

Tip any token when you like, comment, post to share 4.5M Points

1 Part 01 - Creating on-chain content

Anyone can participate without connecting a wallet. Simply open X and post content with [#BNBChainTurns5](#) to participate in this activities.

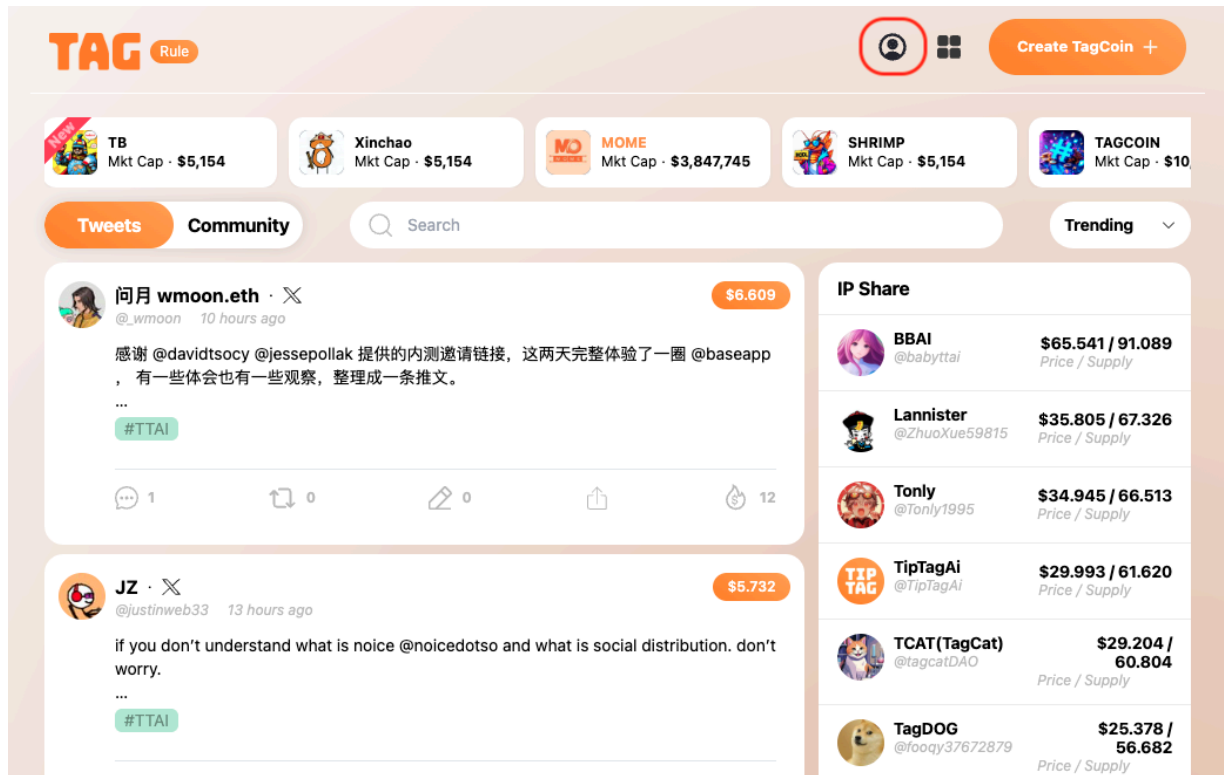

TagAI's social oracle will help creator synchronize their content on-chain and distribute \$BNB and TagAI Points to creator based on the Proof-of-Brain mechanism.

