

HSO Framework

SL: From absolute **annihilation** to absolute **conquest**

Years of searching finally paid off...or so I thought.

I had found the woman of my dreams, a new house.

I put all my energy and effort into renovating it and building the future of my dream with her at my side

Until that one day that changed everything.

She was already waiting for me when I came back home from work.

I could tell by the look in her eyes that something was wrong.

My view wandered over some packed suitcases.

A suffocating feeling spread through my chest as if I already knew what was going to happen next.

Her cold eyes stared directly into mine as she numbly announced the end of our relationship.

She had someone else with whom she wanted to spend her life.

My body froze as if it was into ice, and not a word passed my lips.

I could not think, and did not know how to act.

Wordlessly I took the suitcase and disappeared.

I was betrayed by the person I trusted the most

I was used by the only one I had ever truly loved.

My heart and my mind broke into infinitely small pieces.

I was left with only 2 options

Either collapse, numb myself with substances...

Or create an iron will that would let me become the most successful version of myself.

To overcome any future obstacle.

To make sure that nothing like this will ever happen to me again.

That no one can hurt me in any form whatsoever.

Absolute **doom** or absolute **success**.

A decision I had to make.

Fortunately, I found a way to choose the latter option and create an indomitable will.

An indestructible determination and unparalleled success!

[Let me show you how I rose, like a phoenix from the ashes](#)
