

Class of “62” where are you?

LEFSA recently welcomed Jim and Karen (Wilebski) Muir to the membership of its growing lifetime list. Karen graduated from Lancaster School in 1962.

President Nicole Thompson remarked, “While I grew up here and shouldn’t be surprised by this act of generosity, I continue to be amazed by the contributions from alumni and others with a strong attachment to our community. I find it heartwarming that people that have not lived here for decades remember our little town and school enough to contribute toward our mission.”

When asked about the contribution, Karen said that “I have to admit I wasn’t at the top of my class, but I have so many pleasant memories of my time in Lancaster, the school, and the people there. I think it’s great that we have so much support for their efforts to keep the school vital and in operation. It’s tough not to want to help out in some small way. I also wanted to recognize all the contributions my brother Fred has made to the community, so this was his birthday present too.”
