

Pacific Grove Athletics Department Mission

Selflessness, dependability, and toughness are the core values behind Breaker Athletics that have created historical seasons. The Pacific Grove High School Athletic Department is committed to instilling these values as vital components of a student-athlete's overall education. Individual and group responsibility, mental and physical resilience, and the desire to achieve high goals should be basic objectives of any sound educational system, and Breaker Athletics is no different.

We believe that through athletic practice and competition, our students develop and build the qualities and character necessary for success in sport, excellence in the classroom, and to become selfless community members.

Vision

We want to be a beacon of PRIDE in the athletic world. We want to create an exciting and entertaining program that belongs to the community, student body, teachers, parents, and school. We can all rejoice in the rewards of hard work.

STUDENT ATHLETES

The PGHS Athletic Department has clearly defined standards in regards to expectations for athletes on and off the field. Some of these standards are represented in the California Interscholastic Federation and Central Coast Section program of 'Victory with Honor' and sportsmanship. The first thing to remember is the word STUDENT. The goal for student-athletes is first and foremost education. Those not dedicated to this goal will need to meet this standard to participate. Through support and motivation we want to create Champions in the Classroom.

It's a great day to be a Breaker!
