that from dark nebula of all people surprised daroach

Daroach: selfish? Me? Don't be silly, i'm not-

Dark nebula: daroach...only wants...money  
That was something Daroach couldn't deny, he had always been in it for the money.

Daroach: well i...am...wait, why do I want the money? What does it give me? Sure, it would be good on earth, but here, you don't buy anything. Why would I need money?  
Suddenly, something glows in Daroach's cape. He pulls out the glowing item, and it's the triple rod

Daroach: well, i guess i still need i guess i still need to atone, ready triple rod?  
The triple rod glows with power, as a burst energy so powerful, daroach has to hold his hat on while his cape flows in the air

Dark nebula: no....NO!

Maria: go daroach!

Daroach: sorry neb, but you're gonna feel triple the pain you caused! ELEMENTAL, BLAST!  
A ray of fire, ice, and electricity are shot at dark nebula, and pierce through his eye, as it lets out one more scream of pain and dissipates. Once he is gone, emerl and taranza wake up, and see daroach twirling the triple rod

Taranza: what just happened?

Daroach: decided i don't like money

Emerl:...what? Also, is that shattered gem yours?  
Daroach looks down, and sees that the ghost like gem is shattered, and maria is gone

Daroach,. To himself: well, she would be happy to know we did it

Taranza: huh?

Daroach: nothing, now, hows about you meet X-17 while we rebuild this rocket

Emerl: oh right! Let's do it!

Daroach: couldn't have said it better myself  
Out of their sight, a certain mouse watches in UFO

Doc: daroach learned a valuable lesson, not everything revolves around him

Magolor and marx dodge parallel susie's attacks.

Marx: nope! Part of our attack!

Parallel susie: oh no

Parallel susie: this isn't over

Marx: sure emusie, suuuuuuure

Meta Knight rushes through the forest, until he sees a blatantly obvious net trap with a sign saying “dark magolor’s trap, pls get trapped”. On the side, dark magolor is evilly cackling behind a tree

With one slash, meta knight slices the net in half

Meta knight: next time, at least don't leave a sign making it more obvious.

Shatter marx: looks like a trap lecture just got ROPED into this!

Dark magolor: SHATTER MARX!

Meta knight: no, the jester is right, you need some idea on how to make traps

Dark magolor: neverrrrrrrrrrrrrrrrrrrrr-(slips on a rock)-OW! Still, neverrrrrrrrrrrrrrrrrrrrr!

Dedede and bandana dee stand in front of mechanic dee

Dedede: problem? What problem? And how did you make that portal?

Mechanic dee: well, there was a massive flood in natural plains, everbay beach, and wondria remains. As for how I got here, I found a way to use the space ranger ability to make portals of my own. Behold, portal gun!

He pulls out what seems to be the weapon of the space ranger ability, now glowing with a green energy

Bandana dee: so, are you trying to make a portal between dreamland and the forgotten land?

Mechanic dee: precisely!

Dedede: well then, i can help, because-

Bandana dee: your majesty, your hurt. You can't do this right now!

Dedede: Hey, if I can survive the DDD-stroyer-Z exploding. Being beat up while mind controlled by a mask, then fighting off a horde of beast pack members, then flood repairs with an arm injury is nothing!

Bandana dee: (sighs), once you have your mind set, you don't stop

Meanwhile

X-17 walks to Kirby's house with eclisa holding its hand, and gooey plopped on its head. He enters the house, and searches around for some kind of book

X-17: searching for anything on meteors with people inside them  
Just then, eclisa joyfully shows a book to it titled "parenting for beginners"

Elcisa: oooh, what's par rent teen? It sounds cool!

X-17 was not built to truly have emotions, and didn't know what parenting meant either, so he scans the book to search for his answer, but is met with how to take care of a kid

X-17: reason why Kirby has this book, unknown.  
Just then, eclisa jumps on kirby's bed

Eclisa: This bed is so soft! And squishy!

