

Period _____

What do RPB Need to Survive?

[illegible]

Name _____

Date _____

Period _____

Lesson Two: The Rusty Patched Bumblebee

Use your model to give an example of a living component of the Rusty Patched Bumblebee ecosystem that the population depends on for its survival. Use the interactions between these components to explain this dependence.

Use your model to give an example of a non-living component of the Rusty Patched Bumblebee ecosystem that the population depends on for its survival. Use the interactions between these components to explain this dependence.

Possible Causes for the Decline of the RPB Population and Range

Possible Causes	Mechanism
