Session 03:

Transforming M&E Learning: Expert Perspectives on Effective Teaching

In this session, leading experts from across the globe will share their insights on “Teaching M&E: Standards, Competencies, and Effective Approaches.”

Key highlights include:

- The development of standards for M&E education
- Aligning M&E courses with essential competencies for effective evaluators
- Innovative approaches in designing and delivering impactful M&E courses
- Best practices for enhancing learning outcomes in M&E education

Featuring distinguished panelists:

- Prof. Keiko Nishino, Professor, Integrated Center of UN and Foreign Affairs Studies, Kwansei Gakuin University, Japan
- Dr. Shyam Singh, Chair, Consortium of Institutions on M&E Education in Asia Pacific and Professor of Social Sciences, Institute of Rural Management Anand, India
- Dr. Soma De Silva, Former Regional Adviser, M&E, UNICEF South Asia
- Prof. Brad Astbury, Associate Professor, Health Systems Evaluation, University of Melbourne
- Ms. Mathivathany Sasitharan, Head, Department of Project Management, University of Vavuniya, Sri Lanka
- Dr. Almas Mazigo, Senior Lecturer and Coordinator, Master of Arts in Development Evaluation, Dar es Salaam University College of Education, Tanzania
- Prof. Mouleshri Vyas, Professor, Tata Institute of Social Sciences, Mumbai, India

A fascinating conversation for anyone interested in the future of Monitoring and Evaluation education!