X-17: young child, that is kirby's bed  
As eclisa jumps looks curiously around the room, it seems as if the sun glows brighter

Gooey: mmmmm, the sun tastes like cheese  
As eclisa bounces around, X-17 feels a strange feeling, its as if he is fine with her actions

Eclisa, playing with Kirby's nightcap: oh my gosh! What is this!?  
X-17 feels like he would be smiling if he had a mouth

Meanwhile

Hetra Knight and shadow Kirby rush through castle D-mind, while Kirby falters behind. Shadow kirby notices his popstar counterparts sadness, and stops

Shadow kirby: you go on ahead, me and kirby will catch up

Hetra knight: if you say so

With a sudden burst of wind, hetra dashes off. Shadow kirby turns to kirby, and sits with him

Shadow kirby: hey kirbs, something on your mind?

Kirby doesn't speak, he just looks away

Shadow kirby: Hey, you know everything always works out in the end, remember?

Kirby turns over just a little bit

Shadow kirby: you've beaten dark mind, dark nebula, void termina! What I'm saying is that if you can stop gods, you can cling onto hope!

Kirby realizes the meaning of shadow kirby's words, and finally gives a determined smile and nod

Shadow kirby: That's my real world counterpart!

The two stand up, and run fast to catch up to hetra knight

Soon

The two catch up to hetra knight, who is searching a room with a clearly untouched door and a lot of knocked out enemies

Shadow kirby: What are you doing?

Hetra knight: searching for a secret door, if i know anything, villains do not leave their evil entrances this accessible

Kirby looks over, and smells something delicious. He walks straight through the door, and nothing happens

Shadow kirby: i think it's fine

Hetra knight: of course it is...

For a few seconds its silent, until hetra knight chucks his mace right at the door in rage, then both follow kirby

Shadow kirby: Anger issues much?

Hetra knight: i am not the brute member of the ancient heroes for nothing  
Just then, kirby points out a giant door

Shadow kirby: That's our stop!

The trio stand at the door, readying for what happens next

issue 27

Flamberge and hyness make their way top of the volcano

Flamberge: Wait, why is this our way out?

Hyness: it isn't, but we can find your sisters easier like this. Also, do you have, ANY idea on where they went?

Flamberge: ummmm, somewhere cold?

Hyness: Okay, where's the hottest place in dreamland?

Flamberge: ummm, raisin ruins?

Just then, hyness opens to a mirror

Hyness: hop in

Flamberge:...what?

Hyness: I SAID HOP IN!

Flamberge: okay! Okay! Sheesh!

Meanwhile

X-17 walks through dreamland while eclisa is swinging on his mechanical shoulders, while gooey is plopped on his head again.

Eclisa, looking around amazed: oooh, what's that!? And what about that!? And that one looks so cool!

X-17: from data i have gathered, planet popstar has the most paranormal terrain and ecosystem recorded

Just then, taranza, and daroach are bringing a yellow robot similar to X-17 himself his way

Daroach: ah, speak of the bot

Taranza: emerl, this is X-17!

Emerl: oh, nice to meet you X-17!

X-17: X-1, your condition is alive as well?

Emerl: please, call me emerl! Also, uh, there's a blue blob and little kid on you

Daroach takes notice of gooey, who usually lasts only 6 seconds before X-17 brushes him off

X-17: me and the life form known as gooey found a meteor, this young girl was inside it. We are locating something on a phenomenon such as this

Emerl: sheesh, is this what i was like before sonic? Anyways, it seems you could use a little boost in emotion, how about you try and bond with some of the people here?

X-17: i am unable to unless one of my 2 masters allow me

Emerl...do you know where one is by chance?

X-17: correct, the life form elfin is in the abandoned dark matter base for clues on the dark matter armies

Daroach: welp, come on, that's where we're going

gooey: that cave tasted great last time

Emerl: just a question, how smart is he?

Taranza: his two brain cells are fighting for third place

Meanwhile

Fransisca and zan partizane climb up the mountain at the center of the icy zone they are in.

Zan partizane, faltering behind: i don't understand, you are extremely bad in even standing it warm weathers, but you exceed anyone is the cold

Fransisca: i do have to power of ice, it's nothing special

Zan partizane: well then explain how flamberge is fine in the cold

Fransisca: zan, you know that she can use fire, right?

Just then, a mirror opens, and flamberge and hyness fall out of it. Flamberge gets up, and hugs both of her sisters

Flamberge: zan! Fran! It's so good to see you guys!

