Nash Community College

CREDIT FOR PRIOR LEARNING HANDBOOK

An overview of the processes for awarding college credit for non-traditional learning. These credits apply to certificate, diploma, and degree programs at Nash Community College (NCC). These credits may or may not transfer to other colleges or universities pending review by each educational institution.

Last Revised: 3/29/23
SLT Approved: 9/12/22

Available online at www.nashcc.edu

Nash Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees. Degree-granting institutions also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Nash Community College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

Table of Contents

Introduction

Credit for Prior Learning (CPL) provides the opportunity for students at Nash Community College (NCC) to be awarded college credit based upon knowledge and skills gained outside of a college classroom. It validates what students have already learned and can reduce the number of courses needed to complete a certificate, diploma, or degree. By eliminating duplicate coursework, CPL can shorten the time required to earn a credential and reduce tuition costs.

The purpose of this handbook is to assist students, faculty, and staff by introducing the various methods available at NCC for obtaining credit for college-level work obtained outside the traditional classroom experience. Students may earn college credits from learning experiences such as military service, industrial or corporate training programs, apprenticeship programs, and successful completion of standardized exams (i.e., AP, CLEP, DSST).

Prior learning credits are aligned with specific NCC courses. The amount of credit awarded is determined using the North Carolina Community College System's Combined Course Library. Faculty, Directors and Department Chairs in cooperation with the Vice President of Instruction, will determine which courses will be approved based on the learning experiences outlined by the student.

Per NCC procedures, students must complete a minimum of 25 percent of hours required for a degree as a curriculum student at Nash Community College. Students must complete 50 percent of hours required for a certificate or diploma as a curriculum student at Nash Community College *unless one of the following conditions is met:*
- the student is using CPL obtained through non-credit coursework completed at Nash Community College. Students may use CPL obtained through non-credit studies at Nash Community College to satisfy up to 75 percent of a certificate, diploma, or degree program.
- the student is using CPL obtained through credit or non-credit experience that is associated with a recognized state or national licensure program. Students may use CPL through such experiences to satisfy up to 75 percent of a certificate, diploma, or degree program.

If you have questions about how non-credit studies or external licensure counts toward completion of a certificate, diploma, or degree, contact the Chief Academic Officer for assistance.

Credit Sources

Credit for Prior Learning may be awarded through:

A.   College-Level Examination Program (CLEP).

CLEP is a program that offers the student the opportunity to earn college credit for knowledge acquired outside the conventional classroom. College-level competency may have been acquired through personal reading, formal study, job experience, non-credit course work, television-taped courses, correspondence courses, military training, adult courses, and advanced studies in high school. Questions regarding the CLEP Testing Program, score requirements, and credit should be directed to the Registrar.

B.   Subject Standardized Tests (DSST)

DSST (formerly DANTES Subject Standardized Tests) are credit-by-examination tests originated by the United States Department of Defense's Defense Activity for Non-Traditional Education Support (DANTES) program. The program is an extensive series of 38 examinations in college subject areas that are comparable to the final or end-of-course examinations in undergraduate college courses. These tests are frequently used in conjunction with CLEP tests by students pursuing college degrees in non-traditional formats. Whereas CLEP tests are almost exclusively used for lower-level credit at regionally accredited institutions, DSST's are available for both upper and lower-level credit. Questions concerning score requirements and credit should be directed to the Registrar.

C.   Advanced Placement (AP)

The College Board sponsors an advanced placement program that enables high school students to complete college-level courses while still in high school, to demonstrate college-level achievement through examinations, and to receive college course credit when they matriculate to an institution of higher education. Questions concerning score requirements and credit should be directed to the Registrar.

D.   Credit by Examination

Under certain conditions, a student may be awarded credit by taking departmental proficiency examinations and/or standardized tests in a particular subject area. Applications for credit by examination should be completed at least two weeks prior to the test administration. A student is eligible to take only one examination per course.