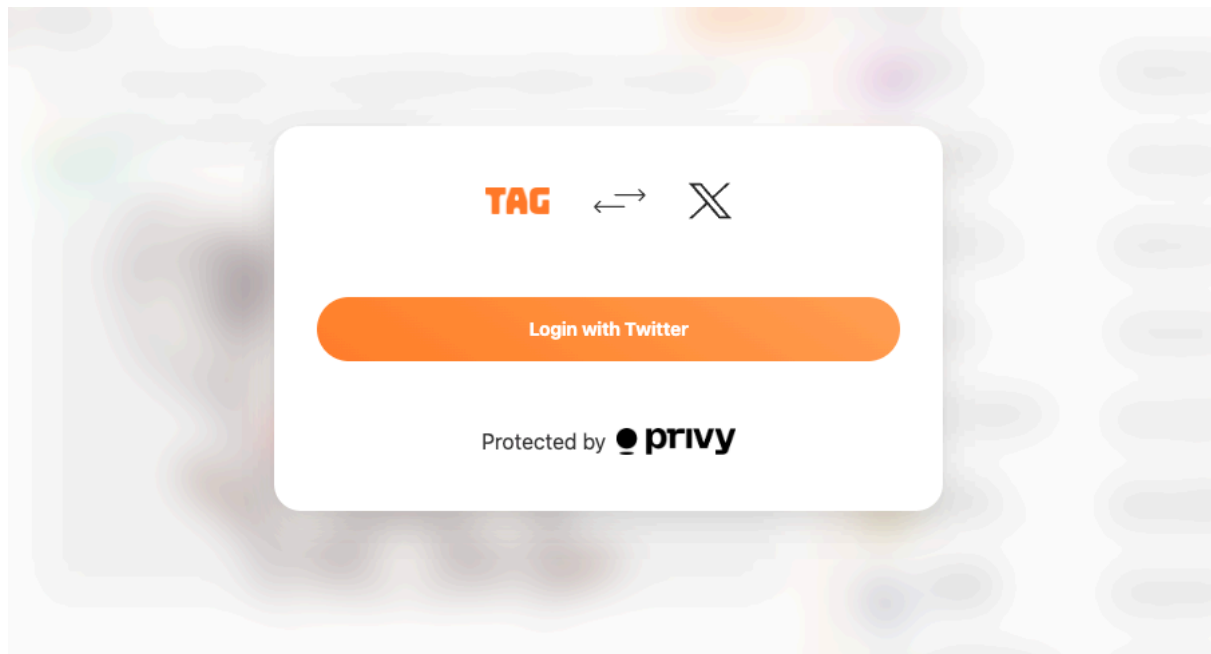

Participants can log in to [tagai.fun](#) and link their wallet address to receive \$BNB rewards. Refer to steps 1-5 of Part 02.

