Portfolio: edwardgaborno.com

**JOB OBJECTIVE:**

- Dedicated and detail-oriented Web Developer with over 5 years of experience specializing in the Laravel/PHP framework. Seeking a challenging position where I can leverage my skills in developing high-quality web applications, optimizing backend processes, and collaborating with cross-functional teams to deliver robust and scalable web solutions. I am committed to continuous learning and staying updated with the latest industry trends to contribute effectively to the company's growth and success.

TECHNICAL SKILLS**Programming Languages:**

- PHP Laravel
- JQuery
- Rest API
- Database:
 - o MariaDB
 - o MySQL
 - o Sqlite

Others

- HTML
- Bootstrap
- Tailwind
- Docker
- Server Setup for web hosting
- Git
- Technical Support (field and office, 3 years experience)

EDUCATIONAL ATTAINMENT

Bachelor of Science in Information Technology
ACLC Tagbilaran Campus
2015 - 2019

WORK EXPERIENCE

2021 to 2025 - **Software Developer at Scientific Biotech Specialties Inc.**

- Developed and implemented the Profitability Computation (PCF) Monitoring System to help the company track profitability metrics across various products and services.
- Developed a custom Inventory Management System to streamline the tracking of laboratory products, supplies, and chemicals.
- Created a Results Viewer System that allowed laboratory clients to view and analyze their test results in a secure, user-friendly platform.

2021 to 2023- **Web developer at KAZIBUFASTNET (Freelance)**

- Maintained and updated the existing web-based system used by Kazibufastnet to ensure smooth operations of core ISP services.
- Identified, diagnosed, and fixed bugs and issues across both the frontend and backend of the platform, improving the user experience and system performance.
- Developed new features and functionalities based on business requirements, improving the service delivery and client management.
- Integrated client data management features into the system, allowing internal teams to track customer status, service history, and interactions.
- Implemented and enhanced the billing system to automate client invoicing, payment tracking, and subscription renewals.
- Created custom reports to give both management and clients visibility into usage, billing, and service performance.

2020 to 2021 - **Junior Web Developer at TBL Technerds**

- Maintained and updated existing websites built with the Laravel framework, ensuring all features were functional and up-to-date.
- Customized and enhanced website features based on client-specific requirements, ensuring optimal performance and meeting business needs.

2019 to 2020 - **Lead PHP Developer at Meristone Information Technology & Services**

- Led the development of custom web applications using pure PHP, building a robust system to manage concret printer products, sales, and customer data.
- Wrote complex SQL queries and optimized database performance, ensuring the smooth retrieval and management of large datasets for both the frontend and admin panel.
