# Art Team Planner

Directions:

Answer the following questions and turn in to me. Due on April 5.

1. Based on the information you've received from the Research, Concept, and Writing Teams, what will be the visual theme(s) of your artwork? (For example, color palette, materials/media, style)

2. Why do you think that this visual theme will work best to tell the story of your subject?

3. Will you include pictures on every page? Every other page? Just some pages? Explain your reasons for your choice.

4. How will your artistic choices *complement* the text? How do they "fit" the text?

5. How do your artistic choices capture the creative essence, the life circumstances, the *vibe* of your subject?

6. How are your creative choices influenced by your subject's *music?* How is your artwork a visual corollary to the *sounds* of this particular music – rhythm, melodies, instruments used, etc?