2 Part 02 - Curate content on X and tip token

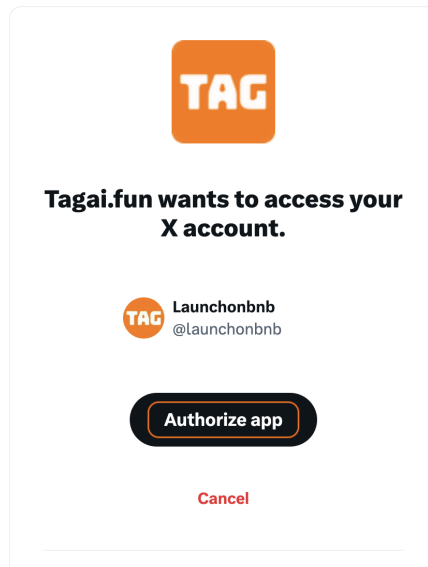

1. Open the TagAI (tagai.fun) and click Profile in the top right corner (bottom right corner on mobile).

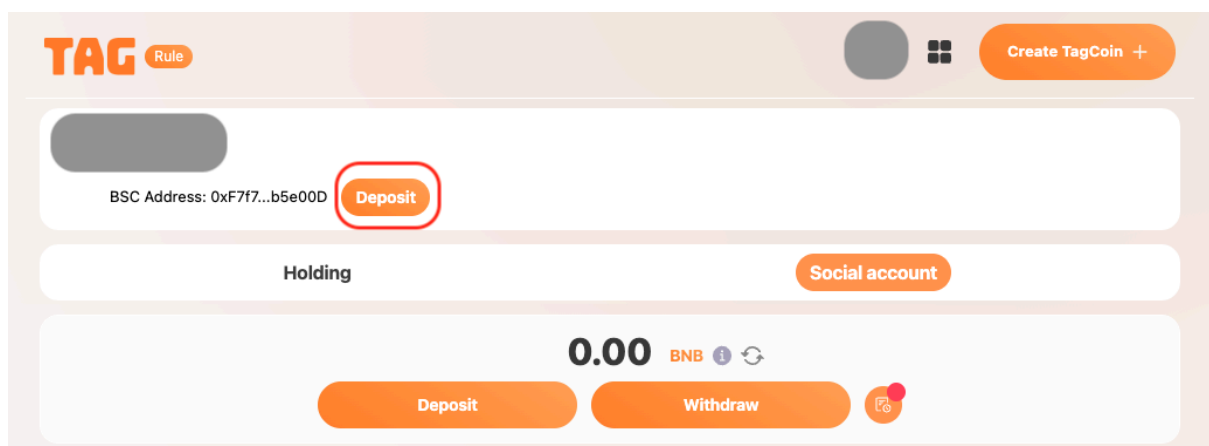

2. A page for Twitter login will appear. Click “Login with Twitter”.

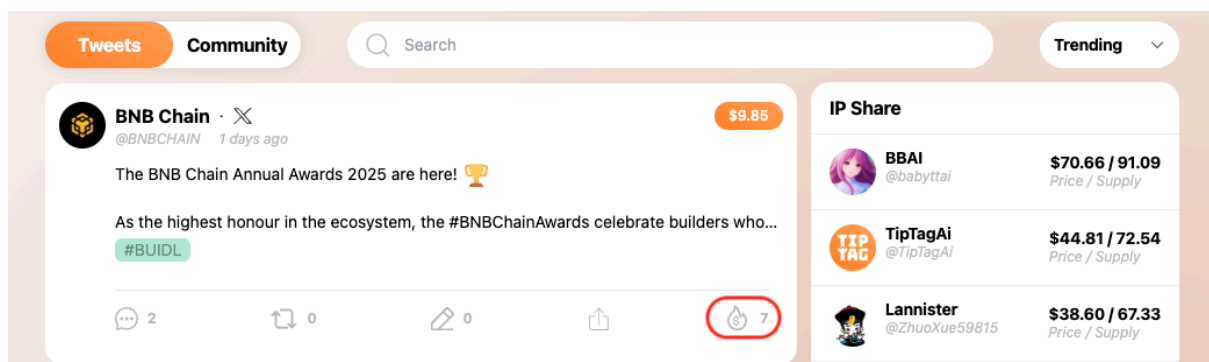

3. The Twitter authorization page will pop up. Click “Authorize app” to authorize your login to TagAI. After a short wait, the login will be successful.