A student seeking credit by examination must follow the guidelines published in the Credit by Proficiency Exam Procedure.

E.   Published Guides

The American Council on Education (ACE) Guide to College Credit for Workforce Training contains ACE credit recommendations for formal courses or examinations offered by various organizations, from businesses and unions to the government and military.

F.   Portfolios (Work Experience)

A portfolio is an organized collection of essays and documentation demonstrating a students' learning through work and life experiences. Through the portfolio, students' show that the knowledge they have gained through experience is equivalent to college training. See Appendix C for instructions.

G.   Industry Standard Certifications

These certifications reflect current industry standards for which NCC has determined course equivalencies and credits. Upon submission of official documentation, an evaluation will be conducted and applicable credit may be awarded to the student's transcript.

Credit for Prior Learning Procedure

Students interested in applying for CPL should complete the following steps:

1. Consult NCC's current online catalog and review the course requirements for your certificate, diploma, or degree program. Identify any courses for which you feel you have relevant, equivalent college-level experience.

2. Contact your program lead instructor to discuss the different methods and steps for requesting CPL (see Appendix E).

3. Determine which methods you wish to use to obtain CPL credit.

4. If you choose standardized testing, contact the Registrar's Office for testing details.

5. If seeking credit from published guide sources, contact the Registrar's Office for verification details.

6. If pursuing portfolio credit, consult with your program lead instructor to identify an acceptable subject matter expert to evaluate your portfolio. *

7. If pursuing the Credit by Examination option, obtain the Credit-By-Examination Request from the Registrar.

8. If pursuing credit via industrial certifications, consult with your program lead instructor to determine the courses for which you may be eligible for credit.

*Cost/fees for these evaluations/exams to be determined by NCC at time of request.

Career Technical Education (CTE) Exams

Note: To receive articulation credit, students must enroll at the community college within two years of their high school graduation date and meet the following criteria:

1. Final grade of B of higher in the high school course.
2. Score of 93 or higher in the standardized CTE post-assessment.

For more information see NC High School to Community College Articulation Agreement.

Per Current Articulation Agreement

Program Name	High School Course	NCC Equivalency	Hours

Automotive Services Excellence (ASE) Certifications

Credit should be awarded to prospective students who have passed 1 initial certification and 1 recertification. This ensures students have completed a minimum of 6 years of work experience in the area they wish to receive credit. Most manufacturers offer brand specific training and should be examined on a case-by-case basis but should not be used to eliminate initial ASE testing.

ASE Certification	NCC Equivalency	Hours
G1 – Auto Maintenance and Light Repair	TRN 110 - Intro to Transport Tech & AUT 213 - Automotive Servicing 2, TRN 170 - PC Skills for Transp.	6
A1 – Engine Repair	AUT 116 - Engine Repair and AUT 116A - Engine Repair Lab	4
A2 – Automatic Transmission/Transaxle	AUT 221- Automotive Transmission/Transaxles and AUT 221A – Automotive Transmission/Transaxles Lab	4

ASE Certification	NCC Equivalency	Hours
A3 – Manual Drive Train & Axles	AUT 231 - Manual Transmission/ Transaxles and AUT 231A - Manual Transmission/ Transaxles Lab	4
A4 – Suspension and Steering	AUT 141 – Suspension & Steering Systems and AUT 141A – Suspension & Steering Systems Lab	4
A5 - Brakes	AUT 151 - Brake Systems and AUT-151A Brake Systems Lab	4
A6 - Electrical/Electronic Systems	TRN 120 – Basic Transp. Electricity, TRN 120A – Basic Transp. Electrical Lab, and TRN 145 Adv. Transp. Electronics	9
A7 – Heating & Air Conditioning	TRN 140 - Transp. Climate Control and TRN 140A - Transp. Climate Cont. Lab	4
A8 – Engine Performance	AUT 181 - Engine Performance 1, AUT181A - Engine Performance Lab, and AUT 183 - Engine Performance 2	8
L1 – Advanced Engine Performance Specialist	AUT 281 – Advanced Engine Performance	3
Safety and Emissions	AUT 114 – Safety and Emissions and AUT 114A – Safety and Emissions Lab	3

In addition to ASE Certifications, the following Continuing Education classes should apply: AUT-3129ASI – Auto Safety Inspection and AUT-3129ASI – Auto Safety OBD Emission.

