

Dear Parents,

As part of our daily therapy sessions, we review a number of flashcard decks. These decks have been made available at Quizlet.com for your child to review at this time. Games and quizzes using this material are also available at the site. Quizlet may be used as an online website or downloaded as an app on other devices.

Enter the appropriate website from below to access study sets for your child. Once at the site, you may create an account using the Sign Up tab at the top right corner of the page. Once the account has been created, study sets are linked to your child and can be accessed by logging in at Quizlet.com or through the Quizlet app.