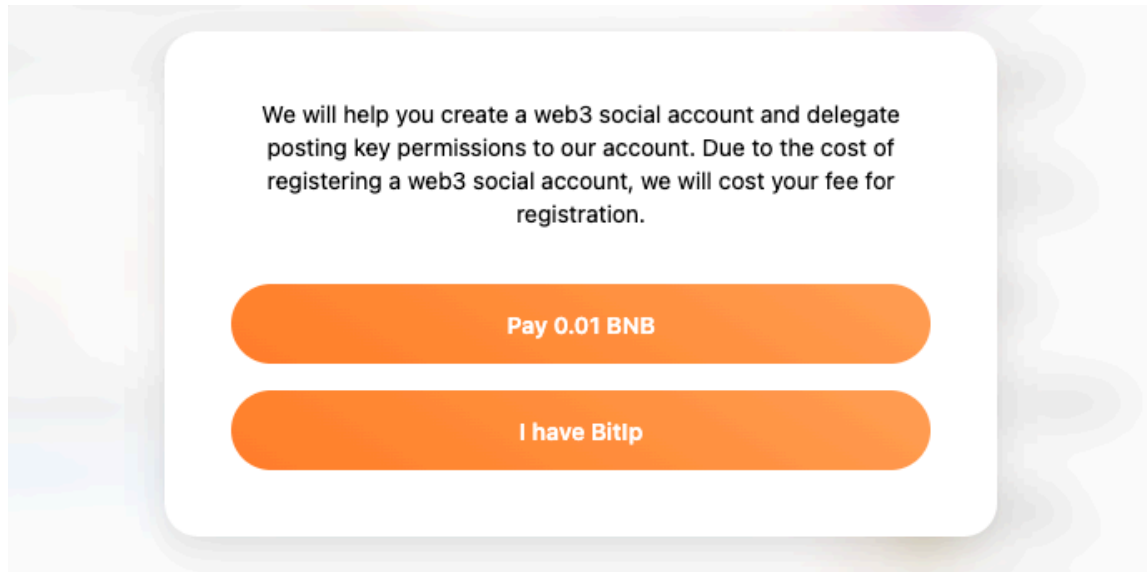

4. Once logged in successfully, you will see your wallet account. Click “Deposit” and transfer a small amount of \$BNB into your wallet.

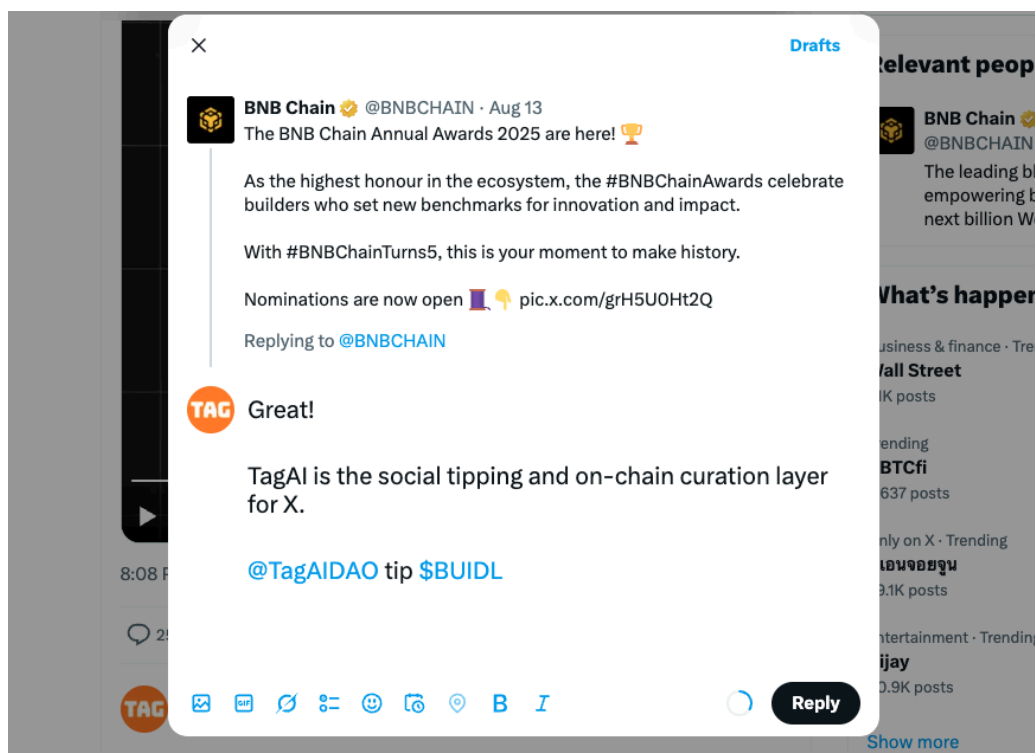

5. Tap the "🔥" button under any TagAI content. A prompt will appear asking you to register a web3 social account.

6. Choose the method that suits you and register a web3 social account. If your Twitter score on TagAI is high, you won't need to pay — the process will be handled automatically here.

