

SYC Video Guide Checklist

Thank you for volunteering your time to capture the experience of a lifetime for your hunter. First, ensure you have a camera which can take photo/video and it is sufficiently charged.

There are 5 key opportunities we are especially interested in...

1. ____ Blind Photo
Take a photo of your team in front of your blind. Have driver take it so you can be in it. The best time for this is typically at the conclusion of the first morning hunt when the driver picks you up..
2. ____ Action Photo
Take a photo of the hunter with camo on while hunting in the blind.
3. ____ Kill Photo
If you are taking a shot, make sure you get it on video including panning back to see the hunter's expressions afterwards.
4. ____ Trophy Photo
If your harvest is successful, take a photo/video of the hunter and team with the animal.
5. ____ Family Photo
Take a photo of the hunter with his/her parent or caregiver.

You are welcome to take as many other photos as you want. We will share all photos with each other on a private drive after the hunt. On Saturday we will be taking a group photo and team photos. Any help you can provide in facilitating this process to go as smoothly as possible is appreciated.

Upload your photos to www.sycolorado.org/upload or text or email them to me. If you have any questions, issues, or comments let me know.

Thank you.
