Informed Consent: Australian Educational Technology Trends

GU Ref No: 2018/282

This research has been commissioned by the Australian Council for Computers in Education and supported by the CSIRO (Digital Careers) and is being conducted by:

Jason Zagami (Griffith University) (Lead Researcher)

The research aims to identify:

1. Technologies related to the teaching Digital Technologies (F-10) and Senior CS Curriculum in Australian schools;
2. Educational Technologies related to the diffusion of ICT General capabilities (students), instructional (teachers), and organisational (school) Technologies in Australian schools;
3. Challenges related to Educational Technologies in Australian schools; and
4. Trends related to Educational Technologies in Australian schools.

The purpose of the research is to provide teachers, school leaders, governments and industry with guidance to direct priorities related to Educational Technologies in Australian schools.

Your research participation can include contribution of ideas and ranking of technologies, challenges and trends in computing curriculum and use of educational technologies used in Australian schools.

Risks to participation is limited to public representation of the consensus derived by all participants. All contributions and discussion during the research process will be anonymous to other participants, and if you decide not to be included as an author of the final report, no identification of your involvement will be public.

By submitting responses to the surveys and contributing to the anonymous group discussion, you acknowledge that your contributions may be used in research into Australian Educational Technologies Trends and that your contribution will form part of a group consensus, and that this consensus may be attributed to you as a contributing author in published research. If concerned you may use a pseudonym or request at any stage to have any contributions made de-identified or removed from the project.

The conduct of this research involves the collection, access and use of your identified personal information. This identified personal information is confidential, accessible only to the lead researcher and research assistants, and will not be disclosed to third parties without your consent, except to meet government, legal or other regulatory authority requirements. All personal information will be deleted once the report is produced. All other project data will be de-identified and securely stored permanently in an online open data repository, a copy of this data will also be made publicly available on the project website and may be used for other research purposes. However, your anonymity will at all times be safeguarded, except where you have consented otherwise. For further information consult the University's Privacy Plan at
http://www.griffith.edu.au/about-griffith/plans-publications/griffith-university-privacy-plan or
 telephone (07) 37354375.

All contributions and anonymous discussion conducted on the project website will remain publicly accessible and research publications and reports resulting from the research accessible through the project website

By submitting contributions to the project via online forms or participating in the anonymous idea refinement discussion group, you confirm that you have read and understood the information above and in particular have noted that:

● You understand that your involvement in this research may include submission of ideas to the project website, and participating in an anonymous idea refinement discussion group;

● You have had any questions answered to your satisfaction;

● You understand the risks involved;

● You understand that there will be no direct benefit to you from your participation in this research;

● You understand that de-identified data from this project will be made publicly available;

● You understand that your participation in this research is voluntary;

● You understand that if you have any additional questions you can contact the research team;

● You understand that you are free to withdraw at any time, without explanation or penalty; Please contact j.zagami@griffith.edu.au to withdraw from the project.

● You understand that you can contact the Manager, Research Ethics, at Griffith University Human Research Ethics Committee on 07 37354375 (or research-ethics@griffith.edu.au) if you have any concerns about the ethical conduct of the project citing GU Ref No: 2018/282; and

● you agree to participate in the project.
