The project must show your leadership of others, not just you doing all the work alone. Your community needs a beneficiary to accept the project.

An Internet search can reveal hundreds of service project ideas. Your project does not have to be original, but it could be. It might be a construction, conservation, or remodeling project, or it could be the presentation of an event with a worthwhile purpose.

Conversations with your unit leader, teachers, your religious leader, or the leaders of various community organizations can also uncover ideas.

The project should present a challenge that requires leadership, but also something that you can do with unskilled helpers, and within a reasonable period of time.

Your Scoutmaster needs to approve your project.
