

**Title:** Using the PBIS Framework to Build Collaboration Across All Partners

**Presenter:** Heather Peshak George, PhD

**Description:** Positive Behavioral Interventions and Supports (PBIS) is the most widely researched school-wide framework that consists of a continuum of tiered interventions to promote positive student outcomes. One of the core features of PBIS is to establish partnerships with families, students, and the community. This session will provide a basic understanding of PBIS and share resources developed by the National Center on PBIS and related state projects to enhance collaboration across partners.
