

CCC Request for groups.io subscription The Coordinated Campaign Committee approved by consensus this week a proposal to make use of the premium features of Groups.IO to make the online Candidate Community more robust and to allow for subgroups of the account to be created for networking, organizing, training, and even the conducting of CCC Business off of the two Pair list serves.

I ask that approval of a disbursement of \$320 be on the agenda for the Oct 22 Steering Committee meeting to fund premium subscription to [Groups.io](https://groups.io) through 2024. The cost is \$20/month; CCC actually launched a trial run of the premium subscription two months ago, while we considered the proposal referenced in the above paragraph.

I will be in attendance at the Oct 22 SC meeting and will be available to answer any questions that SC members may wish to ask me.

Respectfully,

Scott LAUGENOUR
Co-Chair, Coordinated Campaign Committee
