School of Art and Design

Course title	Notes
BA (Hons) Design for Film and Television	Course has had changes approved in the Curriculum Refresh programme, which includes seven expectations focusing on sustainability and social responsibility.
BA (Hons) Fashion Design	Includes a strong underlying awareness of commerciality, sustainability and technologies. Students will gain knowledge on incorporating design responsibility attitudes and values in their practice, including social and ethical ideals.
MA Fashion Design	As part of the course students are expected to consider sustainable sourcing, design, such as upcycling and zero waste, and manufacturing practices, in support of ethical fashion practice. Irrespective of the student's specific project aims, they are expected to demonstrate ethical awareness and an understanding of the impact that your fashion designs can have on the environment.
MA Textile Design Innovation	Student projects address innovation from a sustainable design perspective, by addressing the recycling and upcycling of discarded fashion and textiles, investigating renewable yarns and materials, or by incorporating the skills and needs of local or global crafting communities. Whatever direction their project takes, it is crucial that they evidence ethical awareness and an understanding of the impact that textiles or materials can have on the environment.
MA Culture, Style and Fashion	Students will develop a deep understanding of the political, social, environmental and ethical implications of style culture. Interrogating and articulating relationships between image and style and issues such as ethical/sustainable design and consumption, social relations and/or cultural politics in their work, considering local and global contexts.
MA Fashion Communications	By the end of the course all students are expected to utilise an ethical approach to the development of entrepreneurial and sustainable strategies.
MA Fashion Marketing	By the end of the course all students are expected to utilise an ethical approach to the development of entrepreneurial and sustainable strategies.
MA Fashion and Textile Design	Students are expected to engage with sustainable sourcing and production practices, in support of the growing demands of customers and the ethical direction/considerations of the global fashion and textile industry.
BA Textile Design	Course includes the Sustainability in Practice Certificate embedded in the core curriculum.

Example of Courses/Subjects Related to Sustainability (Nottingham Trent University, UK)

Description:
(*Please describe sustainability courses/subjects **offered** on your campus. The following is an example of the description. You can describe more related items if needed*.)

Above is a list of the courses that have had changes approved through NTU's Curriculum Refresh programme which aims to embed sustainability into all course and module content offered by the University.
The list also includes courses with sustainability already embedded, and those that include the Sustainability in Practice Certificate as part of the core curriculum.

Total number of courses with sustainability embedded for courses running: 185
