How will partner organizations be assigned?

Corps Members will be assigned to one of over 50 community-based organizations that serve residents impacted by the pandemic. Our partner organizations work remotely, in person, or both (hybrid). We will share information on our partner organizations, including descriptions of work duties, schedule requirements, locations, and onboarding requirements. Participants will select their top organizations of interest. We will do our best to match students based on their preferences, availability permitting.

How will my work schedule be decided?

Students will schedule their work hours based on any schedule requirements at their assigned partner organization.
