Title : Insurance Policy

Number: 3320

Status: Active

Adopted: July 2015

INSURANCE POLICY

- Please note that as with all schools, TJCA-CFA carries only the insurance policies required by the state and the North Carolina High School Athletic Association for catastrophic coverage. These insurance policies are not considered health insurance and do not cover most fees for injuries that may occur on school grounds, during athletic events, and on field trips.
- **Parents please note that your health insurance policy is always the primary coverage for your child.**
- If you are concerned about your primary coverage, families are urged to purchase private supplemental insurance coverage for accidental injury. Application fliers for one such option through K&K Insurance are available for you in the school offices and on the website. Please go to www.studentinsurance-kk.com for more information. The insurance is offered at reasonable prices per school year and must be renewed yearly through this or other private insurance companies that you may choose. All students participating in interscholastic sporting activities must complete the insurance option form on [this page](#).