Fransisca: it's good to see you to flam

Hyness: okay, NOW we can find a way out of here

Just then, dark meta knight flies overhead

Hyness:...nevermind, we're hunting him down

All three mage sisters in unison: what?

Meanwhile

Kirby, shadow kirby, and hetra knight walk through the door, and find king D-mind sitting on what his popstar counterpart would call his throne

D-mind: well well well, the puffball and his wittle buddies came to stop me!

Shadow kirby: Yeah, we're gonna kick your butt!

Hetra knight: prepare to be beaten!

Kirby readies to fight

D-mind: well then, i'll send you to oblivion!

He jumps off his throne, and tries to smash shadow kirby with his hammer on the way down, but shadow kirby dodges

Shadow kirby: we're gonna beat you D-mind!

All three go on the attack, but D-mind's attention is focused on shadow kirby, and not the two clearly bigger threats

D-mind: come on shadow kirby, you don't need some weak friends!

Shadow kirby: Oh boy, you're the one that's gonna be trying to make me come back in way too dramatic lines...

Just then, hetra knight lands a sudden kick on D-mind, sending him to a wall

D-mind: well then, no more games

Suddenly, D-mind transforms into a giant eye monstrosity with teeth covering his eye

D-mind: TIME FOR HUNGER MODE!

Hetra knight: of course he's a discount dark matter

D-mind rams at shadow Kirby, but he dodges, grabs a mirror, and chucks it at him.

D-mind: ...WELL PLAYED SHADOW KIRBY, BUT-(falls over, and transforms back into base form)

Shadow kirby: What can I say? I know how you work!

Kirby turns over to him, and they both nod

Cue victory dance

Hetra knight:...what?

Shadow kirby: It's a thing, wanna join?

Hetra knight:...no, just no...

Issue 28

Emerl, X-17, gooey, and eclisa search down the somehow more dimmed path

Eclisa: Oh my gosh! Look at the door!

The group looks up, and sees a very faint door high up

Emerl: you are quite attentive to detail kiddo

Eclisa: I did not know what half those things meant, but I thank you!

Gooley uses his tongue as a lasso, and pulls them up there

X-17: status, previous dark matter stronghold boss room. I detect elfilin's presence there. We need to-

Before X-17 can even finish speaking, gooey opens to door while licking it

Gooley: tasty hot dog door

The group looks inside, and Elfilin is...meditating? He snaps out of it, and looks over to the group

Elfilin: oh, I didn't expect anyone to come down here. Just focusing energy. One half of a celestial titled "the ultimate life form" has gotta have some self time!

Emerl: wait, ultimate life form? That's shadow's title

Elfilin: well...one of two people titled "ultimate life form"

Emerl: Anyways, can you let your buddy here get some other orders? I want him to learn the fun of total sentence

Elfilin: oh, uh, what do I do to do that?

Emerl: just say he can also take orders from me

Elfilin: ummmm, okay, X-17, you can take orders from him too

X-17: directives updated

Emerl: well then, it's time for some gizoid bonding time! Come on!

X-17: okay

Both gizoids walk off, and eclisa and gooey jump back on X-17

Elfilin: Okay, back to talking....so as i was saying elfilis, pineapples do not belong on pizza

Elfilis, in elfilin's mind: i still disagree, you aren't changing my mind

Meanwhile

Dedede, bandana dee, and mechanic dee land in the forgotten land, and already find natural plains overrun with water, and that gorimondo, a bee, a chameleon, and a crocodile are there too

???: sorry we came so late, just had some other cases to do first

Gorimondo: gorimondo understand, chaotix have more than one case, gorimondo just glad you here

Dedede: hey! Ape dude!

Gorimondo turns over to see mechanic dee and co

Gorimondo: mechanic, you bring friends?

Mechanic dee: yuperzonis! And I guess the detectives you hired are here too?  
Just then, the bee flies over to bandana dee

Charmy: Hi there I'm charmy! Wanna be friends?

Bandana dee: you're energetic...

Vector: Well, he's quite the bundle of energy. Anyways, im vector, and thi is espio!

