SERVING SCHOOLS IN CLINTON, MARION & WASHINGTON COUNTIES

To: Parents and Students of Transition Age

Re: High School and Post-Secondary Career and Technical Education Opportunities

Special education students enrolled in school programs, ages 14.5 through 22, each have a transition plan as a component of their IEP. This plan is updated on an annual basis and includes information regarding postsecondary Employment, Education/Training and Independent Living options and supports based upon what goals the student has set for themselves.

One component of the transition plan involves Career and Technical Education (CTE) opportunities available through the student's local school program, as well as through various college programs and other agencies.

Please refer to your local school district website for further information regarding course descriptions, dual-credit course options, related programs and services.

Career and Technical Education (CTE) Areas of Study

- Agriculture, Food and Natural Resources
- Arts and Communication
- Finance and Business Services
- Health Sciences and Technology
- Human and Public Services
- Information Technology
- Manufacturing, Engineering, Technology and Trades
- Career Exploration and Development

Area Colleges, including CTE information and Support Services

Each college website is structured in a similar manner. To locate various programs offered at the college of interest, simply click on the "Academics" tab and search various programs to learn more specific information regarding each area.
