

Community Internship Interest

Hello, local community member. We have a class at PHS where we send students out into the world to immerse themselves in their chosen career path. This program is a success due, in large part, to the help of community members like yourself.

Would you be interested in helping us with this vitally important program? If you are interested, please share the information requested below. We can then match you with students interested in your line of work.

Thanks in advance for your willingness to help students 😊

FAQ's about Palmyra's Internship Program

Q: What is the internship program?

A: A junior or senior student may go out into the community during a block of their schedule and get real-world experience in their chosen career objective

Q: What is the role of the student?

A: The student and mentor will communicate and decide the anticipated job duties/ responsibilities that the student will perform. We ask that together 4 goals be set at the beginning of the internship and worked on throughout the semester. *Job responsibilities should be related to the career interest of the student and should focus on learning and growing in that specific career field.*

The student will need to obtain 100 hours in the semester and provide transportation to and from their internship.

Q: What is the role of the mentor?

A: The mentor will guide the student with job responsibilities and soft skills to be successful in a career. The mentor will need to evaluate the student twice a semester and keep an attendance log to compare with the student's log at the end of each quarter.

Q: Are you ready?

A: You can impact the future of your career, by training and helping a future student in that field. We hope that you will consider this opportunity and say YES to empowering a student and making a sound investment in the youth of today's future.

Learning By Doing!!
