Sutton,
SM2 5DR.

Dear Principal,

I am writing to inform you that I wish to withdraw my consent for the processing of my child's biometric data by the school. My child's name is <child's name> in class <class name>.

I understand that the school uses biometric identification systems for cashless catering. However, I am concerned about the privacy and security of my child's personal data and I do not want it to be stored or used by the school or any third parties without my explicit permission.

Therefore, I request that you delete my child's biometric data from the school's system as soon as possible and confirm this in writing. I also request that you provide my child with alternative means of accessing the school's services that do not require biometric data.

Thank you for your cooperation and understanding.

*Yours sincerely,
<Your name>*
