

1. As a FirmManager I want to open "Create view" Page, choose Firm Report/Client Report options by clicking on Radio Icon "Report Type" component, so that I can set Report View viewcontext.
2. As a FirmManager I want to open "Create view" Page, choose between CVS/PDF/XLS options by clicking on Radio I can "Format" component, so that I can set Report View format.
3. As an Advisor I want to open "Create view" Page, click on Save button, so that it takes me to Report Builder Page.

Молодец :)
