Alecia Lundquist- Looking at the Land trust funds. Maybe using the money differently at the school. To be thinking about it. The money is used to help with Walk to Read. It is very important to have our students reading at grade level. Aaron talked about our Walk to Read program that is from the district. Use the money for our Chromebooks too. They need to be replaced as they get older. To watch the student grow and to use aides to have smaller groups.
