Highlight the first two paragraphs and click One-click Summary in the menu bar. It will summarize the paragraphs..

SMMRY is one of the tools in this list that is not a Chrome Web Extension. Instead SMMRY is what's called a **Bookmark Widget**.

To use SMMRY:

- Visit a website with an article to read.
- Click the SMMRY **bookmark widget** which will read "One-click Summary".
- You will now get an abridged version of the article with **7 sentences by default**.
- If you want more or fewer sentences, enter a new number in the sentence summary box at the top of the page.
- Optionally you can click the "Settings" button at the bottom to make adjustments such as excluding questions, exclamations, and quotations.
