  - i. Classroom Batteries - ask of PTA this fall
  - ii. Generator this September from Upton
  - iii. The Starlink services are active, this network can be used as an Emergency Network should the power go out. Here are some details to have as a reference:
  - iv. **Capabilities of Starlink:** Internet connection for front office staff through wireless connection. Access to the internet will allow external communication through internet, email and Parentsquare.
  - v. Wireless Coverage: Main office building, and the two rows of portable classrooms by the office although performance would be degraded as you move to the perimeters.
  - vi. The router is connected to the power bank, should the power go out, the power bank will be able to support powering the Starlink Network to support internet communications.
  - vii. We are still looking into installing the enterprise version that requires additional parts.

VII. Recommendations/Reflections/Calendar Notes

VIII. Adjournment

Next meetings: May 15 (Adopt new SPSA, discuss fire hazard findings), and June 5 (If needed)
