Assurances of the Statewide Program

These are the statewide required assurances to maintain funding for the Statewide Voluntary Preschool Program.

1. **Maintaining appropriately licensed teachers is a building block of this program.**
 - a. Teachers must have a valid practitioner's license issued by the BOEE under Iowa Code chapter 272
 - b. The teacher endorsement includes pre-kindergarten. The appropriate teaching endorsements are:
 - i. Teacher Endorsement #100 -- Prekindergarten through grade three, including special education
 - ii. Teacher Endorsement #103 - Prekindergarten through kindergarten; and
 - iii. Teacher Endorsement #106 - Prekindergarten through grade three
2. **All staff must meet program standards as stipulated in Chapter 16**
3. **Maximum class size:** There should never be more than 20 children in a classroom. No more than 20 children may be reported per session in Student Reporting in Iowa for certified enrollment/SWVPP funding.
 - a. NOTE: Districts must take children on IEPs into consideration and may want to hold spots for them and/or reduce the group size.
4. **Sufficient Number of Staff**
 - a. The staff to child ratio when the majority of children in the classroom are 4-years-old must be **1:10**.
 - b. There must be at least one appropriately licensed teacher present with children during SWVPP instructional hours. A minimum of one staff member and one teacher shall be present when 11 to 20 four year old children are present.
5. **Instructional time** is required to be a minimum of 10 hours per week with an appropriately licensed teacher.
 - a. The weekly schedule should be constant and not change from week to week so that every child is offered at least 10 instructional hours each week.
 - b. **Secular Instruction** - All faith-based partners must ensure that, from the time instruction supported by Statewide Voluntary Preschool Program funds starts until the time such instruction ends, no religious instruction takes place. There is to be no interruption or "sprinkling" of such instructional time for any faith-based purpose. The burden of compliance is on the district. Districts are encouraged to include this agreement in the contract verbiage with faith-based partners.
6. **Each classroom offering the Statewide Voluntary Preschool Program, Early Childhood Special Education, and/or any early childhood site serving children on an IEP must adopt and**

meet one of the approved sets of program standards:

- a. Head Start Program Performance Standards
 - b. Iowa Quality Preschool Program Standards and Criteria (our district follows these standards)
 - c. National Association for the Education of Young Children Program Standards and Accreditation Criteria. Districts indicated in their original applications to become part of the SWVPP which program standard each site would be following. Districts have 1 year to meet the program standards.
7. The preschool program shall demonstrate how the curriculum, assessment, staff development, and instructional strategies are aligned to the Iowa Early Learning Standards. The teacher shall provide instruction on the skills and knowledge included in the Iowa Early Learning Standards. The Iowa Early Learning Standards align with the Iowa Core Curriculum to allow for fluid programming from preschool through 12th grade.
8. The preschool program shall involve families in at least one home visit, one family night and at least two parent/family-teacher conferences per year.
- a. Two parent/family-teacher conferences per year must occur for children in the preschool program. Many districts align these days with the school calendar.
 - b. Home visits should not occur at the school. If families do not want the preschool staff at their home, then a neutral location should be agreed upon. The school building is not a neutral location. It is not acceptable to have parents sign a waiver for a home visit.
 - c. Family night is not recommended to be the orientation to the Preschool Program or an open house. Recommended examples of family nights may include math or literacy night, family fun night etc.
 - d. Ongoing two-way communication - frequent messaging from classroom and home should be documented. The district ensures that families are able to provide information to the school as well receive information from the school. Communication should be two-way not just school to home.
 - e. Programs are encouraged to assist in the identification and access of resources to meet the needs of families and children.
9. Children eligible to generate SWVPP funding must be four years old on or before September 15 of the school year and a resident of Iowa.
