

Privacy Policy

Date of Manifest: June 25, 2026

USER COMPLIANCE NOTICE: RECREATIONAL PUZZLE ONLY

Lakshmi Animals Treasure operates exclusively as a casual, non-commercial match-3 puzzle simulation platform designed for general audiences seeking entertainment and cognitive relaxation. Under no circumstances does this application incorporate, support, or permit real-money gambling, wagering, or financial betting mechanics of any kind. There are absolutely no systems built into the software to generate, earn, or withdraw real-world legal tender, cash returns, or physical prize distributions. All animal tiles, collection high scores, treasure points, and level progression metrics displayed inside the app are strictly virtual elements with zero real-world economic worth, rendering them non-transferable and non-convertible.

Clause 1: Our Absolute Operational Boundaries Regarding Your Privacy

We operate **Lakshmi Animals Treasure** under a strict philosophy: what we do not need, we never request. Therefore, this Privacy Policy enforces a total data-exclusion mandate.

- **We Do Not Profile You:** Our system does not build digital identities. You will never encounter account creation prompts, social networking sync options, or login screens while swapping your animal tiles.
- **We Do Not Intercept Private Assets:** Our binary package completely lacks the technical routing to read, store, or transmit your legal identity, email addresses, contact details, telephone numbers, or hardware location trackers.

Clause 2: Local Hardware Variables (What Stays On Your Device)

To maintain fluid gameplay, timed level tracking, and colorful visual animations, the application communicates solely with your local device environment without gathering private info.

- **Sandboxed Environment:** Any indicators regarding your highest puzzle score, completed level milestones, volume preferences, and countdown timer records are written directly into your phone's local sandbox memory.
- **Zero External Relays:** These operational metrics are never uploaded to external cloud storage servers. We do not extract device-specific marketing serial codes (such as your Android Advertising ID or IMEI parameters) to monitor your behavioral tendencies across the mobile ecosystem.

Clause 3: Definite Rejection of Background Surveillance and Advertising

We focus entirely on delivering a clean, casual entertainment experience. For this reason, we enforce a strict privacy environment:

- No analytical tracking scripts or background tracking telemetry are operational within our game files to observe what you search or which apps you use.
- No commercial ad-network integrations, promotional SDKs, or marketing attribution frameworks are present to display banners or pop-up offers during your puzzle sessions.

Clause 4: Complete Alignment with Juvenile Protection Mandates

Because our software possesses zero data-harvesting capabilities, this Privacy Policy naturally complies with the strict provisions of the Children's Online Privacy Protection Act (COPPA) as well as equivalent international minor protection codes. We do not knowingly, intentionally, or accidentally gather data from minors under 13 years of age.

Clause 5: Privacy Policy Revisions

To maintain constant synchronization with global application distribution storefront protocols, this Privacy Policy may be adjusted occasionally. Every modification becomes binding immediately upon its publication on this digital page, updated with the fresh document date at the top.

Clause 6: Contact Information

If you require direct assistance or formal technical clarification regarding our zero-data operational structure, please submit your inquiries to our designated team:

- **Official Support Email:** [entryterm@gmail.com]
