

## Fast Rust Task

### Task

Work on this Doc together with a partner.

What 3 ingredients are needed for rust to occur.

--	--	--

Write a brief paragraph explaining the rusting process (why rusting occurs)

--

How could you prevent something from rusting?

--

Write 3 sentences explaining something new you've learned from this reading.

--

Write down any new words you found in Fast Rust or the [article about rust](#). Make sure you learn what the word means and write down a definition you understand for each new word.

Word	Definition
Corrosion	A breaking down of materials due to a chemical action like rusting.

Create a [word find](#) that includes your new words found in the journal or article.
