

Dear all,

NCUC EC is reaching out in order to correct an recent travel funding and CROP Slot allocation that was announced on this list.

As the EC was going through the applications for the PIR travel funding to ICANN63, the allocation turned out to be a tough decision given the quality of the applicants. And, as we were finishing the deliberation, there was a confusion about the final voting tallies and the deliberation being allegedly concluded when it was not.

Also, the announcement implied on one of the NCUC CROP slots allocation. We decided to retract this one based on the fact that there was no open call for this slot (as per our Operating Procedures requirement) and believe it would not be fair to give it to a member without the knowledge of our members about the possibility.

Due to the above mentioned mistakes, we retract the previously announced allocation and would like to inform that the PIR Funded travelers, as per the EC decision are:

- Shahul Hameed

- Dina Thomas Covenant

NCUC EC apologizes for the confusion and especially to those affected by the precocious announcement of the allocation. And congratulates the selected travelers.

Best,

--

NCUC EC