Espio: hello

Dedede: Nice to meet you guys, im dedede, the self proclaimed king of dreamland! And this is my good buddy and advisor, bandana dee

Bandana dee: don't worry, he doesn't even really try to rule dreamland, just likes his castle

Mechanic dee: well then, me, gorimondo, silydillo, clawroline, and leongar will be on flood removal, you five will find the source

Dedede and vector: you can count on us!

Meanwhile

Meta knight keeps walking through the woods, until he finds another "trap". This time, it has 20 neon signs pointing at it, while saying on the sign "not a cage trap, pls get trapped this time dreamlander :(. -dark magolor". Meta knight instantly slashes the trigger in half

Meta knight: hmph, as expected, pathetic

Just then, dark meta knight jumps out from behind a tree

Dark magolor: oh come-!

Suddenly, a mirror opens, and daroach and dark matter drill are smashed against the ground, and taranza is sent flying

Daroach: welp, looks like our battle just went mirror world

Dark matter drill: oh, it's on!

The two engage into a fight, and it seems dark matter drill is a lot more focused on the battle than usual, not stopping to say something stupid. But in the end, daroach hits a heavy shot in dark matter drill's mouth, and he falls to the ground

Dark matter drill: ohhhhhhhhh noooooooooo...

Suddenly, dark matter fragments come out of the ground, and start attacking dark matter drill, but are stopped by meta knight

Meta knight: drill, you have one minute to explain

Dark matter drill: okay, uhhhh, dark matter makes an alliance with the black arms, and the boss said I was on my last try or else he kills me.

Daroach: Well then, howabout we have a temporary team?

Meta knight: no

Dark matter drill: oh yeah! That sounds way better than following one guy's orders!

Daroach: 2V1 meta, we're a team

Meta knight: fine, but don't expect me to bail you out

Daroach: fine by me

The trio group up, and start a heavy attack on the dark matter fragments. Meta knight takes down hundreds with a single mach tornado, daroach blows up a solid chunk with a fire bomb, and dark matter drill...drills. Soon, all of the fragments are beaten

Meta knight: there, we're good

Daroach: Actually, i think we should stay together, don't want to be alone now, do we?

Dark matter drill: yeah! That sounds like some free destruction right there!

Meta knight: I already regret this...

Issue 29

Elfilin is meditating in the ruins of dark matter blade's boss room, talking to fecto elfilis

Elfilin: Hey fecto?

Elfilis: yes?

Elfilin: How come you were hardly able to keep your full form when I was pulled out, but when you were in your chaos form, you didn't even need me or any member of the beast pack?

Elfilis: from what i could tell, it was because of my energy reforming in the other dimension you had fought the ultimate cup Z in.

Just then, a blade, similar to the sword ability Kirby uses, nearly hits elfilin, but just barely misses.

Elfilin: what the!?

Looking over, elfilin sees what seems to be kirby with white glowing eyes

Elfilin: k-kirby? Are you okay?

Elfilis: that is not kirby

The figure walks out of the shadows, revealing something that looks like kirby, but with pure white eyes and mouth, a strangely shadow like body, and the sword copy ability

Elfilin: ummmm, are you named...shadow kirby?

???: don't...call me that, i am nothing like that stupid, over innocent, pink puff. I am better than him.

Elfilin: Okay, then what is your name? Because if you don't tell me, i'm gonna have to keep calling you shadow kir-

Termina: its termina!

The shadowy puffball somehow shifts into a hammer ability, and goes on the attack

Elfilin: sorry! I can't fight right now!

Quickly, elfilin flies to escape

Meanwhile

Doomy (the sphere doomer) brings a few apples to the nest where sage and addeline are

Addeline: hey doomy?

The sphere doomer tilts its body a bit over

Sage: we want to assist you.

Addeline: You're scared of the grand doomer, right?

Doomy shakily nods

Addeline: Well, we know someone who can Help! His name is Magolor, and he has beaten the monster before, so he could easily beat it again!

Doomy thinks for a second, then flutters around in agreement

Addeline: okay then, let's go find magolor!

Sage: What do you know about him?

Addeline: well, he's usually around marx or in the lor starcutter, so look for ancient tech stuff

Sage: alright, i'll pick up any ancient energy signatures

Meanwhile