Licensed Practical Nurse (LPN) to Associate Degree Nursing (ADN) Transition Program

The LPN to ADN Transition program at NCC offers students who have completed the Licensed Practical Nursing diploma the ability to utilize their education and work experience to finish the Associate Degree Nursing program in four semesters. To be considered for the program, students must have a valid LPN license and meet other admissions requirements. Students accepted into the program are given credit for NUR-111, NUR 112 and complete ADN course sequencing with their cohort.

Nursing License	NCC Equivalency	Hours
Unencumbered LPN license	NUR 111 NUR 112	8 5

Certified Welding Industry (CWI) Certification

Credit should be awarded to credentialed students who have passed their initial certification and a minimum of one recertification. This ensures students have completed at least 6 years of certified work experience in the area they wish to receive credit for. Students applying for Credit by Examination for noncertified welding courses (ex. WLD-110) are required to have a minimum of five years of work experience.

Certification	NCC Equivalency	Hours
AWS Weld Certification (CWI) 1-G, 2-G 3/8"> Plate Test	WLD 115 AB SMAW (Stick) Plate	3
AWS Weld Certification (CWI) 3-G, 4-G 3/8"> Plate Test	WLD 115 BB SMAW (Stick) Plate	2

NC Hazardous Materials Operations Level I Responder Certification	S-Satisfactory	FIP 176	4
Fire Officer I Certification	S-Satisfactory	FIP 220	3

Process:

Students who have completed Continuing Education courses that qualify for Credit for Prior Learning must successfully complete the class through Continuing Education with a grade of "S" for satisfactory. The chart within Appendix B displays the Continuing Education classes that currently qualify for Credit for Prior Learning credit within curriculum and the number of hours which will be awarded.

Successful completion is based upon the competencies learned within the class whether it be a parallel course built identical to the Curriculum class or a Continuing Education class that satisfies the competencies of a curriculum class. Classes that are eligible for non-credit to credit articulation must have the same learning outcomes, hours, and instructor credentialling process as the equivalent for-credit curriculum course. Students seeking CPL for non-credit coursework must obtain a numerical grade in the class that would be equivalent to a passing grade in the equivalent for-credit curriculum course.

The instructor of record for any of the above class sections is responsible for attesting to achievement of a numerical grade in the Continuing Education class that would be equivalent to a passing curriculum grade for each student eligible for Credit for Prior Learning. This attestation should be submitted to the Chief Academic Officer for final approval of Credit for Prior Learning.

Appendix G

Portfolio Credit

A portfolio is an organized collection of essays and documentation demonstrating learning through training, work, and life experiences. Through the portfolio, you show that the knowledge gained through experience is equivalent to college training. In gaining academic credit through your experiences outside the college classroom, students must be able to identify and document your experiences and learning.

The first step should be to meet with the instructor and the program lead instructor for the course for which you credit is sought. The syllabus, learning outcomes and learning objectives for the course in question will be examined. The portfolio will need to describe and present evidence of your past learning that meets the course objectives outlined in the syllabus.

Items to be included in a portfolio may include but are not limited to:

A. Expanded resume to include educational background and experience, employment history, relevant specialized training, relevant life experience, and references.

B. A personal essay that explains long-term career goals; what was accomplished; what is left to achieve; the knowledge and competencies gained through experiences and how that relates to course learning objectives; and how the portfolio supports the goal of attaining the chosen degree.

C. Supporting documentation which includes any evidence to support the claim of meeting the course learning objectives.

D. Any additional information required by the course instructor.
Reference: Portfolio Example by clicking (here).