7. Open X and comment on any tweet with “@TagAIDAO tip \$BUIDL”.

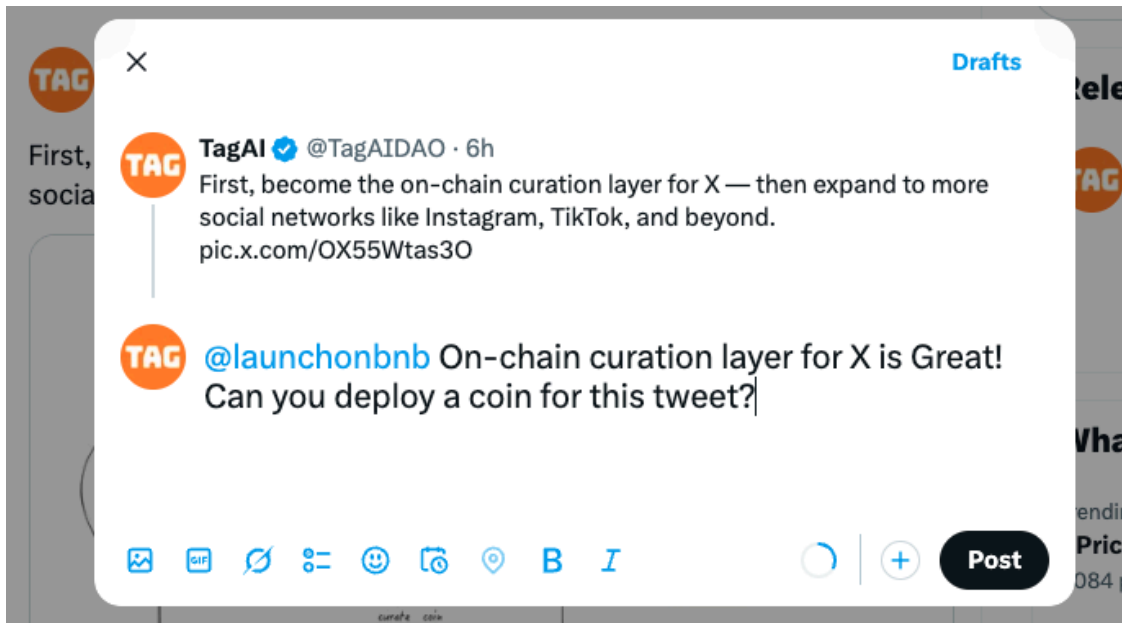

Note:

A. The creator of curated content will receive some \$BUIDL. If your address holds \$BNB, \$BUIDL or \$BNB-\$BUIDL lp tokens, you will also receive \$BUIDL.

B. You also can tip other tokens listed on TagAI on X by leaving a comment with “@TagAIDAO tip \$BEP20”.

3 Launch topic token under any tweet

1. When X user view tweet, they finds a potentially popular tweet, and then replies it with "@launchonbnb..."

2. @launchonbnb's AI will deploy topic token based on the original tweet.

Note:

A. Based on the user's social reputation and the popularity of the tweet, a certain number of tokens will be traded at the time of token deployment.

B. When topic tokens are traded on TagAI, 1% of the tx fee will flow into the user's social token — IPShare. X user will also earn income from IPShare transactions.

***reward system & rule**

1. Task 1&2

A. reward - task 1 ~ 0.6M points; task2 ~ 2.4M points

B. rule

Credit ~ \$BNB holde + \$BNB-\$BUIDL lp token + IPShare TVL

Proof-of-Brain ~ <https://tagai.gitbook.io/tagai-cn/she-jiao-da-shang/proof-of-brain>
