Business Analytics with Google BigQuery (Tue, 25th Aug, 5PM - 7PM)

Turnip Innovations is conducting a workshop webinar on **Business Analytics with Google BigQuery**. BigQuery is a PetaByte Scale Data Warehouse that caters to a wide range of Business Analytics Functions. Participants will get hands-on experience with Data Warehousing and Analytics with BigQuery. This workshop is friendly for complete beginners as well as data professionals.

Date and Time: **Tuesday, 25th August, 2020, 5PM - 7PM**
Pricing: **Rs. 100/- including e-certificates**
Registration, Payment and More Details: **https://forms.gle/vtJFGFMnSZ5oDk4w6**

About the Speaker

The webinar will be conducted by Dr. Rahul Kapoor who is the Data Architect of IPGRAM - A Global Intellectual Property Database that houses 100+ million patents from 100+ countries. IPGRAM Platform is built upon a host of cloud services including SQL, BigQuery and more. Its data warehouse comprises over 1 billion rows of data and offers real time Business Intelligence.

We look forward to having you at the Webinar! **Please forward the email to interested students, faculty, professionals, relevant Whatsapp groups** or write to me at yukta@turnip.co.in for any queries.

Best Regards,

Yukta Gupta,
Marketing Manager
